Purpose

The Department of Community and Government Services (CGS) is pleased to present this report on the Government of Nunavut (GN's) procurement and contracting activities for the 2016/17 fiscal year.

Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts as reported by GN departments to CGS's Procurement, Logistics and Contract Support section.

Contracts entered into by the GN Crown agencies and the Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during the 2016/2017 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the Nunavummi Nangminiaqtunik Ikajuuti (NNI Policy) and applicable GN policies and procedures.

Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and tables are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one-time initiatives. Readers of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report, and consider the many other reports and published program information made available by the GN as well.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the annual results. For instance, a significant level of capital projects in one year would likely reveal a high level of Public Tendering which is the typical approach when awarding large value major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in Public Tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments.

Major capital projects typically follow a period of planning which includes inception, planning and design phases prior to the period of intense construction activity. The following year would normally show a large reduction in contracting activity. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method.

A year in which a number of large capital projects are entering their design phase would see an increase in the volume and value of spending activity on design contracts ("A/E"). Given that the design phases of capital projects are typically followed by construction, it would be logical to see corresponding increases in the number and value of major construction contracts awarded ("CON") in the following year.

Given that design and construction contracts are typically higher value contracts awarded through a Public RFP or Tender method, whereas other types of contracts are typically of smaller value awarded through an invitational process; a significant decrease in the infrastructure contract values with no change in the other contract values could imply an increase in Invited Tenders or Proposals even though there is no real increase in those activities.

Contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding the health and welfare of Nunavummiut may warrant special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where a delay would be injurious to the public interest, or where there is only one vendor available and qualified enough to perform the contract. Therefore in a year in which the level of capital spending is low, the proportion of non-competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contracting Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

Sole Source Contract Observations

Sole Source contracting practices are monitored closely. The GN believes we get the best value for our money through competitive bidding processes, however, there are limited situations where the contracting regulations permit awarding contracts without competition. Section 3 of this report discusses the acceptable conditions for awarding contracts without competition.

The GN continues to review the contributing factors to contracts that have been Sole Sourced. CGS monitors the various types of contracts entered into without competition, and can offer strategic planning and other services to assist departments in decreasing their reliance on the Sole Sourcing methodology; especially where the permitted Sole Source criteria may not be met. For example, 'delay would be injurious to the public interest' is sometimes misunderstood, and the criterion 'there is only one party capable and available' is also sometimes relied upon without sufficient marketplace research or other appropriate data to support the request.

We will continue to work with departments towards reducing the use of this contracting method. In 2016/17 Sole Source contracts, decreased in volume by 46% however, increased in value by 24%. The number of Sole Source contracts are more prevalent (84%) in contracts valued under \$100,000. The value of Sole Sourced contracts has increased by 24% due to a Sole Source extension for the Kitikmeot Region Air Ambulance Service worth \$6 million. If not for this contract, the overall value would have also decreased significantly from 2015/16.

Not Included in These Statistics

Note: The statistical numbers in this report do not include four (4) large categories of contracts. Those are:

| | 2016/2017 | 2015/2016 | 2014/2015 |
|-----------------------------------|----------------|----------------|----------------|
| 1. Scheduled Medical Travel | \$ 44M (est.) | \$ 39M (est.) | \$ 37M (est.) |
| 2. Fuel (PPD) | \$ 155M (est.) | \$ 180M (est.) | \$ 199M (est.) |
| 3. Police and Laboratory Services | \$ 43M (est.) | \$ 37M (est.) | \$ 35M (est.) |
| 4. Physician Services | \$ 23M (est.) | \$ 27M (est.) | \$ 21M (est.) |

These four high value categories total approximately \$265 million in 2016/17. Medical Travel, Fuel Resupply and Physician Services are the result of a competitive process, Police and Laboratory Services is an extension of a previous contract with the RCMP. If we include these numbers, **Sole Source** contracts would value approximately **8%** of total expenditures. Eliminating these numbers from statistical analysis allows for a more detailed and closer examination of Sole Source contracts. The total volume of Sole Source contracts continues to decrease over the last nine years.

Appendix A outlines the definitions of terms and abbreviations.

Appendix B entitled *Sole Source Listing* provides a listing of all Sole Sourced contracts by value (> \$5,000) in ascending order.

Appendix C entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the award value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

Scheduled Medical Travel

The detailed lists in Appendices B and C do not include the value of Scheduled Medical Travel awarded by the Department of Health in 2016/17. At the request of Members of the Legislative Assembly we are providing a breakdown of dollar amounts spent in each fiscal year with each of the carriers for non-emergency medical travel:

| Airline | 2016/2017 | 2015/2016 | 2014/2015 |
|----------------------|------------------|------------------|------------------|
| Calm Air | \$ 18,217,234 | \$ 15,206,830 | \$ 9,848,120 |
| Canadian North | \$ 11,544,597 | \$ 10,527,021 | \$ 8,867,893 |
| First Air | \$ 13,897,082 | \$ 13,130,298 | \$ 19,093,819 |
| Keewatin Air Limited | \$ 742,906 | \$ 871,507 | \$ 64,484 |
| Total: | \$ 44,401,819 | \$ 39,735,656 | \$ 37,874,316 |

Fuel Re-supply

The following companies were awarded contracts for the fuel re-supply:

| Company | 2016/2017 | 2015/2016 | 2014/2015 |
|--|------------------|------------------|------------------|
| Arctic Fuel Services | \$ 328 | - | - |
| Arqartuuq Services Ltd. | - | \$ 577 | \$ 864 |
| ATCO Structures and Logistics | - | - | \$ 372 |
| Aulajuq Limited | \$ 150 | - | - |
| Baffin Gas Bar | - | \$ 124,582 | \$ 124,582 |
| Baker Lake Contracting and Supplies Ltd. | - | - | - |
| CAP Enterprises Ltd. | \$ 2,200 | - | - |
| DAPA Enterprises Inc. | - | \$ 14,000 | - |
| Eskimo Point Lumber Supply | \$ 4,940 | \$ 910 | \$ 1,345 |
| Ikaluktutiak Co-operative Ltd. | - | \$ 168,000 | - |
| Iqaluit Gas Bar | - | \$ 21,053 | - |
| JR Peyton Enterprises | - | \$ 1,333 | - |
| Kikiak Contracting Ltd. | \$ 5,500 | - | - |
| Kitnuna Expediting | - | \$ 235,579 | - |
| Kitnuna Projects | - | - | \$ 544 |
| Koomiut Co-operatives | - | - | \$ 178,032 |
| Lyll Construction | \$ 1,800 | \$ 300 | - |
| M&T Enterprises | - | \$ 290 | \$ 1,137 |
| Municipality of Qikiqtarjuaq | - | \$ 1,667 | - |
| Municipality of Sanikiluaq | - | \$ 35,182 | - |
| Northern Networks | \$ 1,276 | \$ 2,610 | \$ 84,402 |
| Nunavut Eastern Arctic Shipping | \$ 1,128 | \$ 154,602 | \$ 21,686 |
| Nunavut Sealink and Supply Inc. | \$ 123,711 | \$ 155,433 | \$ 139,045 |
| Padlei Co-op | \$ 138,357 | - | - |
| Paleajook Co-operative Ltd. | \$ 113,950 | - | - |
| Pangnirtung Eskimo Co-op Ltd. | \$ 1,250 | - | - |
| Peters Expediting Ltd. | - | \$ 300 | - |
| QDC Logistics | - | - | - |
| Qikiqtaq Co-op Ltd. | \$ 375 | \$ 500 | - |
| Qikiqtaq Equipment | - | \$ 3,583 | \$ 2,852 |
| R&A Vehicle | \$ 2,100 | - | - |
| R.L. Hanson Construction Ltd. | - | \$ 4,483 | \$ 3,358 |

| | | | |
|---------------------------|----------------|----------------|----------------|
| Sanavik Co-operative | \$ 104,512 | \$ 183,600 | \$ 186,510 |
| Savik Enterprises | \$ 4,515 | \$ 3,519 | \$ 3,305 |
| Sikitu Sales and Services | - | - | \$ 16,955 |
| Sudlik Developments Ltd. | - | \$ 1,007 | - |
| Tununiq Sauniq Co-op Ltd. | \$ 336,506 | \$ 417,200 | \$ 488,343 |
| Uqsuq Corporation | \$ 1,084 | - | \$ 3,377 |
| Woodwards | \$ 153,754,175 | \$ 178,609,899 | \$ 197,977,471 |

Contracts Awarded by Executive Council

The Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were no contracts awarded by Executive Council for the reporting period.

General Observations

This Procurement Activity Report (PAR) and the sister report; Contract Activity Report (CAR) are composed of data from the same database. Contract information is reported from all departments of the Government of Nunavut. It is quite possible that as the contract information is entered into the database that some human error will occur. The Department of Community and Government Services (CGS) makes best efforts to verify the accuracy and completeness of the dataset. We use various sources of external information (Freebalance, Requisition Log and Contract Management Listing) to verify the data. It is virtually impossible to assure 100% accuracy. However, even though it is a less than perfect system, we can rely on many repetitive, multi-year trends in the data analysis. This next section of the report will make a brief synopsis of the statistical results for the fiscal year 2016/17 and will also outline some of the multi-year trends.

The actual **volume** of contracts (number of contracts issued) increased by 24% from 2015/16 to 2016/17. This is a significant increase.

The actual **value** of contracts is down slightly by 6% from 2015/16 and up 30% from 2014/15.

The department with the largest **volume** of contracts is Community and Government Services (CGS) with 23% followed by Health (HLTH), also at 23%.

In the last fiscal year 2016/17, the most common method of awarding contracts, by **volume**, is through Public and Invitational Tenders and RFP's (75%). This percentage was 72% in 2015/16.

82% of the total **value** of all contracts is the result of some form of competitive bidding in 2016/17. This is a decrease of 3% from 2015/16.

In 2016/17 the combined volume of Sole Source and Sole Vendor contracts is up by 8% (or 44 contracts) but the value of combined Sole Source and Sole Supplier contracts is up by 8.6%, or \$4.8 million dollars.

Multi-Year Trends

The **volume** of Sole Sourced contracts has **decreased by 46%** from the fiscal year 2015/2016 to 2016/2017 and the **value** of Sole Sources increased **by 24%** over the same period. Over the last three years covered in this report, the value of Sole Source contracts has **decreased by 12%** and the volume Sole Sourced contracts has **decreased by 63%**.

Emergencies in communities will always require the use of Sole Source contracts. In 2012, PPD Sole Sourced a contract for a gasoline spill containment in the community of Resolute Bay, and another contract for emergency pipeline bridge repairs in Kimmirut. If not for the emergency contracting provision of the government contracting regulations, PPD would not have been able to respond to the emergencies without delay. This illustrates the correct an appropriate application of the Sole Source criterion "delay would be injurious to the public interest" and is precisely why the regulations permit such a practical approach. In this report, a contract awarded under the emergency award provisions of the contracting regulations are identified as "SE" in Appendix C, and are included with the Sole Source (SS) figures in the tables in section 4 (Sole Source contract distribution).

The contracting regulations also allow the Sole Sourcing of design services under \$25,000 (AE), and any other type of contract under \$5,000. This report does not analyse contracts under \$5,000, however A/E contracts under \$25,000 are identified as "SA" in Appendix C.

The final criterion in the contracting regulations where awarding contracts without competition is permitted, 'SV' or 'only one qualified vendor is capable and available' is more difficult to quantify, and therefore applied with the most subjectivity. CGS recommends that the best way to substantiate availability of qualified contractors and consultants is to go to the marketplace and request competitive bids. Sole Source (SS) and Sole Vendor (SV) contracts often cancel each other out from year to year. As the volume of Sole Source contracts trends downwards, the volume of Sole Vendor contracts often increases. The values and volumes for these contracts are presented separately in the tables in section 3 and 4.

Sole Vendor (SV) contracts typically include orders for Alcohol Products (for resale), Corcan Office Furniture, Software Updates, Support Services and Intellectual Property such as Specialized Training Courses and Educational Materials.

Over the last ten years, the volume and value of Sole Source (only) contracting has been generally **decreasing**. The **volume** is **down** by **88%** (from 515 in 2007/08 to 64 in 2016/17) and the **value** is **down** by 79% (from \$48 million in 2007/08 to \$10.1 million in 2016/17). These are significant achievements in the government's commitment to monitor and reduce its reliance on this contract awarding method.

A ten year average, since 2007/08, 540 contracts per year, or 30% of the total volume, are not competitively tendered.

For contracting type by value, we see some seven and eight-year trends:

- Architectural & Engineering composes 1-3% of total value.
- Minor Construction and Maintenance composes 2-5% of total value.
- Purchase Orders are 11% of total value.

For contracting type by volume we see some 6-year trends:

- Architectural & Engineering composes 1-2% of contract volume.
- Minor Construction and Maintenance composes 3-5% of contract volume.
- Air Charters compose 5-8% of contract volume.
- Purchase Orders had been relatively consistent at 26-30% of volume of contracts however, in 2013/14 we saw a spike of up to 33%.
- Major Construction contracts compose 1% of volume.

Over the last seven (7) years, the volume of Air Charter contracts has been relatively consistent at 5-8% of the volume of all contracts.

Since 2013/14 to 2016/17, roughly 14% of the volume of all Service Contracts has been for employee relocation moving services.

For the last seven years, Service Contracts and Purchase Orders combined represent the largest **volume** of contracts (70%).

Summary

1. All Contracts (> \$5,000)

The charts below “Government of Nunavut Contracting Value” summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

Government of Nunavut Contracting Value and Volume 3-Year Comparison

The *Procurement Activity Report* has been produced for the past fifteen fiscal years. The two charts above illustrate how the GN's contracting activities have changed over the past three years and are further supported by the details provided in the following table. In terms of contract value, the highest level of contracting activity occurred in the 2015/2016 fiscal year. The total value of contracts for 2016/17 shows a decrease from the previous year (6%). In terms of volume, the number of contracts issued in 2016/2017 represents a 24% increase compared to the number of contracts awarded the prior year.

The following Average Contract Value shows that the average contract value has decreased by \$48,000 over the last fiscal year. An analysis of Appendix C compared to the charts presented in this report, and those from past fiscal years will indicate areas where spending has increased or decreased.

All Contracts

| Type | 2016/17 | 2015/16 | 2014/15 |
|-------------------------|------------|------------|------------|
| Number of Contracts | 2,450 | 1,978 | 2,002 |
| Total Value (Thousands) | \$ 376,225 | \$ 399,164 | \$ 288,944 |
| Avg Contract Value | \$ 154 | \$ 202 | \$ 144 |

The chart below “Government of Nunavut Department Distribution – Value” summarizes the distribution of contracts by department.

**Government of Nunavut
Department Distribution – Value
2016/17**

The chart above shows the level of contract activities each department engaged in during the 2016/2017 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure development, health, and emergency services engaged in higher levels of contract activities. Services are often needed in order to address the needs of Nunavummiut, fulfill departmental mandates and meet client service expectations and needs.

In the fiscal year 2013/2014 the Government of Nunavut implemented some structural changes. These were as follows:

- Family Services became a new division, largely broken off from Health.
- Human Resources no longer exists as a Department and those functions were adopted by Finance.

Generally one can expect to see the totals for Health decrease and those of Finance to increase.

Total Contract Distribution by Department – Value (Thousands)

| Department | 2016/17 | | 2015/16 | | 2014/15 | |
|---|-------------------|-------------|-------------------|-------------|-------------------|-------------|
| Community and Government Services (CGS) | \$ 97,689 | 26% | \$ 199,596 | 50% | \$ 85,378 | 30% |
| Culture and Heritage (CH) | 2,346 | 1 | 700 | - | 1,330 | - |
| Economic Development and Transportation (EDT) | 26,463 | 7 | 30,865 | 8 | 23,787 | 8 |
| Education (EDU) | 74,988 | 20 | 15,700 | 4 | 37,960 | 13 |
| Executive and Intergovernmental Affairs (EIA) | 3,297 | 1 | 3,905 | 1 | 5,719 | 2 |
| Environment (ENV) | 8,356 | 2 | 6,488 | 2 | 6,497 | 2 |
| Family Services (FS) | 45,669 | 12 | 29,479 | 7 | 37,120 | 13 |
| Finance (FIN) | 8,154 | 2 | 9,303 | 2 | 4,604 | 2 |
| Health (HLTH) | 102,736 | 27 | 99,301 | 25 | 82,089 | 28 |
| Justice (JUS) | 6,528 | 2 | 3,829 | 1 | 4,460 | 2 |
| Total | \$ 376,226 | 100% | \$ 399,166 | 100% | \$ 288,944 | 100% |

In 2016/17 we saw a decrease of \$22,940,000 and in 2015/16 we saw an increase of \$110,222,000 in total contract spending. Please reference the full list in Appendix C of this report.

In 2016/17 we see that the Departments of Education and Family Services had significant increases in the values of contracts awarded.

The Department of Education awarded the Construction of a New High School in Igloolik and temporary Modular Classrooms in Cape Dorset. The contracts account for \$26 million in the awards. We also see that the values of contracts awarded for CGS have returned to 2014/15 levels.

The chart below “Government of Nunavut Department Distribution – Volume” illustrates the distribution of contracts by department.

**Government of Nunavut
Department Distribution – Volume
2016/17**

We note that in the fiscal year 2016/17, the **volume** of contracts has **increased by 24%**, this is a significant jump. The Departments of Education and Health both had significant increases in their contracting volumes, 78% and 26% respectively.

The Departments of Health and Community and Government Services represent the highest level of contracting activity attributable to the Specialized Goods and Services required to meet the needs of Nunavummiut.

Total Contract Distribution by Department – Volume

| Department | 2016/17 | | 2015/16 | | 2014/15 | |
|---|--------------|-------------|--------------|-------------|--------------|-------------|
| Community and Government Services (CGS) | 574 | 23% | 558 | 28% | 454 | 23% |
| Culture and Heritage (CH) | 59 | 2 | 22 | 1 | 41 | 2 |
| Economic Development and Transportation (EDT) | 86 | 4 | 84 | 4 | 113 | 6 |
| Education (EDU) | 334 | 14 | 188 | 10 | 223 | 11 |
| Executive and Intergovernmental Affairs (EIA) | 81 | 3 | 74 | 4 | 60 | 3 |
| Environment (ENV) | 191 | 8 | 146 | 7 | 108 | 5 |
| Family Services (FS) | 293 | 12 | 226 | 11 | 275 | 14 |
| Finance (FIN) | 146 | 6 | 122 | 6 | 126 | 6 |
| Health (HLTH) | 567 | 23 | 449 | 23 | 516 | 26 |
| Justice (JUS) | 119 | 5 | 109 | 6 | 86 | 4 |
| Total | 2,450 | 100% | 1,978 | 100% | 2,002 | 100% |

During 2016/17 Community and Government Services processed over 60 As and When contracts.

Most of the contracts for CGS support the ongoing operations of Government departments. These include “As and When” contracts for building and vehicle maintenance, fuel and a significant volume of contracts for ongoing Information Technology Services.

For the Department of Family Services, a majority of their contracts are composed of Specialized Residential Care Services for individual clients.

In 2016/17 all departments saw an increase in the volume of contracts.

2. Contracting Types

The chart below “*Government of Nunavut Contracting Value*” summarizes the distribution of contract values by type.

**Government of Nunavut
Contracting Types – Value
2016/17**

The pie chart above shows that the categories of contracts that represent the largest spend are Service and Construction contracts. Appendix “C” lists all contracts over \$5,000. In 2016/17 we see a slight decrease in overall contract value by 6%. However over the three years of this report, the overall value of contracts has increased by 30%.

In 2015/16, Construction had the lowest spend compared to the previous 3 years. In 2016/17 Construction has increased by 102%. Some of the significant projects included a new High School in Igloolik, Water and Wastewater Upgrades in Igloolik, a New Hamlet Office in Kugaaruk and a new Airport Terminal Building in Taloyoak. Together, these projects total over \$50 million.

In 2016/17 the value of Minor Construction and Maintenance Services has increased by 136%. This is largely due to the over 60 As and When contracts that were tendered.

In 2016/17 we also see a significant increase in Purchase Order value (41%). This is consistent with the overall increase in contract volumes.

Air Charter contracts may include contracts for any of the following:

- Court Travel, 18% of volume in 2013/14, 26% in 2014/15, 19% in 2015/16 and 33% in 2016/17.
- In support of PPD operations, 14% of volume in 2013/14, 19% in 2014/15, 7% in 2015/16 and 5% in 2016/17.
- Dental/Medical charters, 11% of volume in 2013/14, 23% in 2014/15, 13% in 2015/16 and 10% in 2016/17.
- Wildlife Surveys, 11% of volume in 2013/14. In 2014/15, the volume for ENV was 5%, 4% in 2015/16 and 8% in 2016/17.

Air Charters tend to fluctuate from year to year. The top four categories are:

- Movement of Government personnel.
- Court Circuit travel.
- Dental/Medical Travel and
- Petroleum Products Division operations
- Wildlife Surveys.

Contracting Types – Value (Thousands)

| Type | 2016/17 | | 2015/16 | | 2014/15 | |
|--|-------------------|-------------|-------------------|-------------|-------------------|-------------|
| Air Charter (AC) | \$ 5,693 | 2% | \$ 6,167 | 2% | \$ 4,323 | 1% |
| Architectural/Engineering (AE) | 14,116 | 4 | 6,255 | 2 | 2,740 | 1 |
| Construction (CON) | 104,087 | 28 | 51,524 | 13 | 83,353 | 29 |
| Consulting Services (CS) | 44,968 | 12 | 49,210 | 12 | 17,046 | 6 |
| Minor Construction or Maintenance Services (MC) | 19,508 | 5 | 8,242 | 2 | 15,867 | 5 |
| Purchase Orders (PO) | 41,627 | 11 | 29,532 | 7 | 26,311 | 9 |
| Service Contracts (SC) | 146,227 | 39 | 248,234 | 62 | 139,304 | 48 |
| Total | \$ 376,226 | 100% | \$ 399,164 | 100% | \$ 288,944 | 100% |

Refer to Appendix “C” for a detailed contract listing.

The chart below “Government of Nunavut Contracting Types – Volume” illustrates the distribution of contracts by type.

**Government of Nunavut
Contracting Types – Volume
2016/17**

Contracting Types – Volume

| Type | 2016/17 | | 2015/16 | | 2014/15 | |
|---|---------|------|---------|------|---------|------|
| Air Charter (AC) | 144 | 6% | 162 | 8% | 110 | 5% |
| Architectural/Engineering (AE) | 34 | 1 | 18 | 1 | 16 | 1 |
| Construction (CON) | 23 | 1 | 20 | 1 | 24 | 1 |
| Consulting Services (CS) | 403 | 16 | 382 | 19 | 147 | 7 |
| Minor Construction or Maintenance Services (MC) | 128 | 5 | 72 | 4 | 110 | 5 |
| Purchase Orders (PO) | 709 | 29 | 587 | 30 | 563 | 28 |
| Service Contracts (SC) | 1,009 | 41 | 737 | 37 | 1,032 | 52 |
| Total | 2,450 | 100% | 1,978 | 100% | 2,002 | 100% |

Over the last seven (7) years, the volume of Air Charter contracts has been consistent at 5-8% of the total of all contracts. However, the value has varied significantly from year to year.

Contracts for Residential Care Services are awarded by the Departments of Family Services and Health. In total, approximately 335 contracts were for this service. These made up 52% of Consulting Service contracts, (mostly awarded by Family Services) and 12% of Service Contracts (mostly awarded by Health). The total volume of Residential Care contracts has increased by approximately 30%.

In 2013/14, 30% (255) of the volume of Service Contracts were for the Departments of Health and Family Services for Specialized Residential Care. In 2014/15 the percentage was similar at 31%. In 2015/16 there were approximately 255 contracts for Residential Care. This has been reported in both Consulting Services and Service Contracts.

In 2013/14, 14% (120) of the volume of Service Contracts were for employee relocation in and out of Nunavut. In 2014/15 the percentage was similar at 15%. In 2015/16 employee relocation was 12% of Service Contracts. In 2016/17, employee relocation was 15% of the volume or 150 contracts.

3. Contracting Methods

The chart below “Government of Nunavut Contracting Methods – Value” summarizes the distribution of contracting method by value.

**Government of Nunavut
Contracting Methods – Value
2016/17**

The definitions for the various contracting methods can be found in Appendix A of this report.

Public Tenders and Request for Proposals processes continue to represent the most significant contracting method employed by the GN. The GN believes that best value is received for goods & services through the public competitive tender process.

As in most jurisdictions, the awarding of contracts on a non-competitive basis is understandably limited to specific situations and must be appropriately justified and approved.

Compared to other award methods, the values for Invitational Tenders and Invitational RFP's appears small because only contracts under \$25,000 and Construction under \$100,000 are awarded through an invitational process. Contracts of a higher value must be awarded through a public process, therefore values for Public Tender and Public RFP's are higher.

The Request for Proposals process is generally recommended to enter into Consultant and Service Contracts. Tender processes are used for Goods, Construction and Maintenance purchases.

**Contracting Methods – Value
(Thousands)**

| Method | 2016/17 | | 2015/16 | | 2014/15 | |
|------------------------------|-----------|------|-----------|------|-----------|------|
| Extensions (EXT) | \$ 5,374 | 1% | \$ 3,723 | 1% | \$ 10,798 | 4% |
| Invitational RFP (IRFP) | 3,355 | 1 | 3,247 | 1 | 2,265 | 1 |
| Invitational Tender (IT) | 8,276 | 2 | 7,792 | 2 | 6,858 | 2 |
| Public RFP (PRFP) | 195,407 | 52 | 256,784 | 64 | 113,485 | 39 |
| Public Tender (PT) | 102,979 | 27 | 71,619 | 18 | 102,027 | 35 |
| Sole Source (SS & SE) | 10,171 | 3 | 8,221 | 2 | 11,585 | 4 |
| Sole Supplier or Vendor (SV) | 50,663 | 13 | 47,779 | 12 | 41,926 | 15 |
| Total | \$376,225 | 100% | \$399,165 | 100% | \$288,944 | 100% |

Over the last ten (10) years of this report, the overall volume and value of contracts that are not competitively tendered (SS plus SV) continues to decrease, as a percentage of the total. These contracts are classified as Sole Source (SS) and Sole Vendor (SV) Contracts generally continues to decrease. See trending figures below. The following figures represent the combined Sole Source and Sole Vendor (non-competitive) process.

In 2016/17 the value of contracts not competitively tendered is up by 8%. However the overall volume of contracts is up by 24%.

A ten year analysis shows, on average, the GN awards 540 contracts per year that are not competitively tendered. These represent 30% of contract volumes.

Sole Source and Sole Vendor Contract Trends

The following is a list of combined Sole Source and Sole Vendor totals by volume and value over the last 10 years. These numbers do not include contract extensions. Many contract extensions are the result of an initial competitive procurement process.

| Year | Volume | % | Value | % |
|---------|--------|-----|--------|-----|
| 2016/17 | 564 | 23% | 60,834 | 16% |
| 2015/16 | 520 | 26% | 56,000 | 14% |
| 2014/15 | 471 | 24% | 53,511 | 19% |
| 2013/14 | 550 | 29% | 38,402 | 11% |
| 2012/13 | 475 | 26% | 42,258 | 12% |
| 2011/12 | 530 | 28% | 61,462 | 17% |
| 2010/11 | 570 | 31% | 58,114 | 21% |
| 2009/10 | 597 | 33% | 55,480 | 24% |
| 2008/09 | 576 | 38% | 61,409 | 22% |
| 2007/08 | 563 | 39% | 51,432 | 27% |

The volume of not competitively tendered contracts as a percentage of the total volume decreased from 2007/08 to 2012/13. However the volume increased by 3% in 2013/14. This is largely due to books and curriculum materials purchased by the Department of Education to support a new curriculum. These books and materials are protected by copyright. While the volume increased in 2013/14, the overall value as a percentage of the total decreased by 1% from 12% to 11%. In 2014/15 the volume continues to decrease however, the value had jumped to 19%. This is largely due to 34 contracts awarded by the Department of Economic Development and Transportation worth an estimated value of \$16 million for Airport Operations and Maintenance and Aerodrome activities. All of these contracts, categorized as Sole Vendor (SV). In 2015/16 we see the volume increased to 26% but the value decreased to 14%. In 2016/17, the total volume and value have increased. However as a percentage of the volume of all contracts, the volume has decreased.

The chart below “*Government of Nunavut Contracting Methods – Volume*” illustrates the distribution of contracting methodology.

Government of Nunavut Contracting Methods – Volume 2016/17

Generally, 60-70% (75% in 2016/17) of the volume of contracts are the result of a competitive process. Note that in some circumstances, extensions of contracts may be considered competitive process if they were originally part of a competitive process; therefore not all extensions are non-competitive.

It is also worthwhile to note that more departments are using the services of CGS Purchasing, Logistics and Contract Support to award their contracts through a competitive Tender or RFP process. CGS's Procurement, Logistics and Contract Support Services section continues to work with departments to decrease the use of Sole Source and Sole Vendor criteria to award contracts.

Contracting Methods – Volume

| Method | 2016/17 | | 2015/16 | | 2014/15 | |
|------------------------------|----------------|-------------|----------------|-------------|----------------|-------------|
| Extensions (EXT) | 46 | 2% | 32 | 2% | 104 | 5% |
| Invitational RFP (IRFP) | 61 | 2 | 38 | 2 | 33 | 2 |
| Invitational Tender (IT) | 241 | 10 | 281 | 14 | 241 | 12 |
| Public RFP (PRFP) | 1,277 | 52 | 907 | 46 | 947 | 47 |
| Public Tender (PT) | 261 | 11 | 200 | 10 | 206 | 10 |
| Sole Source (SS) | 64 | 3 | 118 | 6 | 171 | 9 |
| Sole Supplier or Vendor (SV) | 500 | 20 | 402 | 20 | 300 | 15 |
| Total | 2,450 | 100% | 1,978 | 100% | 2,002 | 100% |

Contracting without delay for competition, in emergency circumstances, where public safety and or continued service to public may otherwise be hampered, represents the proper use of the Sole Source contracting method. These emergencies are not predictable. Sole Source contracts are necessary for Goods and Services to avoid public harm.

Sole Source methods are of concern. Senior Managers and Directors need to continue to be conscious of this and plan to avoid Sole Source and Sole Vendor contracts where possible. GN Procurement Guidelines as well as the FAA (Financial Administration Act) clearly define the acceptable conditions for Sole Sourcing. Sole Sourcing is primarily a tool for dealing with emergency situations and public safety.

The next section of this report discusses the GN's Sole Sourcing activities in further detail. A detailed review of Appendix B will indicate where GN departments are using Sole Sourcing to assist them with implementing their mandates.

4. Sole Source Contract Distribution

As a procurement section, we strive to achieve the maximum value for the Government of Nunavut. This is only possible through the competitive, public bidding process. GN procurement guidelines as well as the Government Contract Regulations set out the acceptable conditions for awarding contracts without competitive bidding (Sole Sourcing). Procurement guidelines explain the GN contracting regulations and provide restrictions for when a contract can be awarded without competition.

Sole Source contracting is allowed where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000, or the contract is any type of contract that will not exceed \$5,000 in value.

Section 8 (c) of the regulations is the easiest to implement because it requires only a 'yes/no' answer. Is the contract over \$5,000? If not, it does not fall within the 'under \$5,000 criterion'. Is it a contract for Architectural/Engineering Services under \$25,000? If not, then it does not fall within the 'AE under \$25,000' criterion.

Sections 8 (a) and (b) of the regulations, however, are more difficult to implement because they are subject to interpretation of what constitutes 'public injury' or 'capable and available'.

Section 8 (a) of the regulations can be somewhat tricky in that many contracting authorities believe that public well being, in addition to health and safety, are legitimate factors to consider when deciding not to go to competition. For example, it may be more beneficial to a community to Sole Source or Invite Tenders for Major Works contracts rather than Publicly Tender, when missing sealift can sometimes delay final delivery of a facility for 2 full years. In some cases, this may be a reasonable approach; however, it should not be the only alternative if project schedules fall behind due to a lack of strategic planning and project coordination.

In some situations it is not advisable to issue a competitive call for tenders or proposals, by invitation or advertisement. In these situations, the delay caused by the tender or RFP process would be harmful to person(s) or end users of the good or service. These are emergency situations where, if the government doesn't act immediately, there will be some form of public harm or injury. Where there is a true emergency, such as the risks to water supply or search and rescue operation, it is quite easy to recognize, and reasonable to implement. In a true emergency, there is no time for a competitive procurement process. This is not to say that all emergencies or public harm is strictly a health and safety hazard. Indeed, many situations call for government action to improve the emotional health and well being of the public as well.

Section 8(b) of the regulations on the other hand, can be especially difficult to manage as it is open to wider interpretation and, therefore, susceptible to much broader use. There are many circumstances, however, that do legitimately fall within the s.8(b) criterion, and these are true "Sole Vendor" situations. Situations involving licenses, software maintenance, patents and intellectual property or the purchase of a part component for equipment, (such as a valve or pump to repair a fuel delivery truck or fire engine, or plow parts for snow clearing equipment). Situations that do not warrant a competitive process, because there are no other manufacturers or suppliers of the specific product, are true Sole Vendor circumstances. For instance, NorthwesTel is the Sole Vendor of land-line telephone services in Nunavut; QEC is the Sole Vendor of electricity. These are situations where there truly are no other service providers to engage in competition.

This is not to say that a “Sole Vendor” situation applies when purchasing many commodities. In fact, when purchasing vehicles and or other products such as photocopiers and fax machines, etc., the GN must avoid the use of brand specific names. Requests for Tenders and Proposals must always indicate that the GN will accept bids for similar or equivalent products so long as they meet the quality and functional requirements that are established in the request.

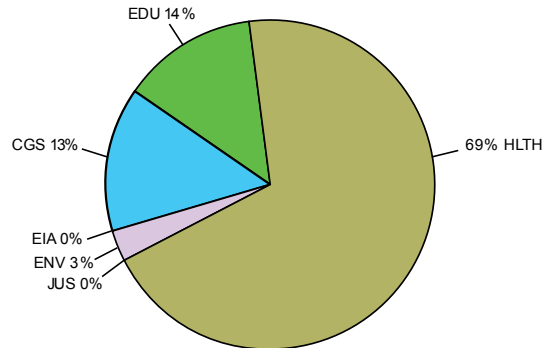

In some cases, it may be perceived by departments to be reasonable to rely on this clause to maintain delivery of critical programs and services at levels expected by the public or internal client departments (specialized professional services; such as licenses, medical professionals and services). In many cases, departments need to bring in specialized skill sets to design programs to meet responsibilities owed to the public and oversee that program’s delivery. Sometimes departments simply need to keep up with demand in delivering basic services to internal clients. In this situation, the interpretation of ‘only one party capable and available’ can be too broad, and the criterion is likely being relied upon for convenience in lieu of a potentially lengthy and complex RFP process.

The GN believes that best value is received for public dollars through open, fair and transparent competitive procurement processes. Furthermore, CGS believes that the best way to determine a supplier’s qualifications, availability and value is to seek their proposals on solution, implementation and price, and also evaluate their past experience and qualifications against defined and measurable standards.

The public’s satisfaction with a department’s performance and service levels, in any given program at any given time, will always be an indicator of good value for public money. In all cases where a department is considering entering into a contract under s.8(b) of the contracting regulations, CGS Purchasing, Logistics & Contracts Support is available to provide assistance on alternative contracting approaches. Where departments have already entered into s.8(b) contracts, Purchasing recommends referring to the GN’s Personal Service Contracts directive for further guidelines.

The chart below “Government of Nunavut Sole Source Contract Distribution – Value” summarizes the distribution of contracting method by department.

**Government of Nunavut
Sole Source Contract Distribution – Value
2016/17**

It should be noted that certain functions and responsibilities that are unique to certain departments lead to a higher propensity for this contracting method. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management, fuel spills and potable water have been contributing factors for Sole Source contracts on occasion. The arctic environment and a short Construction season serve to complicate project delivery and contracting options. Good planning and project management practices help to alleviate the necessity to rely on Sole Sourcing.

In 2016/17 the volume of Sole Source contracts continues to decline by 46% however the value is up by 24%. This is partially due to a Sole Source contract extension by the Department of Health for Air Ambulance Services in the Kitikmeot Region.

Ten Year Sole Source Trend – Decrease

Value of Competitively Awarded Contracts (not including contract extensions) as a percent of all contracts:

| 07/08 | 08/09 | 09/10 | 10/11 | 11/12 | 12/13 | 13/14 | 14/15 | 15/16 | 16/17 |
|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 53% | 62% | 70% | 76% | 79% | 86% | 83% | 77% | 85% | 82% |

Value of Sole Source Contracts as a percent of all contracts:

| 07/08 | 08/09 | 09/10 | 10/11 | 11/12 | 12/13 | 13/14 | 14/15 | 15/16 | 16/17 |
|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 25% | 17% | 14% | 13% | 9% | 7% | 5% | 4% | 2% | 3% |

Volume of Competitively Awarded Contracts as a percent of all contracts:

| 07/08 | 08/09 | 09/10 | 10/11 | 11/12 | 12/13 | 13/14 | 14/15 | 15/16 | 16/17 |
|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 59% | 60% | 63% | 63% | 68% | 71% | 64% | 71% | 72% | 75% |

Volume of Sole Source Contracts as a percent of all contracts:

| 07/08 | 08/09 | 09/10 | 10/11 | 11/12 | 12/13 | 13/14 | 14/15 | 15/16 | 16/17 |
|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 36% | 29% | 23% | 22% | 20% | 20% | 14% | 9% | 6% | 3% |

The overall ten year trend shows a significant decrease in both the value and volume of Sole Source contracts. The value and volume of competitively awarded contracts has decreased in 2013/14 as a percentage of the total. This is due to an increase in the value and volume of contract Extensions and Sole Vendor contract awards. In 2014/15 the value of competitively awarded contracts is down due to ED&T airport operations. In 2015/16 the value of competitively awarded contracts is up to 85%.

In 2016/17 the value of competitively awarded contracts as a percentage of all contracts is down slightly (3%), however the volume of Sole Sourced contracts is at an all time low of 3%.

Note that the "Sole Vendor" contracts are not included in this analysis. See section 3 of this report for analysis which includes "Sole Vendor" contracts. Extensions are a continuation of previously awarded contracts where the terms and conditions allow for the contract to be extended. These contracts are included in Appendix C.

Sole Source Contract Distribution – Value (Thousands)

| Department | 2016/17 | | 2015/16 | | 2014/15 | |
|---|-----------|------|----------|------|-----------|------|
| Community and Government Services (CGS) | \$ 1,329 | 13% | \$ 3,211 | 11% | \$ 1,225 | 11% |
| Culture & Heritage (CH) | - | - | 72 | 1 | 96 | 1 |
| Economic Development and Transportation (EDT) | - | - | 48 | 6 | 692 | 6 |
| Education (EDU) | 1,376 | 14 | 88 | 1 | 20 | - |
| Executive and Intergovernmental Affairs (EIA) | 28 | - | - | 4 | 465 | 4 |
| Environment (ENV) | 328 | 3 | 285 | 4 | 429 | 4 |
| Family Services (FS) | - | - | 260 | 3 | 4,741 | 41 |
| Finance (FIN) | - | - | - | - | 307 | 3 |
| Justice (JUS) | 49 | - | 464 | 6 | 1,198 | 10 |
| Health (HLTH) | 7,061 | 69 | 3,794 | 46 | 2,412 | 21 |
| Total | \$ 10,171 | 100% | \$ 8,222 | 100% | \$ 11,585 | 100% |

For the three years of this report, the Department of Community and Government Services (CGS) has the highest number of Sole Source contracts and the second highest value. CGS is responsible for delivering many of the basic services of Nunavummiut (water, sewage, fire protection, etc.). In the event of emergencies, CGS plays a major role in delivering solutions. In these emergencies, Sole Source contracts are expected. These emergencies usually involve issues with infrastructure such as water and sewage or search and rescue operations.

CGS responds to a number of emergencies in the territory each year. Various search and rescue operations, water emergencies and other issues to ensure continuity of basic services. CGS was able to immediately and practically respond to all these emergencies due to the emergency contract provision of the GN contracting regulations. CGS was also able to quickly replenish depleted fuel supplies in some Nunavut communities due to the GN contracting regulations emergency sole source provisions.

During the three years of this report, the Department of Health has the second highest volume of Sole Source and the highest value. Historically many of the Sole Source contracts from the Department of Health are for Specialized Residential Care Services. While a competitive RFP process is in place to cover the services, there are always some needs for patients not covered by the RFP process.

In 2016/17 Health had to Sole Source a \$6 million dollar contract extension for Air Ambulance Services. If not for this contract, the value of Sole Source contracts would have been down.

The chart below “Government of Nunavut Sole Source Contract Distribution – Volume” illustrates the distribution of contracting methodology.

Government of Nunavut Sole Source Contract Distribution – Volume 2016/17

Illustrated on the pie chart above on a proportionate basis in 2016/17, the Department of CGS issued the largest number of Sole Source contracts, followed by the Department of Health. For the three years covered by this report, the Departments of CGS and Health have had the highest volume of Sole Source contracts.

Sole Source Contract Distribution – Volume

| Department | 2016/17 | | 2015/16 | | 2014/15 | |
|---|---------|------|---------|------|---------|------|
| Community and Government Services (CGS) | 32 | 50% | 47 | 40% | 38 | 22% |
| Culture and Heritage (CH) | - | - | 6 | 5 | 7 | 4 |
| Economic Development and Transportation (EDT) | - | - | 3 | 3 | 12 | 7 |
| Education (EDU) | 5 | 8 | 5 | 4 | 2 | 1 |
| Executive and Intergovernmental Affairs (EIA) | 1 | 2 | - | - | 6 | 4 |

| Finance (FIN) | - | - | - | - | 12 | 7 |
| Health (HLTH) | 16 | 25 | 35 | 30 | 37 | 22 |
| Justice (JUS) | 3 | 5 | 9 | 8 | 6 | 4 |
| Total | 64 | 100% | 118 | 100% | 170 | 100% |

Appendix A

Definition of Terms and Abbreviations

Terms

“Goods”: In this report, “Goods” means contracts for the purchase of Goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

“Invitation”: An Invitation is a contracting method where Tender or Request for Proposal documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

“Invitational Tender”: An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

“Invitational Request For Proposal”: An Invitational Request for Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit proposals.

“Purchase Orders”: In this report, “Purchase Orders” means contracts for purchase of Goods, primarily entered into by the Department of Community and Government Services on behalf of Government of Nunavut departments.

“Public Tender”: Public Tenders are those tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

“Request For Proposal”: A Request For Proposal (RFP) has been defined as follows, “when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price”.

“Sole Source”: A Sole Source is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow Sole Sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) the contract is any type of contract that will not exceed \$5,000 in value.

“Tender”: Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
