

OCT 28/16

Rankin Inlet Integrated Community Sustainability Plans (ICSP)

Submission Year

2016 / 2017

Motion Number

140-16

Objective

To endeavour to bring the Hamlets infrastructure up to an acceptable level to provide its residents with infrastructure to maintain a healthy lifestyle.

Short-term

Plans within the next 5 years

Commercial Facilities**Description**

need to locate gravel resources for short and long term development of commercial properties and need a study to locate resources and the cost to extract this material

Additional Information

with the new mine opening in the next couple of years , we need to plan for future glandular material resources

Action Required Sustainability Goals

Economic , Social

Day Care**Description**

daycare centre

Additional Information

there is a deficiency of day care spaces in rankin inlet which causes missed working days and missed productivity , the current 3 daycares in town are very Short of spaces for kids, would like more spaces through a new building , possibly in conjunction with the schools.

Action Required Sustainability Goals

Cultural , Economic , Social

Elders and Youth Facilities**Description**

24 hours care facility

Additional Information

There is currently no 24 hour care facility for seniors which is needed in the community as we have none now and elders in need of 24 hour care must be sent of the community causing family hardships and hard on elders who loose contact with family members.

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Elders and Youth Facilities

Description
Palliative care

Additional Information

Rankin needs a palliative care facility, could possibly be housed in the Rankin Inlet Regional health Centre for the short term until permanent facility is located.

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Hamlet Office

Description

Hamlet office built in 1969 and expanded in 1994, building needs new roof and windows and leaks and Hamlet needs 5 new offices to fill current and pending staff.

Additional Information

Can work with CG@S to come up with renovation plan to add offices

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Health and Wellness Infrastructure

Description

Elders Care Facility

Additional Information

need for more elders community living units so elders can live on their own as opposed to living in overcrowded housing and have more independence and cut down cases of elder abuse.

Action Required Sustainability Goals

Cultural , Economic , Social

Health and Wellness Infrastructure

Description

Homeless Shelter and Soup Kitchen

Additional Information

Rankin Inlet is increasingly having homeless people with no where to stay or get a meal . lack of housing contributes to this

Action Required Sustainability Goals

Social

Marine

Description

Establish new breakwater

Additional Information

need to expand breakwater for small craft for boaters to prevent damage to boats and safety for boaters

Action Required Sustainability Goals

Cultural , Economic , Social

Municipal Garages and Buildings

Description

New recycling centre

Additional Information

need a recycle center to get rid of waste and alleviate filling landfill , this needs a feasibility assessment

Action Required Sustainability Goals

Economic , Environment

Recreation Facilities

Description

community hall attached to arena being replaced in 2019-20

Additional Information

The current hall built in 1986 is to small for current size of community , as of now we have restrictions on capacity and this limits people from attending events numerous times during the year , currently holds 250 people with a need for 500.

Action Required Sustainability Goals

Cultural , Economic , Social

Road Maintenance Vehicles and Equipment

Description

Paving machine to pave and maintain current paved road's

Additional Information

This would cut down on current costs on road repairs and would solve the major problem with dust control which is a health problem for many residents, there is a growing demand on our roads with the mining activity in our community .

Action Required Sustainability Goals

Economic , Environment

Search and Rescue

Description

search and rescue needs funding for a new building and equipment to be funded either through CG&S or within the Hamlet

Additional Information

current buildings need to be demolished not part of the community plan and is old and is economically unfix-able

Action Required Sustainability Goals

Cultural , Environment , Social

Traditional Economy

Description

Community Freezer

Additional Information

necessary for the community , would like to have new freezer in Rankin Inlet

Action Required Sustainability Goals

Cultural , Economic , Social

Waste Water and Sewage Disposal

Description

Area 1 was renovated 5 years ago , but area 2 and 3 was never completed this , need to be completed ,this area has had a lot of disruptions in the past 5 years which is costly and a study should be done on these costs to justify replacement of utilidor in these areas , a colapse of current utilidor is quite possible in the near future

Additional Information

CG&S and hamlet must meet to review options

Action Required Sustainability Goals

Economic , Environment , Social

Water

Description

Develop alternative water source

Additional Information

Existing water lake depleting , assessment being done to pipe water from landing lake to nipisar lake to replenish water supply , will need approval OF Hamlet Council and NWB, being worked on with help of GN, Work has started on this and pumping from First landing lake on an ongoing basis needs approval.

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Medium-term
Plans within 5 to 10 years

Airport Infrastructure

Description

Expand airport terminal building

Additional Information

Review with arctic airports - Dept of transportation , will need more room to accommodate traffic when new the mine opens

Action Required Sustainability Goals

Economic , Social

Communications

Description

repeaters for cellular service on the land

Additional Information

to help with search and rescue to locate stranded hunters and help with searches

Action Required Sustainability Goals

Cultural , Economic , Social

Culture, Heritage, Language and Arts

Description

Arts and Crafts Center

Additional Information

Rankin needs an Arts and crafts workplace for artists to work on sewing, visual arts, print making, a gathering place for artists to wxchange ideas.

Action Required Sustainability Goals

Cultural , Economic , Social

Elders and Youth Facilities

Description

expand youth center with place for elders

Additional Information

current building is 20 years old and too small for community

The current youth center is over capacity, we often are left to turn children away, as it becomes a safety issue. We have a fence to allow the kids to play around our area and used for day camp, during the winter months, we do require the children to stay inside of the building during the winter season. There is enough land where for an expansion or a new building, a feasibility study to determine what is viable . also could add an elders space in the building

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Health and Wellness Infrastructure

Description

Renovate Friendship Centre

Additional Information

Currently operates 19 programs out of 3 buildings such as justice daycare bussing elders programs parenting , victims help program addictions as well as others , would like 1 building as currently using 3 small buildings, Hamlet would like to operate these programs under 1 building to save on rent costs , possibly new building funded by hamlet and gn and rented back to friendship centre and building owned by Hamlet

Action Required Sustainability Goals

Cultural , Economic , Social

Health and Wellness Infrastructure

Description

Addictions and Mental Health Regional Centre

Action Required Sustainability Goals

Cultural , Economic , Social

Marine

Description

deep sea port

Additional Information

There is a need for a Deep Water Port Facility. This would allow barges to unload faster for a saving on freight costs and with new mines opening . this is an important step to help our economy.

Action Required Sustainability Goals

Cultural , Economic , Social

Municipal Garages and Buildings

Description

Renovate and expand parking garage

Additional Information

a report is being done to create fuel and power efficiency , hamlet has done renovations on its done , need a feasibility study done to determine if a new building is needed or renovations costs. we will need 3 more bays In the next 2 to 3 years

Action Required Sustainability Goals

Economic , Environment

Public Housing

Description

New housing units -

Additional Information

Need all types of housing for residents due to overcrowding creating sickness .
More 1 to 3 bedroom apartments needed to give young families a healthy environment to raise new families as well for single young adults starting out in life.

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Recreation Facilities

Description

Attached to new arena , complex with theatre , weight room , bowling alley

Additional Information

can be part of community hall or added to arena

Action Required Sustainability Goals

Cultural , Economic , Social

Solid Waste

Description

Replace existing landfill

Additional Information

must upgrade road and new landfill must be looked at to open as soon as possible as current site is at the end of its useful life.

Action Required Sustainability Goals

Economic , Environment , Social

Waste Water and Sewage Disposal

Description

Sewage Treatment Plant

Additional Information

Needs to be updated to current regulations .

Action Required Sustainability Goals

Economic , Environment , Social

Long-term
Plans within 10 to 15 years

Municipal Garages and Buildings

Description

Additional Hamlet parking garage

Additional Information

within next 10 years hamlet will require about 6 new parking bays

Action Required Sustainability Goals

Economic , Environment

Power and Energy

Description

need power line from Manitoba

Additional Information

to bring down costs , rid us of fossil fuel

Action Required Sustainability Goals

Economic

Public Housing

Description

Construct new units of all sizes

Action Required Sustainability Goals

Cultural , Economic , Environment , Social

Road Maintenance Vehicles and Equipment

Description

Construct road to Manitoba

Action Required Sustainability Goals

Economic , Social

**Alexander Sammurtok, MLA
Rankin Inlet South
October 2016**

*Rankin Inlet's 2016 Integrated Community Sustainability
Plan*

Thank you, Mr. Speaker.

Mr. Speaker, as I indicated in my Members Statement, the most recent Integrated Community Sustainability Plan for Rankin Inlet addressed important short-term infrastructure needs including a number which relate to our Elders.

The need for a 24-hour care facility in the community is clearly identified.

Thank you.
