- All Contracts Detailed Report

**Purpose:**

The purpose of this document is to support integrity and transparency in Government Contracting and Procurement Practices through annual reporting activities.

**Introduction:**

The Government of Nunavut's Procurement and Contracting Report was prepared by the Department of Community and Government Services.

The organization of this report is based on the Government of Nunavut (GN) Contract Procedures and information available from GN databases.

The Report presents statistical information and contract detail about GN contracts reported by GN Departments, and CGS Regional Offices and Divisions, to CGS Contracts and Procurement Section.

It should be noted that contracts by the Crown Corporations are not reported to CGS and are not included in this report. Legislative Assembly contracts are included in the statistical review but not in the detailed listing in Appendix E. Details of those contracts are reported directly by the Legislative Assembly.

Contract information in this report is for contracts awarded and reported during fiscal year 2003/2004. CGS can not guarantee the accuracy of contract information reported by Departments, however, we do make best efforts to verify the information and ensure Departments are fully aware of the reporting requirements set out in the various applicable Government of Nunavut Policies and the Government of Nunavut Contract Procedures Manual.

**Report Overview:**

This report focuses on the distribution of contracts awarded to companies, individuals, or organizations.

Charts and graphs are used to illustrate the statistics presented.

Appendix B, entitled *Small Contracts Report*, includes Goods Contracts under \$5,000 and all other Contract Types under \$25,000, and does not include Local Contract Authorities (LCA's).

Appendix C, entitled *Large Contracts Report*, includes Goods contracts with a value of \$5,000 and greater, and all other Contract Types with a value of \$25,000 and greater.

Appendix D, entitled Sole Source Report, sets out the total Award Value of Sole Sourced Contracts, ordered by Department alphabetically.

**Appendix E**, entitled *All Contracts Detailed Report*, provides a listing of all contracts including all types and values of contracts reported. A breakdown of the number of contracts and value of contracts for Goods Contracts, and for all other Contract Types is provided, excluding Local Contract Authorities (LCA's) and Legislative Assembly Contracts.

The intent of Appendix E is to enhance transparency of Government Contracting & Procurement Practices while presenting meaningful and usefull information in a timely fashion; given the sheer volume and number of very small value transactions associated with Local Contract Authorities issued and the length of time required to gather and assemble this data, it is accepted that there would be very little relevant value added to the reader of this document.

The information was recorded at the time the contract was awarded. In some cases the "contract value" is an upper limit and does not reflect the amount actually paid out. If information is required on the current status of the contract, it must be obtained from the department that issued the contract. Every effort is made to ensure transparency, however, please note that certain Propriety Information may not be released for Contractual and Legal reasons.

### **Summary: All Contracts**

This is a summary of the Report, highlighting Government contracting.

#### **All Contracts:**

- ✓ 10,312 (698 Large + 1,098 Small +8,516 LCA's) contracts were awarded in 2003/2004 fiscal year.
- ✓ The total dollar value of all contracts was \$116,851,702.

#### **Small Contracts:** Goods & Services Contracts < \$5,000 and all other Contracts < \$25,000

- ✓ 9,611 Small Contracts were awarded, including LCA's.
- ✓ The total dollar value of Small Contracts was \$8,700,321.

#### **Local Contract Authorities (LCA's):** Goods & Services Contracts for Local Purchases < \$5,000

- ✓ 8,516 LCA's were issued.
- ✓ The total dollar value of LCA's was \$3,716,375.

**Large Contracts - Including Goods:** Goods & Services Contracts > \$5,000 and all other Contracts > \$25,000

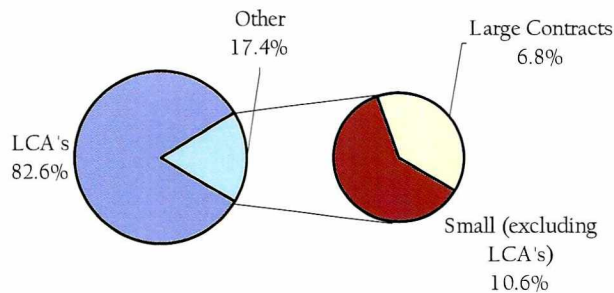

- ✓ 698 Large Contracts were awarded.
- ✓ The total dollar value of Large Contracts was \$108,132,145.

**Summary Contracting Types & Methods:**

82.6% of Government Contracts were transacted by Local Contract Authority.

The remaining 17.4% of Contracts were comprised of Small Contracts, and Large Contracts, excluding LCA's.

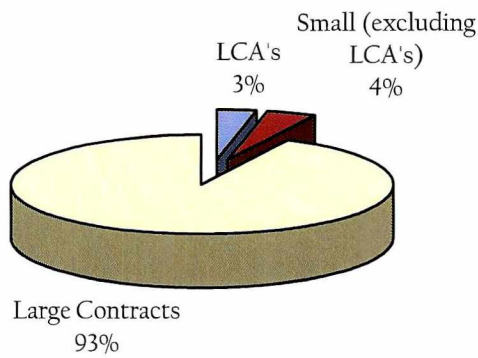

**Contract Distribution - Quantity**

■ LCA's ■ Small (excluding LCA's) □ Large Contracts

While it is evident that the number of Contracts are overwhelming entered into by LCA, (83%) , the subsequent chart entitled 'Contract Distribution - Value' illustrates that LCA's comprise only a small portion of the Value of Contracts (3%).

Contract Distribution - Value

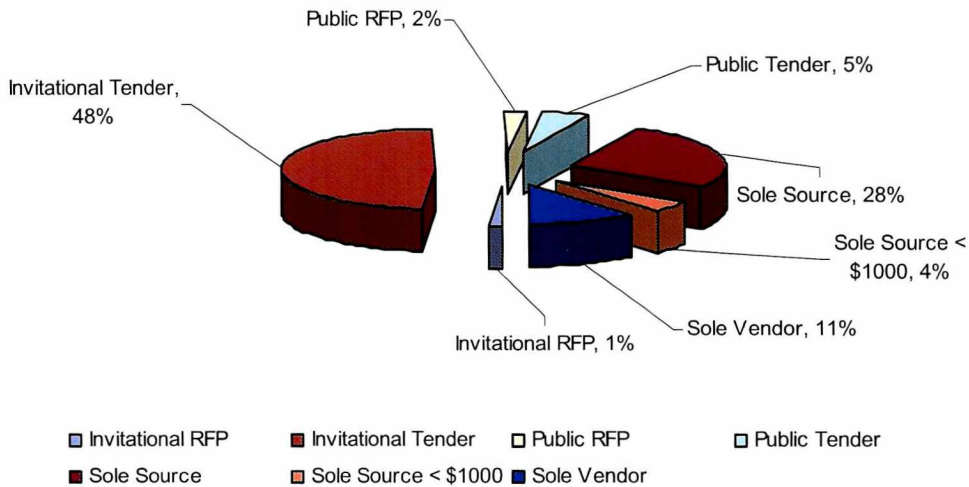

■ LCA's ■ Small (excluding LCA's) ■ Large Contracts

Further, it merits noting that 93% of the value of contracts awarded are for large contracts, though large contracts comprise approximately 6.7% of the number of contracts awarded.

The chart below, entitled 'Government of Nunavut Contracting Methods' illustrates the distribution of contracting methodology.

- ✓ 48% of the total number of Contracts Awarded were awarded based on Invitational Tender.
- ✓ 28% of the total number of Contracts Awarded were awarded based on Sole Source.
- ✓ 11% of the total number of Contracts Awarded were awarded based on Sole Supplier or Vendor.
- ✓ 5% of the total number of Contracts Awarded were awarded based on Public Tender.

**Government of Nunavut Contracting Methods ~ Quantity**

It is notable that only 28% of Government Contracting Activity comprises sole source contracts.

Typically there are programming reasons pertaining to a Department's mandate and area of responsibilities, which impact contracting methods and have implications on Departmental contracting practices.

For example, Line Departments delivering programs, contract goods and services in the normal course of their program operations more frequently than Departments which have central agency responsibilities and serve internal needs of Government.

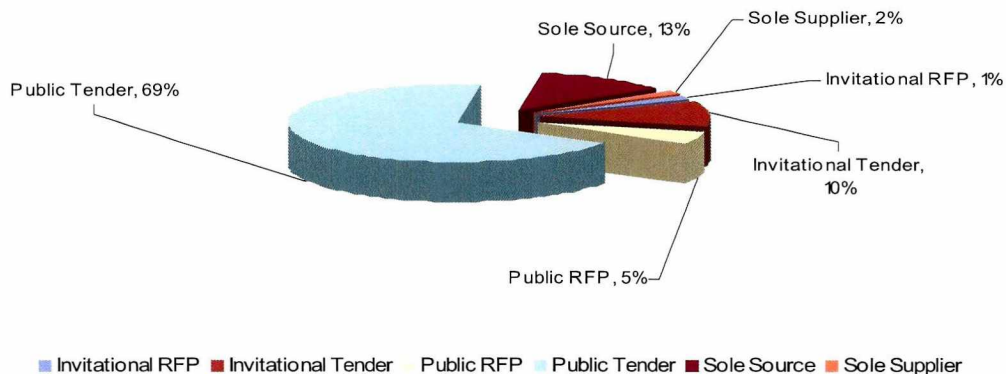

Departments with large program budgets, overall, issue a greater number of Contracts Annually, and as one would expect tend to have greater numbers of Sole Source Contracts.

The chart below, entitled 'Government of Nunavut Contracting Methods - Value' summarizes the distribution of contracting by value.

For example:

- ✓ 69% of the total value of Government contracts were awarded as Public Tender.
- ✓ 13% of the total value of Government contracts were awarded as Sole Source.
- ✓ 10% of the total value of Government contracts were awarded as Invitational Tender.
- ✓ 5% of the total value of Government contracts were awarded as Public Request for Proposals.

**Government of Nunavut Contracting Methods ~ Value**

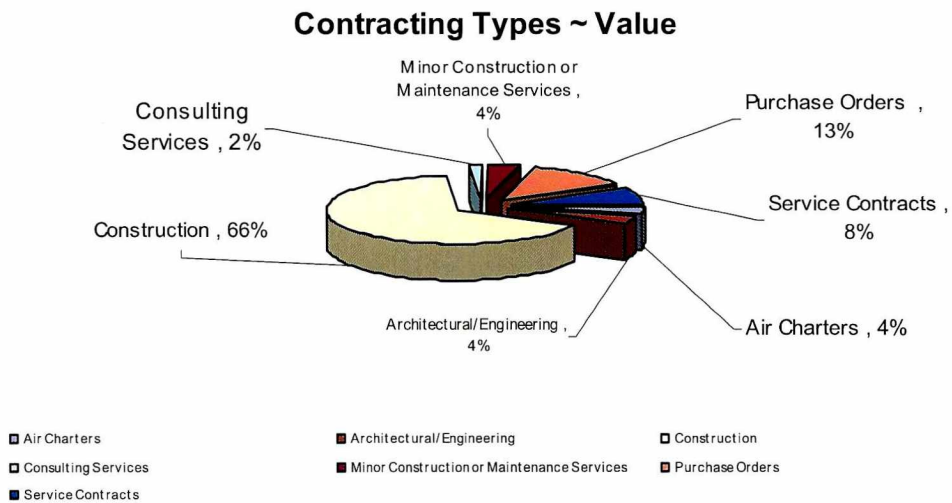

The chart below, entitled 'Government of Nunavut Contracting Methods - Types' summarizes the distribution of contract types by value.

For example:

- ✓ 66% of the total value of Government contracts were awarded for Construction.
- ✓ 13% of the total value of Government contracts were awarded as Purchase Orders.
- ✓ 8% of the total value of Government contracts were awarded as Services Contracts.
- ✓ 4% of the total value of Government contracts were awarded for Air Charter.
- ✓ 2% of the total value of Government contracts were awarded for Consulting Services.

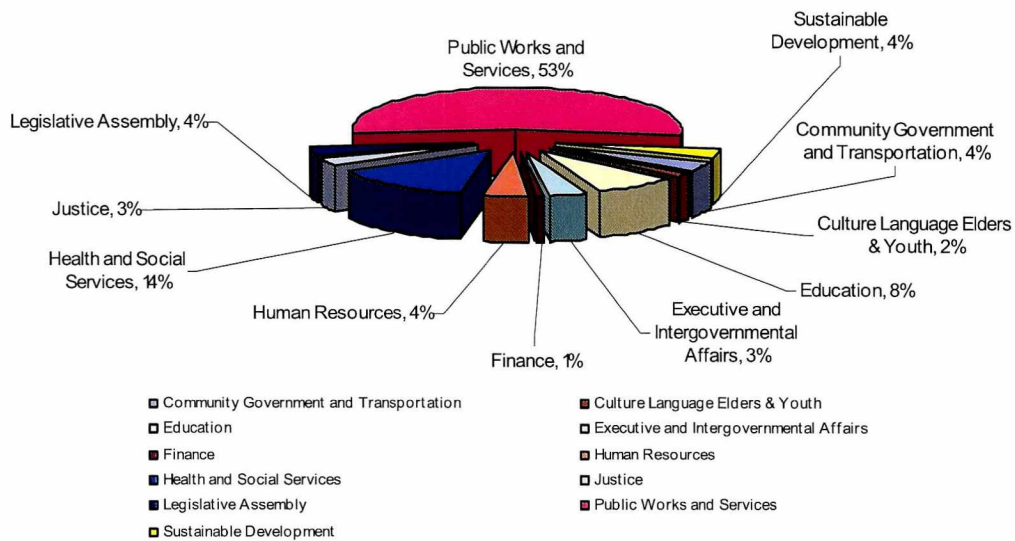

The chart below, entitled 'Sole Source Contract Distribution' summarizes the distribution of contracting by Department.

For example:

- ✓ 53% of the total value of Sole Source Contracts were awarded by Department of Public Works.
- ✓ 14% of the total value of Sole Source Contracts were awarded by Department of Health and Social Services.
- ✓ 8% of the total value of Sole Source Contracts were awarded by Department of Education.
- ✓ 4% of the total value of Sole Source Contracts were awarded by Department of Human Resources, Legislative Assembly, Sustainable Development, and Community Government and Transportation

### Sole Source Contract Distribution ~ Value

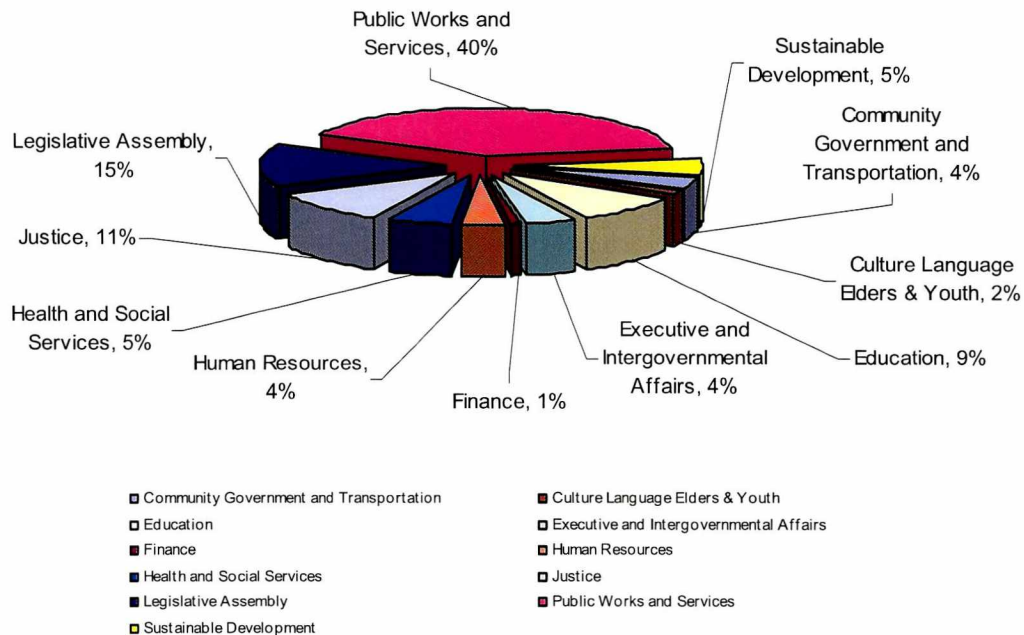

The chart below, entitled 'Sole Source Contract - Quantity' summarizes the distribution of quantity of Sole Source Contracts.

For example:

- ✓ 40% of the total number of Sole Source Contracts were awarded by Department of Public Works.
- ✓ 9% of the total number of Sole Source Contracts were awarded by the Legislative Assembly.
- ✓ 6% of the total number of Sole Source Contracts were awarded by Department of Justice.
- ✓ 5% of the total number of Sole Source Contracts were awarded by Department of Education.

### Sole Source Contract Distribution ~ Quantity

It should be noted that certain functions and responsibilities that are unique to certain Departments lead to prevalence and a higher propensity and reliance in both frequency and quantity of this contracting methodology. Emergency situations with health and safety considerations, such as, Search and Rescue, often produce a need to enter into a

contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of Capital Projects in the environmentally sensitive areas of sewage treatment, solid waste management and potable water have been contributing factors for sole source contracts, on occasion. The Arctic Environment and a short construction season does serve to complicate project delivery and contracting options.

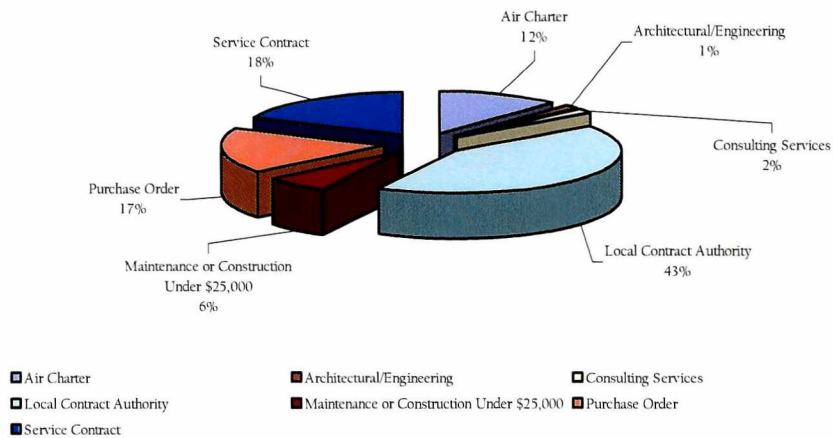

**Summary: Small Contracts**

The chart below, entitled ‘Small Contracts Distribution - Value’ illustrates the distribution of contracting methodology.

For example:

- ✓ 43% of the total value of Contracts Awarded were via an LCA.
- ✓ 18% of the total value of Contracts Awarded were via a Service Contract.
- ✓ 17% of the total value of Contracts Awarded were via a Purchase Order.
- ✓ 1% of the total value of Small Contracts Awarded were Architectural and Engineering contracts.

**Small Contracts Distribution - Value**

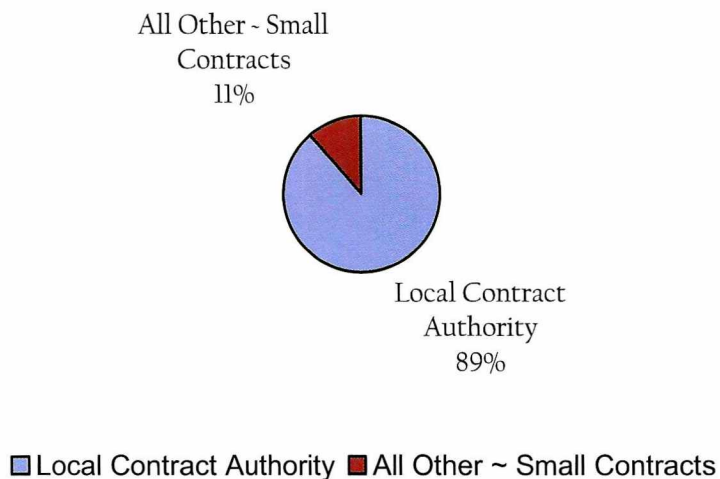

The chart below, entitled 'Small Contracts - Quantity Overview' illustrates the distribution of contracting methodology.

For example:

- ✓ 89% of all Small Contracts issued by Government Departments are transacted via an LCA.

In contrast, only 44% of the total value of Small Contracts awarded were via Local Contract Authority.

### Small Contracts- Quantity Overview

In sum, Local Contract Authorities represent a large number of small value transactions, with a total value in the order of \$3,716,375.

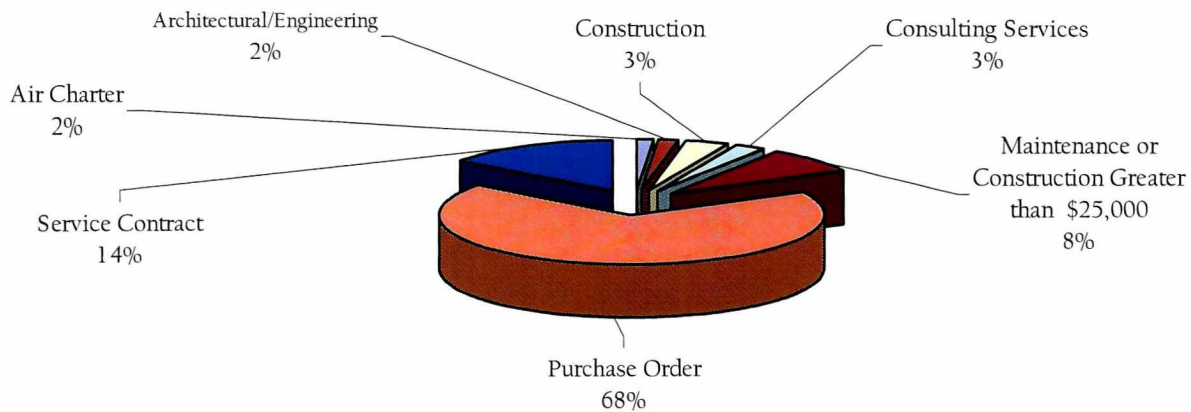

**Summary: Large Contracts**

The chart below, entitled 'Large Contracts Distribution' illustrates the distribution of contracting by type of Contract.

For example:

- ✓ 68% of Large Contracts issued were issued were Purchase Orders for Goods and Services.
- ✓ 14% of Large Contracts issued were issued were Service Contracts.
- ✓ 8% of Large Contracts issued were issued were Maintenance or Construction . \$25,000.
- ✓ 2% of all Large Contracts issued were Air Charters Contracts.

**Large Contracts Distribution - Quantity**

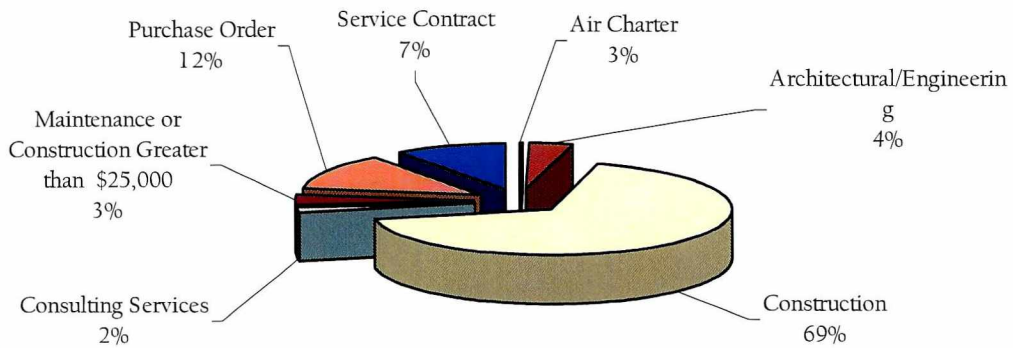

- |   |                           |
|---|---------------------------|
| Air Charter                                       | Architectural/Engineering |
| Construction                                      | Consulting Services       |
| Maintenance or Construction Greater than \$25,000 | Purchase Order            |
| Service Contract                                  |                           |

The chart below, entitled 'Large Contracts Distribution-Value' illustrates the distribution of contracting methodology for large contracts.

For example:

- ✓ 69% of the total value of Contracts Awarded were Construction Contracts.
- ✓ 12% of the total value of Contracts Awarded were Purchase Orders.
- ✓ 7% of the total value of Contracts Awarded were Service Contracts.
- ✓ 4% of the total value of Large Contracts Awarded were Architectural and Engineering contracts.

Large Contract Distribution - Value

- |                       |   |                  |
|-----------------------|---|------------------|
| ■ Air Charter         | ■ Architectural/Engineering                         | ■ Construction   |
| ■ Consulting Services | ■ Maintenance or Construction Greater than \$25,000 | ■ Purchase Order |
| ■ Service Contract    |   |                  |

**General Summary:**

A general summary of Government Contracting during fiscal year 2003/2004 is set out in Table I below.

Table I

Contract Type	Award Value <sup>*1</sup>	%
Air Charter	\$4,388,000	4%
Architectural/Engineering	\$4,387,000	4%
Consulting Services	\$1,963,000	2%
Construction	\$74,585,000	64%
Local Contract Authority	\$3,717,000	3%
Maintenance or Construction	\$4,341,000	4%
Purchase Order	\$14,467,000	12%
Service Contract	\$9,008,000	8%
<b>Grand Total of Contracts</b>	<b>\$116,856,000</b>	<b>100%</b>

In the future, with this annual report, it will be possible to monitor trends in contracting practices. This will include both value, type, and method of contracting.

*\*1: Rounded to the nearest thousandths.*

## Appendix A: Definition of Terms and Abbreviations

### Terms:

"Goods": In this report, "Goods" means contracts for the purchase of goods, that are primarily entered into by the Contracts & Procurement Purchasing Section on behalf of Government of Nunavut Departments, generally referred to as Purchase Orders.

"Invitational Tender or RFP": An Invitation is a contracting method where tender or RFP documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

"Invitational Tender": An Invitational Tender (IT) are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

"Invitational Request For Proposal": An Invitational Request For Proposal (IRFP) are those proposals which are sent to contractors or suppliers selected to submit proposals.

"LCA" or "Local Contract Authority": means contracts using an LCA form for local purchases that do not exceed \$5,000 in value. Use of this form is restricted to contracting with parties located in Nunavut.

"Purchase Orders": In this report, "Purchase Orders" means contracts for purchase of goods, primarily entered into by the Contracts and Procurement Purchasing Section on behalf of Government of Nunavut Departments.

"Public Tender": A Public Tender are those tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

"Request For Proposal": An Request For Proposal (RFP) has been defined as follows, "when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value".

"Sole Source": A Sole Source is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole-sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) or any other type of contract that will not exceed \$1,000 in value."

"Tender": Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.

Abbreviations Defined:

Departments:

- “CGT”: Community Government and Transportation
- “CLEY”: Culture, Language, Elders, and Youth
- “EDU”: Education
- “EIA”: Executive and Intergovernmental Affairs
- “FIN”: Finance
- “HR”: Human Resources
- “HSS”: Health and Social Services
- “JUS”: Justice
- “LA”: Legislative Assembly
- “PWS”: Public Works and Services
- “SD”: Sustainable Development

Contracting Methods:

- “IRFP”: Invitational Request For Proposals
- “IT”: Invitational Tender
- “SS”: Sole Source
- “PRFP”: Public Request For Proposals
- “PT”: Public Tender
- “SS”: Sole Source
- “SU”: Sole Source Under \$1,000
- “SV”: Sole Supplier or Vendor
