OVERVIEW

Qulliq Energy Corporation (QEC) is wholly owned by the Government of Nunavut and operates in compliance with the *Qulliq Energy Corporation Act*. QEC generates and distributes electrical energy to Nunavummiut through the operation of 25 diesel generation plants in 25 communities. The Corporation also provides mechanical, electrical, and line maintenance, as well as support services, from three regional centres.

QEC supports the Minister responsible for Qulliq Energy Corporation on regulatory and intergovernmental issues, attends to corporate objectives provided by legislation, and has the mandate to coordinate all contracting, procurement, and leasing activities to fulfil the operational requirements of the Corporation.

QEC is pleased to present its annual report on contracting, procurement and leasing activities for the 2020-21 fiscal year.

PROCUREMENT OBJECTIVES

QEC is committed to ensuring fair value and ethical practices in meeting its contracting, procurement, and leasing responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut;
- Creating a fair and open environment for vendors;
- Operating with integrity and transparency;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet QEC's operational requirements.

The Corporation prepares and tables this report in the Legislative Assembly to support the integrity and transparency of its contracting, procurement, and leasing activities. With the release of this information, QEC is legally bound to safeguard competitive information which may prove harmful if disclosed to the public.

QEC strives to fully comply with the reporting requirements of its contracting, leasing, and procurement policies. The information in this report is obtained from procurement, leasing, and operational records and is deemed to be accurate and may differ from actual payment data.

NNI CONSIDERATIONS

The Corporation complies with the Government of Nunavut's Nunavummi Nangminiqagtunik Ikajuuti (NNI) Implementation Act in the awarding of contracts. NNI adjustments provide an incentive to encourage Nunavut and Inuit owned businesses to respond to contract proposals and tender opportunities. This report provides the distribution of contracts awarded to companies for 2020-21 in accordance with their NNI status. The status categories are:

- **NTI/Inuit:** Inuit owned business registered with Nunavut Tunngavik Incorporated (NTI);
- **NNI/Nunavut:** listed on the GN Nunavut Business Registry;
- **Other:** not registered as an Inuit or Nunavut firm.

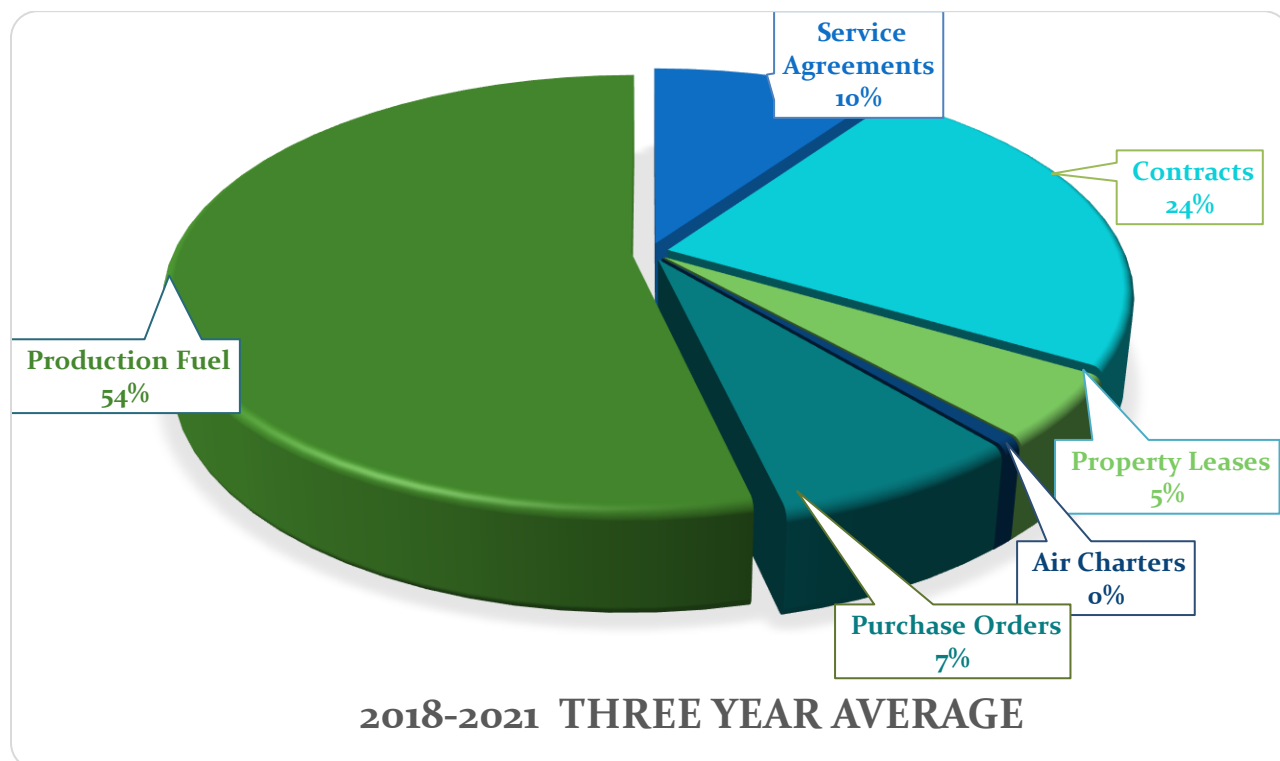

For reporting purposes, a firm that is both 'Inuit' and 'Nunavut' registered is classified in the summary information of this report as 'Inuit'. Firms without 'Inuit' or 'Nunavut' status are grouped as 'Other'.

'Other' includes Hamlets, Housing Associations, Inuit Organizations, and all other individuals or businesses that are not registered as Inuit or Nunavut firms.

CONTRACTING, LEASING, & PROCUREMENT – THREE YEAR AVERAGE COMPARISON

Contracts awarded for the purchase of capital assets and purchase orders issued for diesel fuel account for a significant portion of QEC’s annual contracting and procurement activity.

The majority of contracts issued in 2020-21 were the result of work performed at power plants and issued through QEC public tendering and RFP processes.

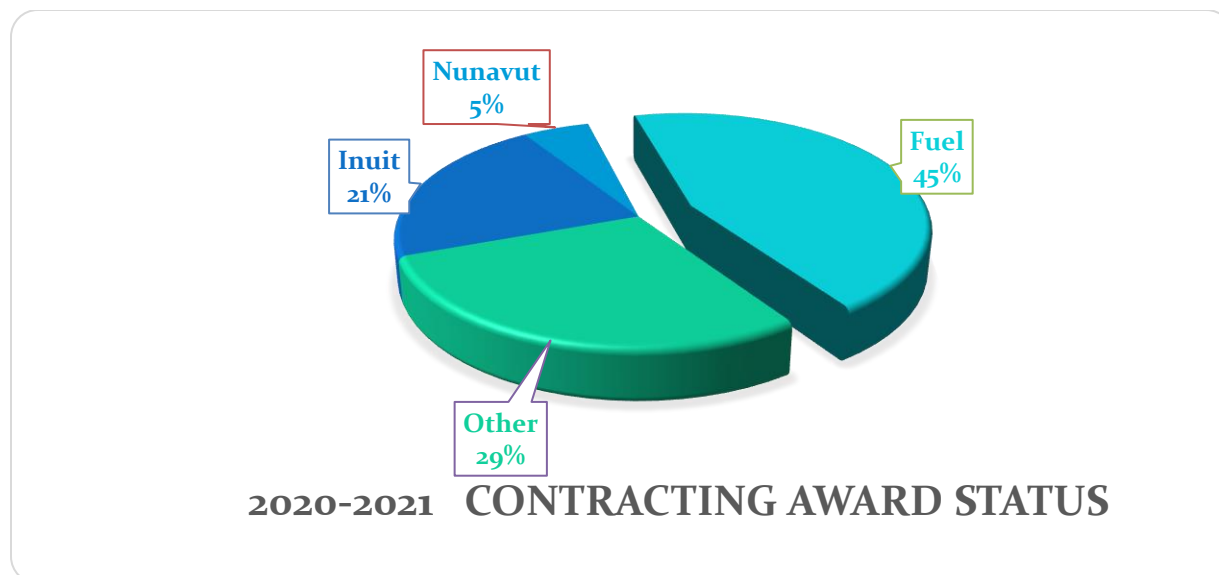

Contracting Summary

| Type | 2020 - 2021 | | | | Three Year Average | | | |
|--------------------|-------------|------------|--------------------|------------|--------------------|------------|--------------------|------------|
| | Number | % | Value | % | Number | % | Value | % |
| Air Charters | 59 | 10 | 786,625 | 1 | 30 | 7 | 362,951 | 1 |
| Service Agreements | 72 | 12 | 7,531,466 | 7 | 78 | 17 | 7,145,831 | 9 |
| Property Leases | 136 | 24 | 4,995,273 | 5 | 128 | 28 | 4,772,801 | 5 |
| Purchase Orders | 255 | 44 | 10,034,072 | 9 | 171 | 37 | 5,477,388 | 8 |
| Contracts | 30 | 5 | 33,343,497 | 31 | 22 | 5 | 32,670,068 | 19 |
| Production Fuel | 26 | 4 | 52,242,164 | 48 | 26 | 6 | 54,292,583 | 58 |
| Total | 578 | 100 | 108,933,098 | 100 | 455 | 100 | 104,721,622 | 100 |

CONTRACTING, LEASING, & PROCUREMENT – FIRM STATUS

The following chart provides the distribution of contracts awarded to companies in 2020-21 in accordance with their 'Inuit' and 'Nunavut' status. The 'Other' status is primarily for contracts for work related to the replacement of equipment and the maintenance of power generation plants.

NNI Status

| Type | 2020/21 | | | | 2019/20 | | | |
|--------------|------------|------------|--------------------|------------|------------|------------|--------------------|------------|
| | Number | % | Value | % | Number | % | Value | % |
| NTI / Inuit | 155 | 27 | 21,873,482 | 21 | 92 | 20 | 47,412,414 | 30 |
| NNI | 22 | 4 | 5,264,590 | 5 | 17 | 4 | 2,044,885 | 2 |
| PPD* | 26 | 5 | 45,299,726 | 44 | 26 | 6 | 39,512,707 | 38 |
| Other | 375 | 65 | 29,552,862 | 29 | 320 | 70 | 15,751,616 | 15 |
| Total | 578 | 100 | 108,993,098 | 100 | 455 | 100 | 104,721,622 | 100 |

*Production fuel purchased from the Petroleum Products Division (PPD) of the Government of Nunavut is not a status, however it is a significant portion of QEC's procurement activity and warrants separate disclosure. Based on operational fuel requirements for 2020-21, approximately purchased \$45M of fuel from PPD, and \$7M from Uqsuq Corporation, a registered Inuit firm.

TERMINOLOGY

This listing is intended to assist the reader with definitions for technical procurement and contracting terms used in this report.

Goods: contracts for purchased goods primarily entered into by QEC using a purchase order.

Services: the purchase of services primarily entered into by QEC using a service agreement or service contract.

Service Agreements: contracts for the delivery of services including mixed goods and services other than the provision of goods and construction.

Contracts: contracts are primarily for the purchase of capital assets (assets acquired for construction projects and large scale installations) and awarded by invitational or public tender.

Request for Tenders (RFT) and Public Tenders (PT): are terms used interchangeably and refer to solicited goods or services. It is a bidding process that is open to all qualified bidders, and chosen on the basis of price and quality. It is also known as a competitive tender or open tender.

Invitational Request for Tender (IRFT): tender documents sent only to contractors or suppliers specifically selected to submit tenders.

Request for Proposal (RFP): process used to acquire goods or services when QEC knows what it needs as an end result, but not necessarily how best to achieve it. Therefore, the Corporation seeks proposals on methods, ability, and price and can negotiate the best method to achieve best value.

Invitational Request for Proposal (IRFP): proposal documents sent only to contractors or suppliers specifically selected to submit proposals.

Request for Quotes (RFQ): issued to obtain a price for a known commodity and used primarily for the purchase of goods and services.

Invitational RFQ (IRFQ): quote requests sent only to specific suppliers.

Standing Offer Agreements (SOA): competitive, public process where suppliers provide specific goods or services within an established time frame for a defined price. QEC is able to access all SOAs issued by the GN.

Sole Source (SS): A sole sourced contract or purchase is one in which the corporation believes, on reasonable grounds, that one of the following is applicable:

- i. The goods, services, or construction are urgently required and delay would be injurious to the public interest;
- ii. Only one party is available and capable of performing the contract;
- iii. The contract is an architectural or engineering contract that will not exceed \$25,000; or
- iv. Any other type of contract that will not exceed \$5,000 in value.

Section 1 Service Agreements

Service agreements are normally used for the procurement of services other than the provision of goods and construction. In the 2020-21 fiscal year, 99% of service agreements were acquired through Tender, Request for Proposal (RFP), and Request for Quotes (RFQ), as well as Standing Offer Agreements (SOA) with the Government of Nunavut. Service agreements are used primarily for maintenance type services and quite often are for multiple communities or regions.

Large value service agreements greater than \$100,000 in 2020-21:

| Description | Company | Award (\$) |

| Total | 72 | 100 | 7,531,466 | 100 | 78 | 100 | 7,145,831 | 100 |

Section 2 Contracts

Contracts are used primarily for the purchase of capital assets. These assets are acquired for project construction and large scale installations and are traditionally awarded by invitational and public tender.

The majority of contracts issued in 2020-21 were associated with work performed at power plants, and QEC's corporate office construction in Baker Lake, and issued through public tendering and RFQ processes.

Major contracts were also issued for equipment replacement and installation at some of the power plants. The data presented below is for contract values at the time the contract was awarded. The award is a static value and may not reflect what was actually paid to a vendor throughout the multi-year life of a contract.

Contracts issued in 2020-21 were significantly higher than those issued in 2019-2020 due to the award of five (5) major power plant contracts; and construction of QEC's corporate office in Baker Lake.

Large value contracts greater than \$100,000 awarded in 2020-21:

| Description | Company | Award (\$) |
|--|---------------------------------------|-------------------|
| HQ Office Construction | Sanaqatiit Construction Ltd. | 13,587,065 |

Section 3 Air Charters

Air travel by QEC employees is typically provided by commercial flights. It is policy to only charter aircraft when more economical travel is unavailable or impractical. QEC charters aircraft to address urgent power plant repairs or to meet urgent operational requirements.

Air charters represent the lowest value group of procurement activity. However, there is 117% increase in the charter expenses compared to 2019-2020.

Air Charters by Value

| Type | 2020/21 | | | | 2019/20 | | | |
|-----------------|-----------|------------|----------------|------------|-----------|------------|----------------|------------|

| Total | 59 | 100 | 786,625 | 100 | 30 | 100 | 362,951 | 100 |

Section 4 Purchase Orders

QEC uses purchase orders to support payment for contracts, services, supplies, equipment, and production fuel. Purchase orders account for a significant portion of procurement activity. The tables below summarize purchase orders valued at \$5,000 or more, including those issued for services rendered as a result of amendments to service or construction contracts. To avoid duplication of reporting, purchase orders with corresponding contract or service agreements are reported under the Service and Contract Agreements tables (see Sections 1 and 2).

Purchase orders for production fuel used in power plants account for \$50 to \$55 million each year and are reported based upon annual fuel estimates prepared by the Operations department.

Purchase Orders by Value

**The Nunavut firm status for fuel purchases reflect one purchase order for Uqsuq Corporation (an Inuit firm) and 25 purchase orders for PPD.

Section 5 Leases

The majority of leasing activity is for employee accommodations, with 96% classified as residential. The limited supply of available housing in Baker Lake, Iqaluit, and in the regional centres, has resulted in increasing housing costs and a factor when leases are negotiated.

The majority of leases have an annual value of less than \$50,000. The procurement and renewal of leases is done by public invitation. Property owners that have space available are regularly surveyed for availability and pricing. Data reflects leases in place as of March 31, 2021. Leases expired in the current year and reported in past years are not included. Amounts are for leased costs only and do not reflect repairs or maintenance expenses.

Leased Property by Value

| Type | 2020/21 | | | | 2019/20 | | | |
|----------------|------------|------------|------------------|------------|------------|------------|------------------|------------|
| | Number | % | Value | % | Number | % | Value | % |
