## FOR THE YEAR ENDED MARCH 31, 2023

## **HONOURABLE LORNE KUSUGAK**

**Minister of Finance** 

# THE HONOURABLE EVA AARIAK COMMISSIONER OF NUNAVUT

I have the honour to present the Public Accounts of the Government of Nunavut for the fiscal year ended March 31, 2023. I would ask that these accounts be laid before the Legislative Assembly in accordance with the *Financial Administration Act*, R.S.N.W.T. 1988, c.F-4, S. 74 as amended, and duplicated for Nunavut, and the *Nunavut Act*, S.C. 1993, C.28, s.44.

The Honourable Lorne Kusugak Minister of Finance

Government of Nunavut Iqaluit, Nunavut

#### **Introduction to the Public Accounts of Nunavut**

March 31, 2023

These consolidated financial statements, presented through the publication of the Public Accounts, are prepared to meet the financial reporting requirements in Canada's *Nunavut Act* and Nunavut's *Financial Administration Act*. The consolidated financial statements present summary information and serve as a means for the Government of Nunavut (the Government) to show its accountability for the resources, obligations and financial affairs for which it is responsible. The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments; except those specifically authorized by statute.

These consolidated financial statements are prepared by the Department of Finance in accordance with Canadian public sector accounting standards (PSAS) as issued by the Public Sector Accounting Board of Canada. Please refer to the Notes to Consolidated Financial Statements for details of the significant accounting policies that have been used in the preparation of the consolidated financial statements.

The reporting entity of the Government of Nunavut includes all departments, agencies, corporations, organizations, and funds, which are controlled by the Government. For financial reporting purposes, control is defined as the power to govern the financial and operating policies of an organization with benefits from the organization's activities being expected, or the risk of loss being assumed by the Government. All organizations that meet the definitions in the *Financial Administration Act* for departments, revolving funds, territorial corporations or other public agencies are included in the reporting entity for these consolidated financial statements, except for the Workers' Safety and Compensation Commission (WSCC). Since the Government does not control or have access to the WSCC's assets or responsibility for its obligations, it is excluded from the Government's financial reporting entity. All entities included in the reporting entity, except Nunavut Lottery, are fully consolidated on a line-by-line basis. Significant transactions and balances between fully consolidated entities are eliminated. Nunavut Lottery is accounted for as a government business partnership on a modified equity basis.

Canadian public sector accounting standards require a government to present in its consolidated financial statements a comparison of the results of operations and changes in net financial assets (debt) for the period with those originally planned. The consolidated budget figures are the appropriations approved by the Legislative Assembly and the approved budgets for the consolidated entities, adjusted to eliminate budgeted inter-entity revenues and expenses. They represent the Government's original consolidated fiscal plan for the year and do not reflect supplementary appropriations.

The Department of Finance publishes the Public Accounts, as well as the Main Estimates and Capital Estimates, for this year and those of past years, in PDF format at the following addresses:

# SECTION I FINANCIAL STATEMENT DISCUSSION AND ANALYSIS

This page intentionally left blank

#### **PUBLIC ACCOUNTS**

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

#### **Executive Summary**

This financial statement discussion and analysis (FSDA) has been prepared by the Government of Nunavut (GN) to provide additional information related to its financial position, changes in its financial position and its performance. The FSDA should be read in conjunction with the GN's consolidated financial statements for the fiscal year ended March 31, 2023. The 2022 comparative financial information has been restated to reflect the impact of changes in accounting standards implemented in 2023. Financial highlights for the current and prior period are provided below.

#### **Financial Highlights**

| Consolidated Statement of Financial Position             |    |             |    | 2023      | 2022            |

| Net Financial Assets, End of Year                        |    |             | \$ | 527,630   | \$<br>375,315   |

At March 31, 2023, the GN continued to invest in its tangible capital assets while maintaining its strong net financial asset position. The GN increased its net financial assets by \$152.3M largely due to an operating surplus of \$167.3M. The surplus was \$59.0M higher than the budgeted surplus. Increased revenues accounted for \$94.6M of the increased surplus while increased departmental spending reduced the surplus by \$35.6M.

GN revenues were higher than expected and accounted for \$82.8M of the increase in revenues for the period when compared to budget. Increased spending in the Health (\$64.6M), Community and Government Services (\$53.1M) and Housing (\$38.5M) was offset by lower spending in Finance (\$60.9M), Economic Development and Transportation (\$33.7M) and Education (\$18.3M). These departments accounted for the majority of the changes in expenses when compared to budget for 2023.

#### **PUBLIC ACCOUNTS**

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

The GN continues to grow its revenues. Total revenue grew by \$117.7M in 2023 over 2022. Revenues from the Government of Canada increased by 2% (\$47.0M) while GN own source revenues increased by 15.1% (\$70.7M) compared to 2022. Revenue from the Government of Canada changed due to a 4.3% (\$77.3M) increase in Territorial Formula Financing which was offset by a 5.4% (30.3M) decrease in Other Transfers from the Government of Canada. The increase in Territorial Formula Financing is due to the consistent annual increase in the formula to offset the increased cost of providing public services. GN own source revenue increased mainly due to a 35.0% increase in petroleum product sales (\$40.8M), a 39.1% increase in other revenues (\$22.3M) and an increase of 242.5% in investment income (\$13.3M). The increase in GN own source revenues was offset by a decrease of 32.6% in personal income tax revenue (\$13.5M).

Consistent with other jurisdictions, GN expenses continue to grow. Expenses grew by 8.4% (\$213.9M) in 2023 over the prior period. The majority of the growth in expenses is attributable to four departments. Expenses increased by \$89.8M in Community and Government Services, \$41.9M in Health, \$28.7M in Finance, and \$28.2M in Housing. Community and Government Services increased spending was driven by increased costs for utilities, mobile equipement, and the municipality funding program. Increased spending in Health was driven by increased staffing requirements and operating costs, inflation, and overall population growth. Finance expenses increased due to the implementation of a new computer software system, increased interest expense in Qulliq Energy Corporation, and increased product costs in the Liquor and Cannabis Revolving Fund. Housing increases were due largely to increased utility and other operating costs.

The Conference Board of Canada expects Nunavut's economy to grow by 7.4% in 2023. This growth is expected to have a positive impact on the GN's finances. The GN will however continue to face many challenges such as changes in global commodity prices, demographic changes which increase the demand for programs and services resulting in continued upward pressure on program spending, an unemployment rate which is higher than the Canadian average, and aging tangible capital assets. The GN continues to take action to mitigate and manage the potential impacts of these challenges including efforts to grow its tax base, providing support to residents and businesses, and investing in tangible capital assets. In 2023, the GN invested \$162.8M in tangible capital asset additions.

#### **Budget to Actual**

For the year ended March 31, 2023, actual revenues were \$94.6M higher than the budget. GN own source revenues accounted for \$82.8M of the \$94.6M increase. GN own source revenue increases were mainly related to an \$48.4M increase in other revenues, increased petroleum sales of \$17.1M, and increased revenue from Qulliq Energy Corporation of \$6.4M. Increased revenues were offset by a decrease of \$6.1M in personal income tax revenue.

#### **Actual to Actual**

Total revenue for the year increased by \$117.7M over the prior period. Revenues from the Government of Canada increased by \$47.0 while GN revenues increased by \$70.7M compared to the prior year. The increase in revenues from the Government of Canada consisted of an increase in revenue from Territorial Formula Financing of \$77.3M (4.3%) over the prior period which was offset by an decrease in Other Transfers from the Government of Canada of \$30.3M (-5.4%). This decrease of \$30.3M in other transfers from the federal government are mainly due to the termination of pandemic-related support. GN own source revenue increased mainly due to a 35.0% increase in petroleum product sales (\$40.8M), a 39.1% increase in other revenues (\$22.3M) and an increase of 242.5% in investment income (\$13.3M). Overall, GN own source revenues increased by \$70.7M (15.1%). This increase was offset by a decrease of 32.6% in personal income tax revenue (\$13.5M).

#### **PUBLIC ACCOUNTS**

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

#### **Budget to Actual**

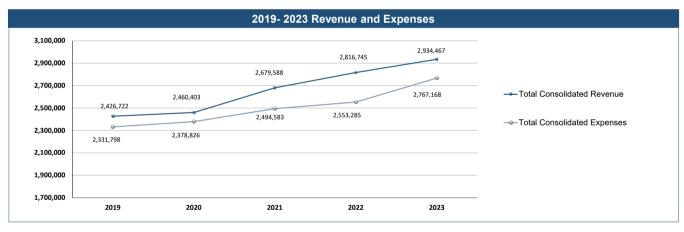

Total expenses were \$35.6M higher than the budget. Increased spending in Health, Community and Government Services, Finance and Housing accounted for the majority of the increase in expenses. Increased spending in these departments was offset by decreased spending in Economic Development and Transportation and in Education. Community and Government Services increased spending was driven by increased costs for utilities, mobile equipement, and the municipality funding program. Increased spending in Health was driven by increased staffing requirements and operating costs, inflation, and overall population growth. Finance expenses increased due to the implementation of a new computer software system, increased interest expense in Qulliq Energy Corporation, and increased product costs in the Liquor and Cannabis Revolving Fund. Housing increases were due largely to increased utility and other operating costs.

#### **Actual to Actual**

Total expenses grew by \$213.9M in 2023 over the prior period. Community and Government Services accounted for \$89.9M of the increase, \$41.9M of the increase was in Health, \$28.7M was in Finance and \$16.1M was in Housing. The total increase in expenses in these three departments accounted for \$176.6M of the increase in spending. Increased spending was offset by \$55.0M in lowering spending in Executive and Intergovernmental Affairs. Increased spending in Community and Government Services was attributed to increased funding to the municipality funding program and increased operating costs. Increased spending at Health over last year is mainly attributed to an increased population requiring access to medical services and increased prices of commodities and equipment due to inflation. Increases in Finance were due primarily to interest costs in the Qulliq Energy Corporation, ERP software costs in Finance and liquor product costs. Housing cost increases were driven by operating costs largely due to energy price increases.

#### **Revenues and Expenses - Trends**

The following chart represents the GN's total consolidated revenues and expenses for the last five years:

| Results of Operations | <u> </u> | 2019      | 2020            | 2021               | 2022      | 2023            |        |
|-----------------------|----------|-----------|-----------------|--------------------|-----------|-----------------|--------|
| Revenue               | \$       | 2,426,722 | \$<br>2,460,403 | \$<br>2,679,588 \$ | 2,816,745 | \$<br>2,934,467 |        |
| Expenses              |          | 2,331,798 | 2,378,826       | 2,494,583          | 2,553,285 | 2,767,168       |        |
| Surplus for the Year  | \$       | 94,924    | \$<br>81,577    | \$<br>185,005 \$   | 263,460   | \$<br>167,299   |        |
|                       |          |           |                 |                    |           |                 | 5 Yr A |
| Annual Revenue Growth | ·        | 2.8%      | 1.4%            | 8.9%               | 5.1%      | 4.2%            |        |
| Annual Expense Growth |          | 6.0%      | 2.0%            | 4.9%               | 2.4%      | 8.4%            |        |

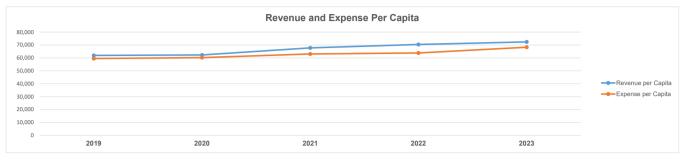

The GN has operating results have produced surpluses in each of the last five years. Annual revenue growth has averaged 4.5% over this period while growth in expenses has averaged 4.7%.

#### **PUBLIC ACCOUNTS**

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

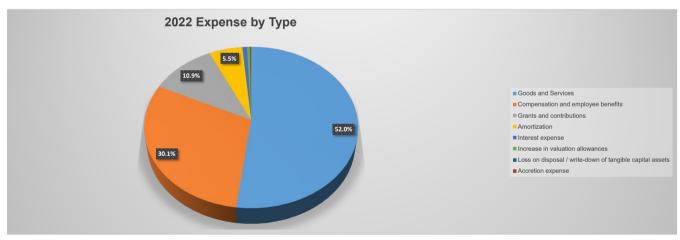

| Revenue and Expenses per Capita  | 2019   | 2020   | 2021   | 2022   | 2023   |      |
|--|--------|--------|--------|--------|--------|------|
| Population   | 39.170 | 39.486 | 39.536 | 40.003 | 40.521 |      |
| Revenue per Capita   | 61,954 | 62,311 | 67,776 | 70,413 | 72,418 |      |
| Expense per Capita   | 59,530 | 60,245 | 63,096 | 63,827 | 68,290 |      |
| Population Growth  | 2.0%   | 0.8%   | 0.1%   | 1.2%   | 1.3%   | 1.1% |
| Per Capita Revenue growth  | 0.8%   | 0.6%   | 8.8%   | 3.9%   | 2.8%   | 3.4% |
| Per Capita Expense growth  | 3.9%   | 1.2%   | 4.7%   | 1.2%   | 7.0%   | 3.6% |
| Statistics Canada. Table 17-10-0009-01 Population estimates, quarterly |        |        |        |        |        |      |

The GN continues to face challenges with rising costs which results in the GN continuing to spend more each year in total and on a per capita basis on its programs and services. On average, per capita revenue and expenses have grown faster than the population over the past five years. The population has grown by an average of 1.1% per year while per capita revenue and expenses have increased by an average of 3.4% and 3.6% respectively over this five year period.

#### **Expense by Type**

Spending on compensation and benefits and goods and services account for the approximately 82.1% of GN's expenditures. The majority of the annual growth in GN's expenses is also attributed to these accounts and this trend is expected to continue.

| Expense by Type  | 2019            | 2020            | 2021            | 2022            | 2023            | 2023 Percent<br>of Total |
|--|-----------------|-----------------|-----------------|-----------------|-----------------|--------------------------|

#### **PUBLIC ACCOUNTS**

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

#### **Summary of Significant Risks and Uncertainties**

The Government of Nunavut is exposed to risks and uncertainties that can affect its financial position, changes in its financial position, and future operations. The GN is responsible for setting and applying risk management policies and procedures to manage significant risks and uncertainties and is fully accountable for outcomes. The following risks and uncertainties are considered significant:

- » High reliance on funding from the Government of Canada
- » Impact of changes in the the economy, access to resources, and demographic changes
- » Unknown effects of climate change (ex. infrastructure damage, natural resource development, water shortages, etc.)
- » Impairment of and timely replacement of significant infrastructure such as roads, airfields, power plants, water systems and petroleum storage facilities
- » Exposure to interest rate, market, and credit risk
- » Uncertainty related to the measurement and valuation of financial assets and liabilities due to the use of accounting and other estimates such as those related to asset retirement obligations and contaminated sites

The Government of Nunavut actively monitors and manages risks and uncertainties in order to make informed decisions, make effective use of available resources, and to enhance strategic and contingency planning. The GN tailors its risk management policies and practices to take into account the scope, size, and nature of risk exposures. The GN is currently monitoring these risks and uncertainties and, to the extent possible, developing and implementing plans to mitigate the exposure and/or impact.

#### **Indicators of Financial Condition**

Changes in a government's financial position and its results of operations are important in assessing financial condition and performance during the reporting period, however, it is not the only measure of a government's overall financial health. Sustainability, flexibility and vulnerability are also important indicators of fiscal health and changes to it. While these measures are important, they must be considered in light of the many risks and exposures over which a government has no control. These would include items such as changing global economic and financial conditions, changes in federal transfer programs, and emergencies such as natural disasters and pandemics.

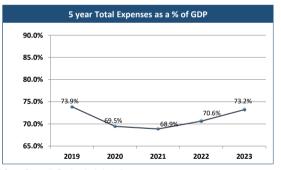

Although many indicators are available, the following sections discuss the more relevant measures and are intended to improve transparency and provide a clearer understanding of the GN's financial condition and performance.

#### Sustainability

Sustainability indicates a government's ability to maintain its existing programs and services and meet its financial obligations without the need to increase revenues or incur debt. This indicator provides insight into the sustainability of government practices of generating revenues and incurring expenses.

• Total Expenses as a Percentage of GDP. This indicator compares the growth rate of the GN's spending to the rate of growth in the economy (GDP) in which it operates. The GN's ratio for 2023 is 73.2%, which means GN spending was 73.2% of the GDP of Nunavut for the period. The ratio had declined from 2019 to 2021 due to growth in the economy driven largely by resource development. In 2022 and 2023, the rate of growth in GN spending was higher than the rate of growth in the economy. This is largely attributed to the effects of the pandemic. Over the last five years, growth in the economy has been higher than the growth in GN spending. This provides the GN with an opportunity to increase its revenues and thereby lower its reliance on Federal Transfers.

| March 31             | Growth in<br>Expenses | Total<br>Expenses | Nunavut Real<br>GDP | Total<br>Expenses<br>to GDP |
|----------------------|-----------------------|-------------------|---------------------|-----------------------------|

Source: Statistics Canada, System of National Accounts, Table # 36-10-0402-01. "Nunavut Real Gross Domestic Product by Industry" Forecasted Real GDP for 2023 was based on the projection of the Key Economic Indicators' in GN's Budget 2022-23.

The Conference Board of Canada (CBOC) expects Nunavut's economy to continue to grow. The expected growth for 2023 is 7.4%. The mining sector accounts for approximately one third of Nunavut's real GDP. Planned infrastructure contruction, including a new port, will improve access to remote regions, support natural resource development, and create economic opportunities for local communities. Nunavut's unemployment rate is higher than the Canadian average and that will remain a principal challenge in the years ahead.

#### **Flexibility**

Flexibility indicates a government's ability to either expand its revenues or increase debt to meet existing financial obligations and to provide programs and services. Flexibility provides insight into how a government manages its finances.

#### **PUBLIC ACCOUNTS**

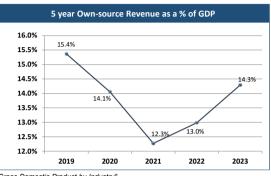

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

• Own-Source Revenue as a Percentage of GDP. Own-source revenue as a percentage of GDP indicates the extent to which the government is generating funds through taxation, user fees and other charges. A declining ratio indicates a government is taking less out of the economy relative to the growth in the economy leaving a government with a greater degree of flexibility to respond to changing circumstances.

| March 31                | Own-source revenue | Nunavut Real<br>GDP | Own-source revenue to GDP |
|-------------------------|--------------------|---------------------|---------------------------|

| % change, 2022 to 2023  | 15.1%              | 4.5%                |                           |
| \$ change, 5 year trend | 55,147             | 623,600             |                           |
| % change, 5 year trend  | 11.4%              | 19.8%               |                           |

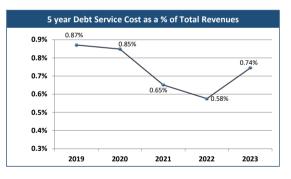

Source: Statistics Canada, System of National Accounts, Table # 36-10-0402-01. "Nunavut Real Gross Domestic Product by Industry"

Forecasted Real GDP for 2022 was based on the projection of the Key Economic Indicators' in GN's Budget 2022-23.

After a period of decline, the GN's own source revenue increased in 2022 and again in 2023. The current year increase was primarily due to petroleum sales, investment income and other revenues. Most Canadian jurisdictions generate their revenue primarily through taxation. In Nunavut, personal, corporate, and other taxes accounted for only 27.8% (\$150.4M) of total consolidated own-source revenue in 2023 and 32.5% (\$152.4M) in 2022. The GN continues to work to increase its own-source revenues by working to expand its tax base and thereby reduce reliance on federal revenues.

• **Debt Service Cost as a Percentage of Total Revenues**. This ratio indicates how much of a government's current revenues will be needed to finance past borrowing decisions. If current revenues are needed to fund past borrowing, they are not available to fund current and future programs and services to residents.

| March 31                | Debt Service<br>Costs | Total<br>Revenue | Debt cost to<br>revenue |
|-------------------------|-----------------------|------------------|-------------------------|
| 2019                    | 21,134                | 2,426,722        | 0.87%                   |
| 2020                    | 20,883                | 2,460,403        | 0.85%                   |
| 2021                    | 17,443                | 2,679,588        | 0.65%                   |
| 2022                    | 16,217                | 2,816,745        | 0.58%                   |
| 2023                    | 21,843                | 2,934,467        | 0.74%                   |
| \$ change, 2022 to 2023 | 5,626                 | 117,722          |                         |
| % change, 2022 to 2023  | 34.7%                 | 4.2%             |                         |
| \$ change, 5 year trend | 709                   | 507,745          |                         |
| % change, 5 year trend  | 3.4%                  | 20.9%            |                         |

The ratio of debt service cost-to-revenues over the last five years ranged from 0.87% in 2019 to 0.74% in 2023. The ratio has remained stable over this period. While the ratio has increased slightly in 2023 over the prior period, it is currently relatively low which indicates that interest costs are not a strain on the GN's resources leaving, it with greater flexibility. At March 31, 2023, the GN had an authorized borrowing limit of \$750.0M of which \$347.7M remained available.

**Financial Statement Discussion and Analysis** 

for the year ended March 31, 2023

(in thousands of dollars)

• Net Book Value of Tangigle Capital Assets as a Percentage of the Cost of Tangible Capital Assets. This ratio measures the estimated useful life of a government's tangible capital assets. A decreasing ratio indicates that tangible capital assets are aging and are not being replaced as fast as they are being used. An aging pool of tangible capital assets indicates a potential for increased repairs and maintenance costs in the future as well as the potential need to replace a significant amount of tangible capital assets.

| \$ change, 2022 to 2023 | 7,777                       | 364,125           |                    |
| % change, 2022 to 2023  | 0.3%                        | 8.2%              |                    |
| \$ change, 5 year trend | 239,971                     | 722,602           |                    |
| % change, 5 year trend  | 9.5%                        | 17.7%             |                    |

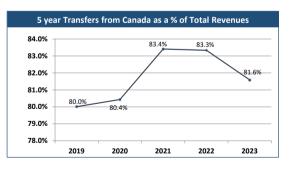

The GN ratio of net book value to total cost of tangible capital assets declined in the current period indicating assets are getting older. As assets get older, repairs and maintenance costs increase which results in less funds available for other programs and services. The aging tangible capital asset base also presents a risk to future programs and service delivery as assets become less reliable and the potential for failure increases. The GN is aware of the challenges presented by an aging asset base and continues to actively monitor asset conditions and invest in its tangible capital assets.

#### **Vulnerability**

Vulnerability indicates the degree to which a government is dependent on, and therefore vulnerable to, sources of funding outside of its control or influence. This indicator shows the extent of reliance that a government has on external sources of funding which could affect its ability to provide programs and services and meet existing commitments if the level of funding were to change. The higher the ratio, the greater the risk and less control a government has over its revenues.

• Transfers from Canada as a Percentage of Total Revenue. This ratio measures the degree of dependence a government has on the Government of Canada. A decreasing ratio indicates a lesser degree of reliance on the Federal Government.

| March 31                | Total Transfers<br>from Canada | Total GN<br>Revenues | Transfers from<br>Canada to GN<br>revenue |
|-------------------------|--------------------------------|----------------------|---|
| 2019                    | 1,941,635                      | 2,426,722            | 80.0%                                     |
| 2020                    | 1,978,952                      | 2,460,403            | 80.4%                                     |
| 2021                    | 2,234,982                      | 2,679,588            | 83.4%                                     |
| 2022                    | 2,347,240                      | 2,816,745            | 83.3%                                     |
| 2023                    | 2,394,233                      | 2,934,467            | 81.6%                                     |
| \$ change, 2022 to 2023 | 46,993                         | 117,722              |   |
| % change, 2022 to 2023  | 2.0%                           | 4.2%                 |   |

The ratio of transfers from the Government of Canada to total GN revenue has fluxuated over the past five years but on average account for approximately 81.8% of the GN's total revenue. Transfers from the Government of Canada increased in 2021 due to an increase in pandemic related support. Pandemic related funding has since decreased, but overall funding from the Government of Canada has increased over the prior year through the Territorial Financing Formula and other transfers. The GN remains highly dependent on federal sources of funding and is vulnerable to changes in the level of funding. The GN recognizes this high degree of reliance and is pursuing ways to increase its own source revenues without raising tax rates and thereby reduce its dependence on the Federal Government.

# SECTION II CONSOLIDATED FINANCIAL STATEMENTS

#### MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The Government, through the Department of Finance, is responsible for the preparation of these consolidated financial statements for the Government of Nunavut, and related information contained in the Public Accounts.

The Government, through the Department of Finance, is responsible to prepare the consolidated financial statements in accordance with Canadian public sector accounting standards (PSAS), which represent generally accepted accounting principles for governments as recommended by the Public Sector Accounting Board of Canada and to ensure compliance with applicable authorities. Where Canadian PSAS permits alternative accounting methods, management has chosen those it believes are most appropriate. Where required, management's best estimates and judgments have been applied in the preparation of these consolidated financial statements.

The Government, through the Department of Finance, is responsible for maintaining systems of financial management, while all departments are responsible for implementing and maintaining the internal control. Where necessary, these systems are enhanced and modified to support the provision of accurate information, safeguarding and control of the Government's assets, and ensuring all transactions are in accordance with Nunavut's *Financial Administration Act*.

The Legislative Assembly, through its Standing Committee on Oversight of Government Operations and Public Accounts, is responsible to review the tabled Public Accounts and make recommendations where appropriate, to improve financial management, financial reporting practices and the systems of internal control. Management is responsible to review these recommendations and take action where appropriate.

The Government's independent external auditor, the Auditor General of Canada, is responsible to conduct an annual audit of the consolidated financial statements and to examine transactions that have come to its notice to ensure that they are, in all material respects, within the statutory powers of the Government and those organizations included in the consolidation. The Auditor General's opinion is accompanying the consolidated financial statements.

#### INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of Nunavut

#### Report on the Audit of the Consolidated Financial Statements

#### **Opinion**

We have audited the consolidated financial statements of the Government of Nunavut and its controlled entities (the Group), which comprise the consolidated statement of financial position as at 31 March 2023, and the consolidated statement of operations and accumulated surplus, consolidated statement of change in net financial assets and consolidated statement of cash flow for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2023, and the consolidated results of its operations, consolidated changes in its net financial assets, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other Information

Management is responsible for the other information. The other information comprises the information included in Sections I and II of the 2022–23 Public Accounts of the Government of Nunavut, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless an intention exists to liquidate the Group or to cease operations, or there is no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
  entities or business activities within the Group to express an opinion on the consolidated
  financial statements. We are responsible for the direction, supervision, and performance
  of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Report on Compliance with Specified Authorities

#### Qualified Opinion

In conjunction with the audit of the consolidated financial statements, we have audited transactions of the Government of Nunavut and its controlled entities coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Nunavut Act*, the *Financial Administration Act* of Nunavut and regulations, and the specific operating authorities disclosed in Note 1 to the consolidated financial statements.

In our opinion, except for the matter of non-compliance described in the Basis for Qualified Opinion section of our Report on Compliance with Specified Authorities, the transactions of the Government of Nunavut and its controlled entities that came to our notice during the audit of the consolidated financial statements have complied, in all material respects, with the specified authorities referred to above.

#### Basis for Qualified Opinion

Section 44 of the *Nunavut Act* and section 74 of the *Financial Administration Act* of Nunavut require the Government of Nunavut to lay before the Legislative Assembly the public accounts on or before 31 December for the preceding fiscal year. The Government of Nunavut did not meet its statutory deadline for laying the public accounts before the Legislative Assembly for the year ended 31 March 2023.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Government of Nunavut and its controlled entities' compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Government of Nunavut and its controlled entities to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the consolidated financial statements are in compliance with the specified authorities referred to above.

Karen Hogan, FCPA

Auditor General of Canada

Ottawa, Canada 11 April 2024

#### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 1 AUTHORITY AND OPERATIONS

#### (a) Authority

The Government of Nunavut (the Government) operates under the authority of Canada's *Nunavut Act*. The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

These consolidated financial statements are prepared to meet the financial reporting requirements in Canada's *Nunavut Act* and Nunavut's *Financial Administration Act*. The consolidated financial statements present summary information and serve as a means for the Government to show its accountability for the resources, obligations and financial affairs for which it is responsible.

#### (b) Reporting entity

The reporting entity of the Government of Nunavut includes all departments, agencies, corporations, organizations and funds, which are controlled by the Government. For financial reporting purposes, control is defined as the power to govern the financial and operating policies of an organization with benefits from the organization's activities being expected, or the risk of loss being assumed by the Government. All organizations that meet the definitions in the *Financial Administration Act* for departments, revolving funds, territorial corporations or other public agencies are included in the reporting entity for these consolidated financial statements, except for the Workers' Safety and Compensation Commission (WSCC).

The WSCC, which is responsible for the administration of related employer insurance premiums and employee benefit programs within Nunavut, is not accounted for in these consolidated financial statements. Since the Government does not control or have access to the WSCC's assets or responsibility for its obligations, it is excluded from the Government's reporting entity.

The following organizations comprise the Government reporting entity for these consolidated financial statements, and unless indicated otherwise, they have March 31 year ends.

Consolidated Revenue Fund, including those departments and public agencies set out in the Government's Main Estimates

Revolving Funds

Liquor and Cannabis Revolving Fund Petroleum Products Revolving Fund Public Stores Revolving Fund Student Loan Fund

Territorial Corporations

Nunavut Arctic College (NAC) (June 30)
Nunavut Business Credit Corporation (NBCC)
Nunavut Development Corporation (including subsidiaries) (NDC)
Nunavut Housing Corporation (including subsidiaries) (NHC)

Nunavut Lottery

Qulliq Energy Corporation (QEC)
District Education Authorities (June 30)

**Authority for Operations** 

Financial Administration Act Revolving Funds Act

Nunavut Arctic College Act Nunavut Business Credit Corporation Act Nunavut Development Corporation Act Nunavut Housing Corporation Act Partnership agreement Qulliq Energy Corporation Act Education Act

All entities included in the reporting entity, except Nunavut Lottery, are fully consolidated on a line-by-line basis. Significant transactions and balances between fully consolidated entities are eliminated. Nunavut Lottery is accounted for as a government business partnership on a modified equity basis.

For segmented disclosure reporting purposes (disclosed in Schedule C), summary information has been provided based on the accountability and control relationships between the Government and the various organizations within the reporting entity using categorization or groupings of organizations noted above.

#### (c) Budget

Canadian public sector accounting standards require a government to present in its consolidated financial statements a comparison of the results of operations and changes in net financial assets (debt) for the period with those originally planned.

The consolidated budget figures are the appropriations approved by the Legislative Assembly and the approved budgets for the consolidated entities, adjusted to eliminate budgeted inter-entity revenues and expenses. They represent the Government's original consolidated fiscal plan for the year and do not reflect supplementary appropriations.

#### 2 SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of accounting

These consolidated financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS) as issued by the Public Sector Accounting Board of Canada.

#### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (b) Use of estimates and measurement uncertainty

The preparation of consolidated financial statements in accordance with Canadian PSAS requires government management to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the consolidated financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the consolidated financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these consolidated financial statements, management believes the estimates and assumptions are reasonable.

The most significant management estimates relate to income tax revenues, pension and other employee benefit liabilities, liability for contaminated sites, asset retirement obligations, contingencies, useful life of tangible capital assets, valuation of inventories for resale and use as well as valuation allowances on loans and other receivables.

#### (c) Financial Instruments

The following is a list of the Government's financial instruments and their related measurement basis as at March 31, 2023:

Financial Assets

Cash and cash equivalents

Cost

Portfolio and other investments

Accounts receivable

Loans receivable

Measurement Basis

Cost

Cost

Amortized cost

**Financial Liabilities** 

Bank indebtedness Cost
Accounts payable and accrued liabilities Cost
Long-term debt Amortized cost
Liability for Iqaluit International Airport Amortized cost

All financial assets are annually tested for impairment. When financial assets are impaired, impairment losses are recognized in the consolidated statement of operations and accumulated surplus. A write down of a financial asset to reflect a loss in value is not reversed for a subsequent increase in value. On disposal or derecognition of a financial asset or liability, the resulting gain or loss is recognized in the consolidated statement of operations and accumulated surplus.

Upon initial recognition, transactions costs which are incremental and directly attributable to the acquisition or issuance of a financial asset or financial liability are added to the carrying value of the financial instruments measured using the cost or amortized cost method.

For financial instruments measured using amortized cost, the effective interest method is used to determine interest revenue and expense.

#### (d) Cash and cash equivalents

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short-term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition.

#### (e) Portfolio and other investments

Portfolio and other investments include long-term investments in Guaranteed Investment Certificates, Bankers' Acceptances, investments related to the Supplementary Retirement Allowances Fund (SRAF), and investments in the equity of private enterprises.

Portfolio and other investments are accounted for at cost, which approximates fair value.

Where there has been a loss in value of a portfolio or other investment, that is other than a temporary decline, the investment is written down to recognize the loss. A write-down of portfolio and other investments to reflect a loss in value is not reversed if there is a subsequent increase in value. The new carrying value is deemed to be the new cost basis for subsequent accounting purposes. Interest income is recognized using the effective interest method, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

#### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (f) Inventories

Inventories for resale include bulk fuels, liquor products, finished goods and packaging materials and supplies. Inventories for resale are valued at the lower of weighted average cost or net realizable value. Impairments, when recognized, result in a write-down to net realizable value and are recorded as an expense within the consolidated statement of operations and accumulated surplus.

Inventories for use include fuel, supplies and lubricants, health and medical supplies, and raw materials and work-in-progress. Fuel inventory is valued at the lower of cost or replacement cost, with the cost being determined on a weighted average basis. Supplies and lubricants, health and medical supplies, as well as raw materials and work-in-progress inventory items are valued at the lower of cost or replacement cost, with the cost being determined on a first-in, first-out basis. Impairments, when recognized, result in a write-down and are recorded as an expense within the consolidated statement of operations and accumulated surplus.

#### (g) Condominiums held for resale

Condominiums held for resale are recognized as a financial asset when all of the following criteria are met: (i) prior to the date of the consolidated financial statements, the Government commits to selling the asset; (ii) the asset is publicly seen to be for sale; (iii) there is an active market for the asset; (iv) there is a plan in place for selling the asset; and (v) the Government reasonably anticipates sale of the asset to an external purchaser within one year of the consolidated financial statement date

When condominiums intended for resale are being developed for sale they are classified as a non-financial asset. Condominiums held for resale are not amortized and are valued at cost less any valuation allowance to reflect its net recoverable value. Cost includes amounts for improvements to prepare the condominiums for sale

#### (h) Loans receivable

Loans receivable are recorded at amortized cost, net of valuation allowances, if any. Based on the circumstances known at the date the consolidated financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recognized using the effective interest method. An uncollectable or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

#### (i) Tangible capital and leased assets

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost. Cost includes all outlays to ready the asset for use including contracted services, materials and supplies, direct labour, attributable overhead costs and directly attributable interest. Capitalization of interest ceases when a tangible capital asset is ready for use in producing goods or delivering programs and services. Gifted or contributed tangible capital assets are recorded at fair market value upon receipt, or a nominal value if fair value is not available.

Leased buildings that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the course of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

Tangible capital assets, when placed into service, are generally amortized over their estimated useful lives using the straight-line method. When assets are leased, the amortization rate will be based on the lesser of the lease terms or the useful lives of the leased assets. The Nunavut Housing Corporation applies a declining balance amortization method to certain of its tangible capital assets. The Government has assessed the impact of the method against its stated policies and has determined it to be immaterial to the consolidated financial statements and has therefore not adjusted the consolidated financial statements. The following amortization rates are being used:

| Asset Category                    | Amortization Period |
|-----------------------------------|---------------------|
| Buildings                         | 20 - 35 years       |
| Leased Buildings                  | 20 - 30 years       |
| Storage Facilities                | 20 - 30 years       |
| Tank Farms                        | 30 years            |
| Equipment                         | 5 - 30 years        |
| Warehouse and Equipment (QEC)     | 10 - 45 years       |
| Electric Power Plants             | 20 - 40 years       |
| Transmission Distribution Systems | 15 - 45 years       |
| Infrastructure                    | 30 years            |
| Land                              | Not amortized       |

When conditions indicate that a tangible capital asset no longer contributes to the Government's ability to provide goods and services, or that the value of future economic benefits associated with the tangible capital asset is less than its net book value, the cost of the tangible capital asset is reduced to reflect the decline in the asset's value.

#### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work-in-progress with no amortization taken until the year the asset is placed into service.

Assets acquired by right, such as Crown lands, water and mineral resources, are not recorded in the consolidated financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints and photographs are charged to expense in the year they are acquired.

#### (j) Pension and other employee benefits

#### Pension benefits

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service costs. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, the Government of Nunavut's contributions are recognized as an expense in the year when employees have rendered the service. The contributions represent the total pension obligation of the Government of Nunavut.

The Government provides two different pension benefits to Members of the Legislative Assembly. The costs and obligations of the Government for these pension plan benefits are estimated on an actuarial basis. When actual experience varies from estimates, or when actuarial assumptions change, actuarial gains or losses arise. These gains and losses are not recognized immediately but rather over the estimated average remaining service life of the plan members. Recognition of actuarial gains and losses commences in the year following the effective date of the related actuarial valuation. In addition, upon a plan amendment, curtailment or settlement, previously unrecognized net actuarial gain or loss balances are immediately recognized in the consolidated statement of operations and accumulated surplus.

#### Other employee benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. Severance and removal benefits are recorded when employees are identified for lay-off or removal. These benefits are paid upon resignation, lay-off or termination, retirement or death of the employee. Upon retirement, employees are entitled to enroll in health and dental benefit programs, the cost of which is cost-shared with the Government. The estimated liability and related expenses for these benefit programs are recorded as employees earn them. Actuarial valuation estimates of the Government's obligations and related costs for each of these benefit programs have been prepared using data provided by management and assumptions based on management's best estimates.

The Government's employees are entitled to sick leave under their terms of employment. Included in other employee benefits is an amount for employees who are permitted to accumulate unused sick leave. However, such entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which are expected to be used in future years is determined by an actuarial valuation and has been recorded in these consolidated financial statements.

#### (k) Asset retirement obligations

An asset retirement obligation is recognized when, as at the financial reporting date, all of the following criteria are met:

- i) There is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- ii) The past transaction or event giving rise to the liability has occurred;
- iii) It is expected that future economic benefits will be given up; and
- iv) A reasonable estimate of the amount can be made.

Recognized liabilities include all costs directly attributable to asset retirement activities, including costs related to post-retirement operation, maintenance, and monitoring that is an integral part of the retirement of the tangible capital asset. Estimates are based on the Government's best estimate of the total expenditure required to complete retirement activities using information that was available at the reporting date.

When an asset retirement liability is initially recognized, asset retirement costs are capitalized and added to the carrying value of the related tangible capital asset. The capitalized asset retirement obligation is amortized on the same basis as the related tangible capital asset and any accretion expense is recognized in the consolidated statement of operations and accumulated surplus. Asset retirement costs related to unrecognized tangible capital assets and tangible capital assets no longer in productive use are immediately expensed.

The estimate of an asset retirement obligation incorporates a present value technique, when the cash flows required to settle or otherwise extinguish an asset retirement obligation are expected to occur over extended future periods. The liability is discounted using a present value calculation and adjusted annually for accretion expense. The discount rate used reflects the Government's cost of borrowing, associated with the estimated number of years to complete the retirement or remediation.

### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

At each financial reporting date, the carrying amount of the liability is reviewed. The Government recognizes period-to-period changes to the liability due to the passage of time as an accretion expense. Changes to the liability arising from revisions to either the timing or the original estimate of the undiscounted cash flows or the discount rate are recognized as an increase or decrease to the carrying amount of the related tangible capital asset. The Government continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

### (I) Revenues

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

### Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability, in which case the transfers are recorded as deferred revenue.

### Taxes

Tax revenues are recognized in the period in which the taxable event occurs and when they are authorized by legislation or the ability to assess and collect the tax has been provided through legislative convention. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Tax concessions transferred to taxpayers include the Nunavut child benefit, the cost of living tax credit and the business training tax credit. Taxes, under the *Income Tax Act*, are administered by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the period they become known.

Fuel, tobacco and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act*, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commissions on tobacco tax revenue provides a financial benefit other than a relief of taxes and is recorded as an expense.

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

### Recoveries of prior years expenditures

Recoveries of prior years expenditures through the Consolidated Revenue Fund, including reversals of prior years expenditure over-accruals, are reported as revenues in the consolidated financial statements. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures through the Consolidated Revenue Fund.

### (m) Expenses

Expenses are recorded on an accrual basis when goods are received or services are rendered.

Grants and contributions are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient. Grants and contributions include transfer payments to individuals, municipalities and other organizations under government funding arrangements. Payments to individuals include payments for children's benefits, income support or income supplement. These payments are based on age, family status, income and employment criteria. Other grants and contributions are provided to conduct research, to establish new jobs through support for training and to promote educational, health and cultural activities. Tangible capital assets built by the Government on behalf of municipalities are classified as a grant and contribution to the municipality.

### (n) Contingencies

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur or fail to occur and is quantifiable, an estimated liability is accrued as part of accounts payable and accrued liabilities. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the consolidated financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

### (o) Contaminated sites

Contaminated sites are the result of contamination being introduced into air, soil, water or sediment in concentrations that exceeds the maximum acceptable amounts under an environmental standard.

A liability for remediation of a contaminated site is recognized when all of the following criteria are met:

- an environmental standard exists:
- contamination exceeds the environmental standard;
- the Government is directly responsible or accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability for contaminated sites reflects the government management's best estimate of the amount required to remediate sites to the current minimum standard for its use prior to the contamination.

The liability includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring.

The liability is adjusted each year for the passage of time, new obligations, changes in management estimates and actual costs incurred.

If the likelihood of a future event that would confirm the Government's responsibility is not determinable, a contingent liability is disclosed in the notes to the consolidated financial statements.

### (p) Future changes in accounting standards

A number of new and amended standards and guidance issued by the Public Sector Accounting Board of Canada are not yet effective and have not been applied in preparing these consolidated financial statements. The Government will adopt these new and amended standards and guidance on their effective dates. The Government is currently assessing the impact they will have on its consolidated financial statements. The following standards for governments will become effective as follows:

PS 3400 Revenue (effective April 1, 2023), a new section establishing standards on how to account for and report on revenue, differentiating between revenue arising from transactions that include performance obligations and transactions that do not have performance obligations.

PS 1202 Financial Statement presentation (effective April 1, 2026), defines how financial statement information is presented. Key changes include removal of the statement of change in net financial assets or net debt and the addition of a new statement of net assets or net liabilities and how this amount is determined.

### 3 ADOPTION OF NEW ACCOUNTING STANDARDS

### (a) Implementation of PS 3450, Financial Instruments

Effective April 1, 2022, the Government has prospectively adopted *PS 3450 Financial Instruments* (PS 3450). The adoption of PS 3450 also requires the adoption of *PS 1201 Financial Statement Presentation* (PS 1201), *PS 2601 Foreign Currency Translation* (PS 2601), and *PS 3041 Portfolio Investments* (PS 3041), effective April 1, 2022. These new standards provide detailed requirements for the recognition, measurement, presentation, and disclosure of financial instruments and foreign currency transactions. The Government assessed the requirements of these standards and determined PS 1201, PS 2601, and PS 3041 do not have a significant impact on the consolidated financial statements. All financial instruments included on the consolidated statement of financial position are measured at cost or amortized cost. See Note 2(c). There were no significant remeasurement gains or losses recognized in the consolidated financial statements and there were no changes to previously reported amounts as a result of PS 3450 being adopted.

### (b) Implementation of PS 3280, Asset Retirement Obligations

On April 1, 2022, the Government adopted *PS 3280 Asset Retirement Obligations* on a modified retroactive basis. This standard requires public sector entities to recognize liabilities for legal obligations to incur costs associated with the retirement of tangible capital assets on their acquisition, construction, development or through their normal use and to expense those costs systematically over the life of the asset.

The Government recognized asset retirement obligations relating to buildings that contain either asbestos, lead, mercury, or polychlorinated biphenyls (PCBs). On initial application of the standard, the Government recognized:

- i) a liability for any existing asset retirement obligation, adjusted for accumulated accretion to that date;
- ii) an asset retirement cost capitalized as an increase to the carry amount of the related tangible capital asset;
- iii) accumulated amortization on that capital cost, and
- iv) an adjustment to the opening balance of the accumulated surplus.

These amounts were measured using information, assumptions and discount rates that were current at the beginning of the current fiscal year. The amount recognized as an asset retirement cost was measured as of the date the asset retirement obligation was incurred. Accumulated amortization and accretion were measured for the period from the date the liability would have been recognized had the provisions of this standard been in effect to the date of the transition. When an asset retirement obligation is settled, any liability and associated asset retirement costs are removed from the consolidated statement of financial position.

### 8 CONDOMINIUMS HELD FOR RESALE

In 2016-17, the Nunavut Housing Corporation acquired 62 residential units in Iqaluit with the intention of selling the units to the Government staff through the Staff Condominium program. In 2017-18, two of the units were added to the Staff Housing portfolio and work was undertaken to make the remaining 60 units available for sale as condominiums. The Nunavut Housing Corporation advertised its intent to sell the condominiums to Government staff, held an information session and sought applications from prospective buyers. Expected sales were delayed in prior years due to obstacles in establishing a condominium corporation. Thirteen of the units were sold in previous years and there are signed purchase and sale agreements on four of the units. The value of the four units where a purchase and sale agreement has been signed are classified as a financial asset as the Nunavut Housing Corporation anticipates completing the sales during the 2023-24 fiscal year. The value of the remaining 43 units have been classified as non-financial assets as it is uncertain when these sales will be completed.

| 9 LOANS RECEIVABLE  | 2023   | 2022   |
|---|--------|--------|
| Nunavut Business Credit Corporation loans to businesses with a maximum maturity of 25 years, bearing interest between 5.25% and 8.78% (2022 - 5.25% and 6.96%), net of a valuation allowance of \$2,401 (2022 - \$2,350). The principal collaterals held as security and other credit enhancements for loans include: (i) various securities on |        |        |

|   | 10,055 | 10,060 |

Qulliq Energy Corporation (QEC) has a credit facility with a limit of \$20,000 (2022 - \$20,000). Interest charged on the credit facility is at Bankers' Acceptances' (BAs) rate (2023 - 4.95%; 2022 - 2.2%).

The facility also allows for the use of Bank Acceptances (BAs) for borrowing. The BAs have a stamping fee of 50 basis points per annum and the interest rate is approximately prime minus 2.0%, subject to market, with terms not less than 7 days and not more than 365 days and issue and reissued in minimum aggregate amounts of Canadian \$1,000 and multiples thereof.

Uqqurmiut Arts and Craft Ltd., a subsidiary of Nunavut Development Corporation, has a non-interest bearing, revolving demand operating line of credit with a limit of \$100, secured by a guarantee signed by the parent company, for financing the day-to-day operations of the RBC Agency in Pangnirtung.

| Strengthening Financial Management      | 1,033                    | 800                      | (1,833)             | -                         |
|   | 242,590                  | 110,252                  | (110,019)           | 242,823                   |

The deferred revenue balance at March 31 includes mostly funding for eligible capital infrastructure projects and specific programs received from the Government of Canada under formal contribution or other agreements. In 2023-24 and beyond, as the Government fulfills its obligations for purpose or other stipulations on the use of these funds, the associated revenue will be recognized in its consolidated financial statements.

# Liabilities for remediation of contaminated sites 8.548 9.153 8.548 9.153 8.548 9.153

The Government's activities are subject to various federal and territorial laws and regulations, such as the *Environmental Protection Act* of Nunavut and the Environmental Guideline for Contaminated Site Remediation - 2010, governing the protection of the environment or to minimize any adverse impact thereon. The Government conducts its operations so as to protect public health and the environment and believes its operations are in compliance with applicable laws and regulations.

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2023, there were 6 sites (2022 - 6), 2 storage tank farms (2022 - 2) and 4 waste sites (2022 - 4) identified as requiring environmental remediation. In addition to the number of sites disclosed above, Nunavut Housing Corporation has also recognized costs related to the remediation of 3 sites (2022 - 11) contaminated as a result of oil spills. Qulliq Energy Corporation has recognized costs related to 3 sites (2022 - 4) resulting from oil spills at the Corporation's power plants. For those sites where the Government of Nunavut expects to give up future economic benefits due to a legal order or plans to remediate contamination (e.g., due to the risk to human health), and is responsible or has accepted responsibility for remediation, and a reasonable estimate can be determined for remediation costs, a liability has been recorded in these consolidated financial statements. Where remediation costs have been estimated and a liability has been recorded, the methodology used to estimate the liability is either based on third party analyses or extrapolated from costs previously incurred to remediate, monitor, or manage sites of similar size and contamination.

The Government has identified an additional 73 sites (2022 - 73) on Commissioner's land for which liabilities for contamination may exist for assessment, remediation and monitoring. The activities associated with these sites are classified as follows:

|                                | 2023 | 2022 |   |
|--------------------------------|------|------|---|
| Storage tank farms             | 25   | 25   |   |
| Power plants                   | 29   | 29   |   |
| Town and waste sites           | 11   | 11   |   |
| Garages and other public works | 5    | 5    |   |
| Airports                       | 2    | 2    |   |
| Quarries                       | 1    | 1    |   |
|                                | 73   | 73   | _ |

The Government acquired ownership of sites and activities associated with airports, tank farms and power plants on creation of the Territory on April 1, 1999. The contamination of certain sites occurred when other parties were responsible for the use of and/or held tenure to the sites. The Government has estimated that remediation of contamination at 14 storage tank farm sites and 29 power plant sites (2022 - 14 and 29) would cost, without considering inflation, approximately \$9,700 and \$45,000 (2022 - \$9,700 and \$39,000), respectively. In addition, the Government has estimated that remediation at the other sites could cost, without considering inflation, between \$63,000 - \$134,000 (2022 - \$63,000 - \$134,000) depending on the approach taken. No liability for remediation of these 73 sites (2022 - 73) has been recognized in these consolidated financial statements as the Government does not expect to give up any future economic benefits (i.e. no legal requirement to remediate). Going forward, a liability for remediation of these or other identified sites will be recognized only when future economic benefits are expected to be given up (i.e. public health risk or legal requirement).

Most storage tank farms and power plants are monitored on a regular basis to ensure the containment of the identified contaminants. For the other Government operations and/or sites, there is no ongoing monitoring program in place, but plans for one are to be developed in the future.

In addition, the Government has identified 146 sites (2022 - 144) where garages, public works facilities, quarries, sewage disposal/treatment and solid waste sites and activities are generally located and conducted within municipal boundaries and governed by municipal legislation. Contamination at these sites and activities within municipal boundaries and jurisdiction are the responsibility of municipalities to monitor and remediate if necessary.

(in thousands of dollars)

### 14 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS

There are separate pension arrangements in place to provide retirement benefits to government employees and to Members of the Legislative Assembly (MLAs). In addition to pension benefits, the government provides severance, removal and sick leave benefits to employees as well as retirement health benefits. These non-pension benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit liabilities which are estimated actuarially using information and assumptions approved by management. As of March 31, the liabilities for pensions and other employee benefit arrangements were as follows:

|   | 2023    | 2022    |
|---|---------|---------|
| Pension Benefits                          |         |         |
| Pension plans for MLAs                    | 24,246  | 23,295  |
| Total pension benefits                    | 24,246  | 23,295  |
| Other Employee Benefits                   |         |         |
| Retirement health benefits                | 63,403  | 55,073  |
| Severance and removal                     | 23,481  | 27,457  |
| Sick leave                                | 8,903   | 12,168  |
| Total other employee benefits             | 95,787  | 94,698  |
| Total pension and other employee benefits | 120,033 | 117,993 |

### **Public Service Pension Plan**

Substantially all of the employees of the Government are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The contribution rate effective at March 31, 2023 was 1.02 times (2022 - 1.02 times) for members enrolled before January 1, 2013, and 1.0 times (2022 - 1.0 times) for members enrolled beginning January 1, 2013. Total employer contributions of \$41,816 (2022 - \$38,656) were recognized as expense in the current year. Total employee contributions were \$41,395 (2022 - \$38,463).

### Pension Plans for MLAs

The Government sponsors two defined benefit pension plans for MLAs. Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index.

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the Legislative Assembly Retiring Allowances Act. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the Supplementary Retiring Allowances Act for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's Consolidated Revenue Fund. This plan came into effect during the 2001-02 year, and provides for benefits retroactive to April 1, 1999.

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for at least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of (a) age 60, (b) 30 years of service, or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2023 (no changes in 2022).

As per the Legislative Assembly Retiring Allowance Fund Act and the Supplementary Retiring Allowance Fund Act, an actuarial valuation is to be done as at April 1 following each general election, not necessarily every three years. The last actuarial valuations were completed for these plans as of April 1, 2022. The valuations were performed using the projected unit credit actuarial cost method. The valuations were based on a number of assumptions as approved by the Management and Services Board of the Legislative Assembly and represents the best estimates of expected long-term experience and short-term forecast, as well as the demographic assumptions underlying the most recent actuarial valuations for funding purposes. The main assumptions include inflation rate of 2.0% (2022 - 2.0%), expected discount rate of 4.0% (2022 - 4.0%), return on assets of 5.1% (2022 - 4.3%), increases in remuneration of 3.0% (2022 - 3.0%), and mortality.

The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period.

(in thousands of dollars)

### 14 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS (continued)

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows:

|                                     | LARAF   | SRAF    | 2023    | 2022    |
|-------------------------------------|---------|---------|---------|---------|
| Accrued benefit obligation          | 11,996  | 21,376  | 33,372  | 36,900  |
| Deduct:                             |         |         |         |         |
| Pension fund assets                 | 17,940  | -       | 17,940  | 16,776  |
| Unamortized actuarial (gain) / loss | (4,229) | (4,585) | (8,814) | (3,171) |
|                                     | 13,711  | (4,585) | 9,126   | 13,605  |
| Pension (asset) liability           | (1,715) | 25,961  | 24,246  | 23,295  |

As at March 31, 2023, LARAF pension fund assets had a market value of \$18,390 (2022 - \$17,758). The actual rate of return was positive 3.20% (2022 - positive 3.71%). The SRAF has no pension fund assets; however, the pension liability is funded all or in part by designated investments (Note 5).

LARAF and SRAF actuarial gains/losses are both amortized over 6.0 years (2022 - 3.0 years) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components:

|   | LARAF | SRAF  | 2023    | 2022  |
|---|-------|-------|---------|-------|
| Current period benefit cost                             | 1,368 | 2,140 | 3,508   | 3,878 |
| Amortization of actuarial (gain) / loss                 | (535) | (522) | (1,057) | 602   |
|   | 833   | 1,618 | 2,451   | 4,480 |
| MLAs contributions                                      | (289) | -     | (289)   | (319) |
| Pension expense   | 544   | 1,618 | 2,162   | 4,161 |
| Interest cost on the average accrued benefit obligation | 596   | 978   | 1,574   | 1,354 |
| Expected return on the average pension plan assets      | (874) | -     | (874)   | (707) |
| Pension interest (revenue) expense                      | (278) | 978   | 700     | 647   |
| Total expenses related to pensions                      | 266   | 2,596 | 2,862   | 4,808 |

Pension benefits paid for the LARAF and SRAF were \$1,092 and \$1,030, respectively (2022 - \$1,948 and \$999, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$880 and \$1,774, respectively (2022 - \$850 and \$1,769, respectively).

### Other Employee Benefits

Actuarial valuations for severance, removal and sick leave benefits as well as retirement health benefits were completed as of March 31, 2022. The principal actuarial assumptions used in measuring the accrued benefit obligation of other employee benefits as at March 31, 2023, based on management's best estimate, included increases in remuneration of 3.0% (2022 - 3.0%) and an average discount rate of 4.0% (2022 - 4.0%).

The changes in the other employee benefits liabilities during the year were as follows:

|   | Severance   |            | Retirement      | 2023    | 2022     |
|---|-------------|------------|-----------------|---------|----------|
|   | and removal | Sick leave | health benefits |         |          |
| Accrued benefit obligations at beginning of     |             |            |                 |         |          |
| the year  | 22,781      | 7,368      | 52,763          | 82,912  | 121,922  |
| Benefits earned                                 | 1,605       | 1,271      | 3,036           | 5,912   | 5,864    |
| Interest cost on the average accrued benefit    | 738         | 245        | 2,196           | 3,179   | 3,484    |
| Benefits paid                                   | (5,554)     | (3,830)    | (270)           | (9,654) | (7,051)  |
| Actuarial gain                                  | -           | -          | -               | -       | (41,307) |
| Accrued benefit obligations at end of year      | 19,570      | 5,054      | 57,725          | 82,349  | 82,912   |
| Unamortized net actuarial gain                  | 3,911       | 3,849      | 5,678           | 13,438  | 11,786   |
| Other employee benefits liabilities, end of the |             |            |                 |         |          |
| year  | 23,481      | 8,903      | 63,403          | 95,787  | 94,698   |
| Benefit Expenses <sup>1</sup>                   |             |            |                 |         |          |
| Benefit earned for the period                   | 1,605       | 1,271      | 3,036           | 5,912   | 5,864    |

### 15 LONG TERM DEBT AND BORROWING AUTHORITY LIMIT

| Loans and mortgages payable   | 2023              | 2022                   |
|---|-------------------|------------------------|
| Loans payable to Canada Mortgage and Housing Corporation (CMHC), repayable in annual installments until the year 2032, bearing interest at a rate of 6.97% (2022 - 6.97%).  | 5,302             | 6,047                  |
| Loans payable to CMHC, assumed from Inuit Non-Profit Housing Corporation in 2017, repayable in monthly installments, maturing in 2028, bearing interest of 10.375% (2022 - 10.375%).  | 110               | 126                    |
| Non-revolving committed loan in nine tranches with interest calculated at a variable rate of prime minus 0.5% per annum, with principal payments on the first tranche of \$100 plus interest due monthly, beginning on April 1, 2015 with the final payment due on April 1, 2025; on the second tranche of \$58 plus interest due monthly, beginning on April 1, 2016 with the final payment due on April 1, 2026; on the third tranche of \$82 plus interest due monthly, beginning April 3, 2017 with the final payment due on April 1, 2027; on the fourth tranche of \$166 plus interest due monthly, beginning April 30, 2018 with the final payment due on April 30, 2028; on the fifth tranche of \$160 plus interest due monthly, beginning April 30, 2019 with the final payment due on April 30, 2029; on the sixth tranche of \$80 plus interest due monthly, beginning April 30, 2020 with the final payment due on April 30, 2030; on the seventh tranche of \$66 plus interest due monthly, beginning April 30, 2021 with the final payment due on April 30, 2031; on the eighth tranche of \$137 plus interest due monthly, beginning April 30, 2022 with the final payment due on April 30, 2032; and on the ninth tranche, interest only monthly payments until March 31, 2023. This tranche was repaid on April 28, 2023. This facility has an option to utilize BAs with stamping fees calculated at 50 basis points per annum with terms not less than 7 days and not more than 365 days and issued and reissued in minimum aggregate amounts of \$1,000 and multiples thereof. |                   |                        |
|   | 160,971           | 170,055                |
| Non-revolving committed loan facility, payments of \$83 plus interest due monthly, beginning on December 1, 2012 with the final payment due November 30, 2022. The facility was extended on a monthly basis until its repayment on June 19, 2023 under the same conditions. Interest at prime minus 0.5%.   | 0.007             | 40.007                 |
| ·   | 9,667             | 10,667                 |
| Non-revolving committed loan facility, payments of \$67 plus interest due monthly, beginning on May 1, 2014 with  |                   |                        |
| the final payment due April 30, 2024. Interest at prime minus 0.5%.   | 8,867             | 9,667                  |
|   | 184,917           | 196,562                |
| Principal and interest amounts due in each of the next five fiscal years and thereafter on the loans and mortgages payable  | are as follows:   |                        |
|   |                   | Tatal                  |
| Principal 2024 22.592   | Interest<br>9.301 | <b>Total</b><br>31.893 |
| 2024 22,392   | 8,327             | 27,465                 |
| 2026 22.014   | 7.094             | 29,108                 |
| 2027 16,144   | 6,152             | 22,296                 |
| 2028 17,847   | 5,125             | 22,972                 |
| 2029 and beyond 87,182  | 8,739             | 95,921                 |
| 184,917   | 44,738            | 229,655                |

Interest expense on long term debt was \$7,319 for the year (2022 - \$2,087). During the year, interest costs of \$67 (2022 - \$78) were capitalized as part of additions to tangible capital assets. The interest paid on long term debt during the year was \$7,361 (2022 - \$2,111).

### **Borrowing Authority**

As of March 31, 2023, the Governor General in Council of Canada, pursuant to subsection 27(4) of the *Nunavut Act*, had approved the Government of Nunavut borrowing up to \$750 million (i.e., authorized borrowing limit).

|  | 2023    | 2022    |
|--|---------|---------|
| Qulliq Energy Corporation, long term debt  | 179,505 | 190,389 |
| Nunavut Housing Corporation, long term debt  | 5,412   | 6,173   |
|  | 184,917 | 196,562 |
| Consolidated Revenue Fund, Liability for Iqaluit International Airport (Note 16)     | 147,669 | 149,743 |
| Capital lease obligations (Note 17)  | 41,755  | 48,274  |
| Consolidated Revenue Fund, Liability for Nunavut Energy Management Program (Note 18) | 17,896  | 16,981  |
|  | 392,237 | 411,560 |
| Bank indebtedness (Note 10)  | 10,055  | 10,060  |
| Total debt   | 402,292 | 421,620 |
| Authorized borrowing limit   | 750,000 | 750,000 |
| Available borrowing capacity   | 347,708 | 328,380 |

### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

### 15 LONG TERM DEBT AND BORROWING AUTHORITY LIMIT (continued)

The Government of Nunavut guarantees the long term debt of Qulliq Energy Corporation and Nunavut Housing Corporation as well as any outstanding bank overdrafts of Qulliq Energy Corporation and Nunavut Development Corporation. As part of their financing, Nunavut Development Corporation subsidiaries have arranged various credit facilities at different terms and interest rates. Nunavut Development Corporation has provided a guarantee for these credit facilities.

Under the terms of the 1999 Social Housing Agreement (SHA), Canada Mortgage and Housing Corporation (CMHC) originally provided funding to the Nunavut Housing Corporation (NHC) to build social housing assets in the form of long-term mortgages payable to CMHC (referred to as National Housing Act (NHA) section 79 debt under the SHA) and loans payable to CMHC (referred to as NHA section 82 debt under the SHA). Under the SHA, part of the funding provided to NHC was used to reduce 100% of the NHA section 79 debt and reduce by 5/9th of the NHA section 82 debt, and to fund the related interest repayments that NHC would make each year to CMHC. This funding receivable from CMHC and the related payments due by NHC each year on the long term debt payable to CMHC are legally offset, resulting in no exchange of cash between NHC and CMHC. The funding receivable from CMHC is recorded as a reduction of the corresponding long-term debt payable. As the funding from CMHC and the corresponding repayments of long term debt are non-cash transactions, they have not been recorded in the consolidated statement of cash flow.

### 16 LIABILITY FOR IQALUIT INTERNATIONAL AIRPORT

In September 2013, the Government signed agreements as part of a public-private partnership (P3) arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The airport officially opened and began operations on August 9, 2017. The estimated cost of the project was \$305,376. The actual cost incurred by the private partnership was \$298,430. The capital costs of the arrangement was partially funded by the Government of Canada. The Government of Nunavut received \$74,160 from the Government of Canada during 2017-18.

|  | 2023    | 2022    |
|--|---------|---------|
| Loan payable in monthly installments of \$1,069 to December 2047, bearing interest at a rate of 7.23%. | 147,669 | 149,743 |

Interest expense on long term debt relating to the Iqaluit International Airport was \$10,756 for the year (2022 - \$10,900). Interest paid during the year was \$10,756 (2022 - \$10,900).

Minimum debt payments, including principal and interest, for each of the next five years and thereafter are as follows:

|                 | Principal | Interest | Total   |
|-----------------|-----------|----------|---------|
| 2024            | 2,229     | 10,601   | 12,830  |
| 2025            | 2,395     | 10,435   | 12,830  |
| 2026            | 2,574     | 10,256   | 12,830  |
| 2027            | 2,766     | 10,063   | 12,829  |
| 2028            | 2,973     | 9,857    | 12,830  |
| 2029 and beyond | 134,732   | 118,656  | 253,388 |
|                 | 147,669   | 169,868  | 317,537 |

### 17 CAPITAL LEASE OBLIGATIONS

Capital lease obligations are based upon contractual minimum lease payments for leases in effect as of March 31.

|   | 2023    | 2022    |
|---|---------|---------|
| Total minimum lease payments            | 45,083  | 52,739  |
| Less: imputed interest                  | (3,327) | (4,452) |
| Less: executory costs                   | (1)     | (13)    |
| Present value of minimum lease payments | 41,755  | 48,274  |

Minimum lease payments, including principal, interest and executory costs, for each of the next five years and thereafter are as follows:

|                 | Principal | Interest | Executory | Total  |
|-----------------|-----------|----------|-----------|--------|
| 2024            | 6,355     | 983      | 1         | 7,339  |
| 2025            | 6,529     | 805      | -         | 7,334  |
| 2026            | 6,561     | 621      | -         | 7,182  |
| 2027            | 6,571     | 438      | -         | 7,009  |
| 2028            | 5,989     | 286      | -         | 6,275  |
| 2029 and beyond | 9,750     | 194      | -         | 9,944  |
|                 | 41,755    | 3,327    | 1         | 45,083 |

Lease payments are allocated between repayments of the liability, interest expense and any related executory costs. The total minimum lease payments less the initial liability and executory costs represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$1,168 (2022 - \$1,380) at an implied average interest rate of 2.8% (2022 - 2.9%). The capital lease obligations expire between 2024 and 2030.

#### 18 LIABILITY FOR NUNAVUT ENERGY MANAGEMENT PROGRAM

|                                      | 2023   | 2022   |
|--------------------------------------|--------|--------|
| Project financing payable - Baffin   | 208    | 538    |
| Project financing payable - Kivalliq | 17,688 | 16,443 |
|                                      | 17 896 | 16 981 |

Under the Nunavut Energy Management Program Project - Baffin region, the Government has entered into an energy savings contract arrangement that includes an ongoing responsibility for making all principal and interest payments associated with the third-party financing of costs of improvements under the project. Payments were due monthly at \$139 to 2019, \$95 to 2022 and \$21 to July 2023 at an average interest rate of 5.13% (2022 - 5.13%). Interest expense on the project for the year was \$13 (2022 - \$62). Interest paid during the year was \$13 (2022 - \$62).

Future payments for the Nunavut Energy Management Program Baffin Project, for the next year is as follows:

|      | Principal | Interest | Total |
|------|-----------|----------|-------|
| 2024 | 208       | 1        | 209   |
|      | 208       | 1        | 209   |

Under the Nunavut Energy Management Program Project - Kivalliq region, the Government has entered into a contract for \$24,258 that includes all principal and interest payments associated with the third-party financing of costs of improvements under the project. The project was completed in November 2022, and payments are due monthly at \$254 until August 2030, at an average interest rate of 6.63% (2022 - 6.3%). Interest expense on the project for the year was \$418 (2022 - \$452). Interest paid during the year was \$418 (2022 - nil).

Future payments for the Nunavut Energy Management Program Kivalliq Project, for each of the next five years and thereafter are as follows:

|                 | Principal | Interest | Total  |
|-----------------|-----------|----------|--------|
| 2024            | 1,929     | 1,115    | 3,044  |
| 2025            | 2,061     | 983      | 3,044  |
| 2026            | 2,201     | 842      | 3,043  |
| 2027            | 2,352     | 692      | 3,044  |
| 2028            | 2,513     | 531      | 3,044  |
| 2029 and beyond | 6,632     | 551      | 7,183  |
|                 | 17,688    | 4,714    | 22,402 |

### 19 ASSET RETIREMENT OBLIGATIONS

The Government owns and operates buildings that are known to have asbestos, lead, mercury, and PCBs which represents a health hazard upon demolition of the building and there is a legal obligation to remove it in accordance with Canada Occupational Health and Safety Regulations (10.26 Schedule, Division II – Hazardous Substances Other than Hazardous Products). Following the adoption of PS 3280 Asset Retirement Obligations, the Government recognized an obligation relating to the removal and post-removal care of asbestos, lead, mercury, or PCBs in buildings at April 1, 2022 (see Note 3 (b)). Post-closure care is estimated to extend for up to one year after the closure of the building, while demolition and decommissioning continues.

The transition and recognition of asset retirement obligations involved an increase to the buildings and the restatement of prior year balances (see Note 3 (b)). The liability was estimated using costs for similar remediations and then discounted to the present value amount using a discount rate as noted in the table below. There are no expected recoveries and the estimated liability includes a contingency of 10%. No assets have been designated to settle any asset retirement obligations and amortization of the asset retirement obligation is on the same basis as the related asset.

|  |         | Restated (Note 3) |
|--|---------|-------------------|
|  | 2023    | 2022              |
| Opening balance                                  | 172,338 | 167,701           |
| Accretion expense                                | 4,766   | 4,637             |
| Revisions to estimated cash flow and revaluation | (4,490) | <u> </u>          |
| Closing balance                                  | 172,614 | 172,338           |

### 19 ASSET RETIREMENT OBLIGATIONS (continued)

In addition to assumptions based on the costing and prevalence of asset retirement obligations determined using sample testing of units throughout the territory, the following is a summary of the key information and assumptions upon which the carrying amount of the asset retirement obligations are based:

|  | <b>2023</b><br>249,591 | <b>2022</b><br>249,763 |
|--|------------------------|------------------------|
| (i) Total undiscounted asset retirement obligations                              | ,                      | ,                      |
| (ii) Expected timing of payments   | 2024 to 2054           | 2023 to 2054           |
| (iii) Discount rate  | 3.04% and 5.45%        | 1.46% and 2.79%        |
| (iv) Inflation rate  | 2.00%                  | 2.00%                  |
| This provision is highly sensitive to the discount rate and inflation rate used. |                        |                        |
| i) A 1% increase in the discount rate would decrease the obligation by           | 18,926                 | 19,057                 |
| ii) A 1% increase in the inflation rate would increase the obligation by         | 22,746                 | 23,419                 |
|  |                        | Restated (Note 3)      |
| 20 EXPENSES BY TYPE  | 2023                   | 2022                   |
| Goods and services   | 1,439,857              | 1,294,625              |

| Amortization of tangible capital assets  | 153,512                | 143,136                |
| Interest expense   | 21.843                 | 16.217                 |
| Increase in valuation allowances   | 12,390                 | 6.065                  |
| Accretion  | 4,766                  | 4,637                  |
| Loss on disposal / write-down of tangible capital assets                         | 1.501                  | -,001                  |
| 2000 of disposal, filled doffit of talligible daption 400000                     | 2,767,168              | 2,553,285              |

### 21 CONTRACTUAL OBLIGATIONS

In addition to other commitments disclosed elsewhere in these consolidated financial statements, the Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2023:

|  | Total     |
|--|-----------|
| Commitments under operating leases                     | 129,119   |
| Capital commitments                                    | 369,762   |
| Policing agreement                                     | 604,701   |
| Iqaluit International Airport commitments              | 615,750   |
| Other commitments                                      | 626,735   |
|  | 2,346,067 |
| Contractual obligations by fiscal year are as follows: | 682.153   |
| 2025   | 311,617   |
| 2026   | 213,716   |
| 2027   | 137,931   |
|  | 107,901   |
| 2028   | 121,351   |
| 2028<br>   | •         |

### 22 CONTRACTUAL RIGHTS

The Government enters into agreements to provide goods and services with various businesses and government agencies. These agreements will result in revenue and assets in the future. The following table summarizes the contractual rights of the Government when the terms of those agreements are met.

|   | Total     |
|---|-----------|
| Canada Infrastructure Plan                        | 535,033   |
| New Building Canada Fund                          | 131,540   |
| Canada Mortgage and Housing Corporation           | 274,175   |
| Health Canada Agreements                          | 133,131   |
| Others / Third party agreements                   | 139,964   |
|   | 1,213,843 |
| Contractual rights by fiscal year are as follows: |           |
| 2024  | 214,749   |
| 2025  | 221,818   |
| 2026  | 315,897   |
| 2027  | 305,013   |
| 2028  | 91,640    |
| 2029 and beyond                                   | 64,726    |
|   | 1,213,843 |

### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

#### 23 CONTINGENCIES

### (a) Post-division adjustments

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can be reasonably estimated. As at March 31, 2023, no new post-division adjustments were recorded (2022 - nil).

### (b) Litigation

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. Where it is likely that there will be a future payment and a reasonable estimate of the amount can be made, the Government has recorded a liability. For those pending cases, where the outcome is not determinable as at March 31 and a reasonable estimate of the amount can be made, the total amount of those claims is estimated at \$270 (2022 - \$11,270). No liability has been recorded for these claims as the outcome of these cases is not determinable.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. Where it is likely that there will be a future payment and a reasonable estimate of the amount can be made, the Government has recorded a liability. For those pending cases, where the outcome is not determinable as at March 31 and a reasonable estimate of the amount can be made, the total amount of those claims is estimated at \$130,958 (2022 - \$146,775). No liability has been recorded for these claims as the outcome of these cases is not determinable

### (c) Other

Under the terms of the Social Housing Agreement with Canadian Mortgage and Housing Corporation (CMHC), Nunavut Housing Corporation (NHC) is responsible for the administration of a number of loans to third parties, where CMHC is the lender or insurer of these loans. The agreement provides that NHC shall indemnify and reimburse CMHC for, and save it harmless from, all losses, costs and expenses related to these loans. The carrying value of these third party loans is approximately \$292 as at March 31, 2023 (2022 - \$338).

### 24 TRUSTS UNDER ADMINISTRATION

The Government administers trust accounts on behalf of third parties. These trust accounts are not included in the reported assets and liabilities of the Government.

|                                      | 2023   | 2022  |
|--------------------------------------|--------|-------|
| Public Trustee                       | 8,170  | 7,462 |
| Natural Resources Conservation Trust | 1,755  | 1,465 |
| Territorial Court Trust              | 661    | 596   |
|                                      | 10,586 | 9,523 |

### 25 FINANCIAL RISK MANAGEMENT

The Government is exposed to certain risks as a result of holding financial instruments. The following risks have no significant impact on the Government's consolidated financial statements.

### (a) Credit Risk

Credit risk is the risk that a third party will be unable to fulfill its payment obligations and cause a financial loss to the Government. The Government is exposed to credit risk through its cash and cash equivalents, accounts receivable, portfolio and other investments and loans receivables. The maximum extent of the exposure is the carrying value at the reporting date. At the end of 2023, there were no known relevant concentrations of credit risk by type of customer or geography. The Government's credit risk exposure is mainly influenced by individual customer characteristics.

Exposure to credit risk associated with its cash and cash equivalents is substantially minimized by placing these assets in senior Canadian chartered banks and the Government monitors these assets. The Government invests surplus funds to earn investment income with the deposits in a recognized large financial institution and cash equivalents are invested in short-term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition. As a result, credit risk arising from cash and cash equivalents is considered negligible.

### **Notes to Consolidated Financial Statements**

March 31, 2023

(in thousands of dollars)

### 25 FINANCIAL RISK MANAGEMENT (continued)

The Government has a concentration of accounts receivable from the Government of Canada which is considered low risk. Territorial Corporations, departments, and the Petroleum Products Division account for the remaining balance of accounts receivable. For certain loans, credit risk is managed through collateral security pledged by the borrowers and personal guarantees provided by borrowers. There is no concentration of loans receivable which further mitigates credit risk. Loans receivable are regularly reviewed and assessed to mitigate credit risk.

To mitigate risk, the Government regularly monitors its accounts receivable and assesses collectability. Where collection is at risk, an allowance for doubtful accounts is recognized. The allowance is based on specific accounts and is determined by considering the Government's knowledge of the financial conditions of customers, the aging of the receivable, current business conditions and historical experience. Receivables from the Government of Canada are not considered impaired.

Accounts receivable are generally due in 60 days or less. The Government utilizes an allowance account for potential losses related to accounts receivable. Any amounts subsequently recovered are reflected as recoveries in the consolidated statement of operations and accumulated surplus.

The aging analysis of other unimpaired accounts receivable is as follows:

|                             | 31-60 days | 61-90 days | Over 90 days | 2023   |
|-----------------------------|------------|------------|--------------|--------|
| Territorial Corporations    | 5,460      | 5,005      | 11,012       | 21,477 |
| Departments of Government   | -          | -          | 30,987       | 30,987 |
| Petroleum Products Division | 9,440      | 7,228      | 3,062        | 19,730 |
|                             | 14,900     | 12,233     | 45,061       | 72,194 |

<sup>\*</sup> Comparative figures are not presented as the new accounting standard PS 3540 is applied prospectively.

With respect to accounts receivable past due but not impaired, based on credit history and credit ratings, there are no indications customers will not be able to meet their obligations.

The Government's investment policy for portfolio and other investments is designed to limit credit risk. Portfolio and other investments risk is mitigated by investing in low-risk Guaranteed Investment Certificates and Bankers' Acceptances.

### (b) Liquidity Risk

Liquidity risk is the risk that the Government will not be able to meet its short term financial obligations. To manage liquidity risk, the Government maintains cash reserves (cash and cash equivalents) at levels that will meet future cash requirements. The Government's liquidity risk is further mitigated by its short-term portfolio investments, access to credit facilities and the timing of debt repayments.

A maturity analysis of the Government's financial liabilities is as follows (the contractual cash flows reported are undiscounted and include principal and interest payments):

|  | Carrying Amount<br>and Interest | 2024 Estimated    | 2025 to 2028      | 2029 to 2047       | 2023                 |
|--|---------------------------------|-------------------|-------------------|--------------------|----------------------|
| Bank indebtedness                              | 10,055                          | 10,055            | -                 | -                  | 10,055               |
| Accounts payable and accrued liabilities       | 559,549                         | 559,549           | -                 | -                  | 559,549              |
| Long-term debt                                 | 229,655                         | 31,893            | 101,841           | 95,921             | 229,655              |
| Liability for Iqaluit<br>International Airport | 317,537<br>1,116,796            | 12,830<br>614,327 | 51,319<br>153,160 | 253,388<br>349,309 | 317,537<br>1,116,796 |

<sup>\*</sup> Comparative figures are not presented as the new accounting standard PS 3540 is applied prospectively.

The Government does not currently believe that it will encounter difficulty in meeting its future obligations associated with its financial liabilities.

### (c) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market place. The Government is not significantly exposed to interest rate risk on its portfolio investments as these investments are not held on the open market, are intended to be held until the end of the term and have fixed interest rates until that time. Although management monitors exposure to interest rate fluctuations, its does not employ any interest rate management policies to counteract interest rate fluctuations.

Long-term debt is comprised primarily of instruments with fixed interest rates; therefore the Government has not provided a sensitivity analysis to show the effect of interest rate changes on operating results.

The Government is not exposed to significant foreign exchange or other price risk.

SCHEDULE A

Consolidated Schedule of Revenues by Source for the year ended March 31, 2023 (in thousands of dollars)

| Net book value                                 | 1,850,469         | 43,516              | 41,758                | 102,412       | 15,808         | 54,297                         | 241,543                          | 57,856                  | 345,877             | 327  | 2,753,863   | 2,746,086        |

During the year, interest of \$67 was capitalized (2022 - \$78) as part of the cost of additions.

The tangible capital asset additions presented in the consolidated statement of cash flow exclude non-cash acquisitions totalling \$37,053 (2022 - \$46,742) which represent unpaid purchases and holdbacks that are included in accounts payables and accrued liabilities as well as the liability for the Nunavut Energy Management Program at March 31, 2023.

5-30 years

10-45 years

20-40 years 15-45 years

30 years

n/a

Included in tangible capital asset additions are \$364 (2022 - \$874) of corporate overhead costs of the Qulliq Energy Corporation.

20-35 years 20-30 years 20-30 years 30 years

<sup>\*</sup> Consists of the impact of revisions in estimated cash flows on the asset retirement obligations (Note 19), largely as a result of the change in the discount rate during the year.

<sup>(1) -</sup> Includes adjustments to eliminate inter-entity balances to comply with Canadian public sector accounting standards. For example, contributions by departments to revolving funds, territorial corporations and other agencies (i.e., consolidated entities) are shown in grants and contributions expense under the "Consolidated Revenue Fund" column, while the amounts received by the applicable consolidated entity group are shown as revenues in their respective columns. These amounts are eliminated upon consolidation to avoid double-counting and results in significant amounts shown in the 'Consolidation Adjustments' column.

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

#### 1 AUTHORITY AND OPERATIONS

### (a) Government of Nunavut

The Government of Nunavut (the Government) operates under the authority of Canada's *Nunavut Act*. The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

### (b) Main Estimates

The 2022-2023 Main Estimates were tabled in the Legislative Assembly in May 2022 and represent the Government's fiscal plan for the year (i.e., original budget). Summary information and totals for the Government's original budget for the year are provided on pages x through xiii of the 2022-2023 Main Estimates. Planned Vote 5 revenues and Vote 4 expenses represent the share of eligible costs to be funded under agreements with the Government of Canada or others, and while not part of the annual Appropriations (Operations and Maintenance) Act approved by the Legislative Assembly in June 2022, they are, along with those of revolving funds, included in the original budget totals disclosed in these financial statements.

### **2 SIGNIFICANT ACCOUNTING POLICIES**

### (a) Basis of Accounting

These financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS), as issued by the Public Sector Accounting Board of Canada, with the exception that they are not consolidated and certain revenues are reported net of expenses (i.e., Petroleum Products Division and liquor revenues are reported net of their cost of goods sold).

Pursuant to Section 74 of the *Financial Administration Act*, the Government also prepares consolidated financial statements, which provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The consolidated reporting entity is defined in those statements.

### (b) Reporting Entity

These financial statements include the assets, liabilities and operating results of the Government's Consolidated Revenue Fund, including departments included in the Main Estimates, as well as the following revolving funds:

Liquor and Cannabis Revolving Fund Petroleum Products Revolving Fund Public Stores Revolving Fund Student Loan Fund

Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following public agencies are included in these non-consolidated financial statements only to the extent of the Government's contributions to and services received from or provided to them during the year:

Territorial corporations

- Nunavut Arctic College (NAC)
- Nunavut Business Credit Corporation (NBCC)
- Nunavut Development Corporation (NDC)
- Nunavut Housing Corporation (NHC)
- Qulliq Energy Corporation (QEC)

Other public agencies

- District Education Authorities
- Human Rights Tribunal
- Inuit Uqausinginnik Taiguusiliuqtiit
- Labour Standards Board
- Legal Services Board
- Liquor and Cannabis Commission
- Liquor and Cannabis Board
- Office of the Public Trustee
- Qulliit Nunavut Status of Women Council

Nunavut Lottery, which operates as a government business partnership, is recorded in these non-consolidated financial statements based on the contributions received during the year from the net results of lottery sales and activities in Nunavut.

### Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

The Workers' Safety and Compensation Commission (WSCC), which is responsible for the administration of related employer insurance premiums and employee benefit programs within Nunavut, is not accounted for in these financial statements. Since the Government does not control or have access to the WSCC's assets or responsibility for its obligations, it is excluded from the Government's reporting entity.

### (c) Use of Estimates and Measurement Uncertainty

The preparation of financial statements in accordance with Canadian PSAS requires government management to make estimates and assumptions that affect the amount of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these financial statements, management believes the estimates and assumptions are reasonable.

The most significant management estimates relate to income tax revenues, pension and other employee benefit liabilities, liability for contaminated sites, asset retirement obligations, contingencies, useful life of tangible capital assets, valuation of inventories for resale and use as well as valuation allowances on loans and other receivables.

### (d) Financial Instruments

The following is a list of the Government's financial instruments and their related measurement basis as at March 31, 2023:

Financial Assets Measurement Basis

 Cash and cash equivalents
 Cost

 Due from the Government of Canada
 Cost

 Accounts receivable
 Cost

Loans receivable Amortized cost

Portfolio and other investments Cost

**Financial Liabilities** 

Accounts payable and accrued liabilities Cost

Liability for Iqaluit International Airport Amortized cost

As all financial instruments are measured at cost or amortized cost, there have been no remeasurement gains or losses. Therefore, a statement of remeasurement gains and losses has been excluded.

All financial assets are annually tested for impairment. When financial assets are impaired, impairment losses are recognized in the statement of operations and accumulated surplus. A write down of a financial asset to reflect a loss in value is not reversed for a subsequent increase in value. On disposal or derecognition of a financial asset or liability, the resulting gain or loss is recognized in the statement of operations and accumulated surplus.

Upon initial recognition, transactions costs which are incremental and directly attributable to the acquisition or issuance of a financial asset or financial liability are added to the carrying value of the financial instruments measured using the cost or amortized cost method.

For financial instruments measured using amortized cost, the effective interest method is used to determine interest revenue and expense.

### (e) Cash and Cash Equivalents

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short-term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition.

### (f) Portfolio and Other Investments

Portfolio and other investments include long-term investments in Guaranteed Investment Certificates and investments related to the Supplementary Retirement Allowances Fund (SRAF).

Portfolio and other investments are accounted for at cost, which approximates fair value. SRAF designated investments represent ownership interests in a pooled equity fund with an active market.

Where there has been a loss in value of a portfolio or other investment, that is other than a temporary decline, the investment is written down to recognize the loss. A write-down of portfolio and other investments to reflect a loss in value is not reversed if there is a subsequent increase in value. The new carrying value is deemed to be the new cost basis for subsequent accounting purposes. Interest income is recognized using the effective interest method, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

### (g) Inventories

Inventories for resale include bulk fuel and liquor products and are valued at the lower of weighted average cost or net realizable value. Inventory for use includes health and medical supplies valued at the lower of cost or replacement cost, with cost being determined on a first-in, first-out basis.

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

### (h) Loans Receivable

Loans receivable are recorded at amortized cost, net of valuation allowances, if any. Based on the circumstances known at the date the financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recognized using the effective interest method. An uncollectable or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

### (i) Tangible Capital and Leased Assets

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government programs and services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost. Cost includes all outlays to ready the asset for use including contracted services, materials and supplies, direct labour, attributable overhead costs and directly attributable interest. Capitalization of interest ceases when a tangible capital asset is ready for use in producing goods or delivering programs and services. Gifted or contributed tangible capital assets are recorded at fair market value upon receipt, or a nominal value if fair value is not available.

Leased assets that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the term of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

Tangible capital assets, when placed into service, are amortized over their useful lives using the straight-line method. When assets are leased, the amortization rate will be based on the lesser of the lease term or the useful life of the leased asset. The following amortization rates are being used:

| Asset Category     | Amortization Period |
|--------------------|---------------------|
| Buildings          | 30 years            |
| Leased Buildings   | 30 years            |
| Infrastructure     | 30 years            |
| Tank Farms         | 30 years            |
| Storage Facilities | 30 years            |
| Equipment          | 5-30 years          |
| Land               | Not amortized       |

When conditions indicate that a tangible capital asset no longer contributes to the Government's ability to provide goods or deliver programs and services, or that the value of future economic benefits associated with the tangible capital asset is less than its net book value, the cost of the tangible capital asset is reduced to reflect the decline in the asset's value.

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work in progress with no amortization taken until the year the asset is placed into service.

Assets acquired by right, such as Crown lands, water, and mineral resources, are not recorded in the financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints, and photographs are charged to expense in the year they are acquired.

### (i) Pension and Other Employee Benefits

### **Pension Benefits**

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service costs. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, the Government of Nunavut's contributions are recognized as an expense in the year when employees have rendered the service. The contributions represent the total pension obligation of the Government of Nunavut.

The Government provides two different pension benefits to Members of the Legislative Assembly. The costs and obligations of the Government for these pension plan benefits are estimated on an actuarial basis. When actual experience varies from estimates, or when actuarial assumptions change, actuarial gains or losses arise. These gains and losses are not recognized immediately but rather over the estimated average remaining service life of the plan members. Recognition of actuarial gains and losses commences in the year following the effective date of the related actuarial valuation. In addition, upon a plan amendment, curtailment or settlement, previously unrecognized net actuarial gain or loss balances are immediately recognized in the statement of operations and accumulated surplus.

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

### Other Employee Benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. Severance and removal benefits are recorded when employees are identified for lay-off or removal. These benefits are paid upon resignation, lay-off or termination, retirement or death of the employee. Upon retirement, employees are entitled to enroll in health and dental benefit programs, the cost of which is cost-shared with the Government. The estimated liability and related expenses for these benefit programs are recorded as employees earn them. Actuarial valuation estimates of the Government's obligations and related costs for each of these benefit programs have been prepared using data provided by management and assumptions based on management's best estimates.

The Government's employees are entitled to sick leave under their terms of employment. Included in other employee benefits is an amount for employees who are permitted to accumulate unused sick leave. However, such entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which are expected to be used in future years is determined by an actuarial valuation and has been recorded in these financial statements.

### (k) Asset Retirement Obligations

An asset retirement obligation is recognized when, as at the financial reporting date, all of the following criteria are met:

- i) There is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- ii) The past transaction or event giving rise to the liability has occurred;
- iii) It is expected that future economic benefits will be given up; and
- iv) a reasonable estimate of the amount can be made.

Recognized liabilities include all costs directly attributable to asset retirement activities, including costs related to post-retirement operation, maintenance, and monitoring that is an integral part of the retirement of the tangible capital asset. Estimates are based on the Government's best estimate of the total expenditure required to complete retirement activities using information that was available at the reporting date.

When an asset retirement liability is initially recognized, asset retirement costs are capitalized and added to the carrying value of the related tangible capital asset. The capitalized asset retirement obligation is amortized on the same basis as the related tangible capital asset and any accretion expense is recognized in the statement of operations and accumulated surplus. Asset retirement costs related to unrecognized tangible capital assets and tangible capital assets no longer in productive use are immediately expensed.

The estimate of an asset retirement obligation incorporates a present value technique, when the cash flows required to settle or otherwise extinguish an asset retirement obligation are expected to occur over extended future periods. The liability is discounted using a present value calculation and adjusted annually for accretion expense. The discount rate used reflects the Government's cost of borrowing, associated with the estimated number of years to complete the retirement or remediation.

At each financial reporting date, the carrying amount of the liability is reviewed. The Government recognizes period-to-period changes to the liability due to the passage of time as an accretion expense. Changes to the liability arising from revisions to either the timing or the original estimate of the undiscounted cash flows or the discount rate are recognized as an increase or decrease to the carrying amount of the related tangible capital asset. The Government continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

### (I) Revenues

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

### Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability and is recorded as deferred revenue.

### Taxes

Tax revenues are recognized in the period in which the taxable event occurs and when they are authorized by legislation or the ability to assess and collect the tax has been provided through legislative convention. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Tax concessions transferred to taxpayers include the Nunavut child benefit, the cost of living tax credit and the business training tax credit. Taxes, under the *Income Tax Act*, are administered by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the period they become known.

Fuel, tobacco, and payroll taxes are levied under the authority of the Petroleum Products Tax Act, the Tobacco Tax Act and the Payroll Tax Act, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commission on tobacco tax revenue provides a financial benefit other than relief of taxes and is recorded as an expense.

March 31, 2023

(in thousands of dollars)

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

#### Recoveries of prior years expenditures

Recoveries of prior years expenditures, including reversals of prior years expenditure over-accruals, are reported separately from other revenues on the statement of operations and accumulated surplus. Pursuant to the subsection 36(9) of the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures.

### (m) Expenses

Expenses are recorded on an accrual basis when goods are received or services are rendered.

Grants and contributions are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient. Grants and contributions include transfer payments to individuals, municipalities and other organizations under government funding arrangements. Payments to individuals include payments for children's benefits, income support or income supplement. These payments are based on age, family status, income, and employment criteria. Other grants and contributions are provided to conduct research, to establish new jobs through support for training and to promote educational, health and cultural activities.

### (n) Contingencies

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur and is quantifiable, an estimated liability is accrued as part of accounts payable and accrued liabilities. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

### (o) Contaminated sites

Contaminated sites are the result of contamination being introduced into air, soil, water or sediment in concentrations that exceeds the maximum acceptable amounts under an environmental standard.

A liability for remediation of a contaminated site is recognized when all of the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standard;
- the Government is directly responsible or accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability for contaminated sites reflects government management's best estimate of the amount required to remediate sites to the current minimum standard for its use prior to the contamination. The liability is recognized net of any expected recoveries and includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring.

The liability is adjusted each year for the passage of time, new obligations, changes in management estimates and actual costs incurred. If the likelihood of a future event that would confirm the Government's responsibility is not determinable, a contingent liability is disclosed in the notes to the financial statements.

### (p) Future changes in accounting standards

A number of new and amended standards and guidance issued by the Public Sector Accounting Board of Canada are not yet effective and have not been applied in preparing these financial statements. The Government will adopt these new and amended standards and guidance on their effective dates. The Government is currently assessing the impact they will have on its financial statements. The following standards for governments will become effective as follows:

PS 3400 Revenue (effective April 1, 2023), a new section establishing standards on how to account for and report on revenue, differentiating between revenue arising from transactions that include performance obligations and transactions that do not have performance obligations.

PS 1202 Financial Statement presentation (effective April 1, 2026), defines how financial statement information is presented. Key changes include removal of the statement of change in net financial assets or net debt and the addition of a new statement of net assets or net liabilities and how this amount is determined.

### 3 ADOPTION OF NEW ACCOUNTING STANDARDS

### (a) Implementation of PS 3450, Financial Instruments

Effective April 1, 2022, the Government has prospectively adopted *PS 3450 Financial Instruments* (PS 3450). The adoption of *PS 3450* also requires the adoption of *PS 1201 Financial Statement Presentation* (PS 1201), *PS 2601 Foreign Currency Translation* (PS 2601), and *PS 3041 Portfolio Investments* (PS 3041), effective April 1, 2022. These new standards provide detailed requirements for the recognition, measurement, presentation, and disclosure of financial instruments and foreign currency transactions. The Government assessed the requirements of these standards and determined PS 1201, PS 2601, and PS 3041 do not have a significant impact on the financial statements. All financial instruments included on the statement of financial position are measured at cost or amortized cost. See Note 2(d). There were no significant remeasurement gains or losses recognized in the financial statements and there were no changes to previously reported amounts as a result of PS 3450 being adopted.

### (b) Implementation of PS 3280, Asset Retirement Obligations

On April 1, 2022, the Government adopted *PS 3280 Asset Retirement Obligations* on a modified retroactive basis. This standard requires public sector entities to recognize liabilities for legal obligations to incur costs associated with the retirement of tangible capital assets on their acquisition, construction, development or through their normal use, and to expense those costs systematically over the life of the asset.

The Government recognized asset retirement obligations relating to buildings that contain either asbestos, lead, mercury, or polychlorinated biphenyls (PCBs). On initial application of the standard, the Government recognized:

- i) a liability for any existing asset retirement obligation, adjusted for accumulated accretion to that date;
- ii) an asset retirement cost capitalized as an increase to the carry amount of the related tangible capital asset;
- iii) accumulated amortization on that capital cost, and
- iv) an adjustment to the opening balance of the accumulated surplus.

These amounts were measured using information, assumptions and discount rates that were current at the beginning of the current fiscal year. The amount recognized as an asset retirement cost was measured as of the date the asset retirement obligation was incurred. Accumulated amortization and accretion were measured for the period from the date the liability would have been recognized had the provisions of this standard been in effect to the date of the transition. When an asset retirement obligation is settled, any liability and associated asset retirement costs are removed from the Statement of Financial Position.

The effect of the adoption of PS 3280 on the March 31, 2022 comparative information is presented below.

|                |   | As Previously | 2022 Restatement | As Restated 2022 |

### 11 DEFERRED REVENUES

| LINES REVENSES                                       | Balance<br>April 1, 2022 | Receipts<br>during the year | Transfer to revenue | Balance<br>March 31, 2023 |
|--|--------------------------|-----------------------------|---------------------|---------------------------|
| Gas Tax Agreement                                    | 96,389                   | 20,624                      | (13,918)            | 103,095                   |
| Other deferred revenue                               | 50,796                   | 47,702                      | (42,682)            | 55,816                    |
| Nunavut Land Claim                                   | 32,017                   | 10,927                      | (18,492)            | 24,452                    |
| Provincial-Territorial Base Funding (Building Canada | 941                      | 29                          | -                   | 970                       |
|  | 180,143                  | 79,282                      | (75,092)            | 184,333                   |

The deferred revenue balance at March 31 includes mostly funding for eligible capital infrastructure projects and specific programs received from the Government of Canada under formal contribution or other agreements. In 2023-24 and beyond, as the government fulfills its obligations from purpose or other stipulations for the use of these funds the associated revenue will be recognized.

# 12 LIABILITY FOR CONTAMINATED SITES20232022Liabilities for remediation of contaminated sites7,6357,793

The Government's activities are subject to various federal and territorial laws and regulations, such as the Environmental Protection Act of Nunavut and the Environmental Guideline for Contaminated Site Remediation - 2010, governing the protection of the environment or to minimize any adverse impact thereon. The Government conducts its operations so as to protect public health and the environment and believes its operations are in compliance with all applicable laws and regulations.

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2023, there were 6 sites (2022 - 6) - 2 storage tank farms (2022 - 2) and 4 waste sites - (2022 - 4), identified as requiring environmental remediation. For those sites where the Government of Nunavut expects to give up future economic benefits due to a legal order or plans to remediate contamination (e.g., due to the risk to human health), and is responsible or has accepted responsibility for remediation, and a reasonable estimate can be determined for remediation costs, a liability has been recorded in these financial statements. Where remediation costs have been estimated and a liability has been recorded the methodology used to estimate the liability is either based on third party analyses or extrapolated from costs previously incurred to remediate, monitor, or manage sites of similar size and contamination.

The Government has identified an additional 73 (2022 - 73) sites on Commissioner land for which liabilities for contamination may exist for assessment, remediation and/or monitoring. The activities associated with these sites are classified as follows:

|                                | 2023 | 2022 |
|--------------------------------|------|------|
| Storage tank farms             | 25   | 25   |
| Power plants                   | 29   | 29   |
| Town and waste sites           | 11   | 11   |
| Garages and other public works | 5    | 5    |
| Airports                       | 2    | 2    |
| Quarries                       | 1    | 1    |
|                                | 73   | 73   |

The Government acquired ownership of sites and activities associated with airports, tank farms and power plants on creation of the Territory on April 1, 1999. The contamination of certain sites occurred when other parties were responsible for the use of and/or held tenure to the sites. The Government has estimated that remediation of contamination at 14 storage tank farm sites and 29 power plant sites (2022 - 14 and 29) would cost, without considering inflation, approximately \$9,700 and \$45,000 (2022 - \$9,700 and \$39,000), respectively. In addition, the Government has estimated that remediation at the other sites could cost, without considering inflation, between \$63,000 - \$134,000 (2022 - \$63,000 - \$134,000) depending on the approach taken. No liability for remediation of these 73 sites (2022 - 73) has been recognized in these consolidated financial statements as the Government does not expect to give up any future economic benefits (i.e. no legal requirement to remediate). Going forward, a liability for remediation of these or other identified sites will be recognized only when future economic benefits are expected to be given up (i.e. public health risk or legal requirement).

Most storage tank farms and power plants are monitored on a regular basis to ensure the containment of the identified contaminants. For the other Government of Nunavut's operations and/or sites, there is no ongoing monitoring program in place, but plans for one are to be developed in the future.

In addition, the Government has identified 146 (2022 - 144) sites where garages, public works facilities, quarries, sewage disposal/treatment and solid waste sites and activities are generally located and conducted within municipal boundaries and governed by municipal legislation. Contamination at these sites and activities within municipal boundaries and jurisdiction are the responsibility of municipalities to monitor and remediate if necessary.

### 13 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS

There are separate pension arrangements in place to provide retirement benefits to government employees and to Members of the Legislative Assembly (MLAs). In addition to pension benefits, the government provides severance, removal and sick leave benefits to employees as well as retirement health benefits. These non-pension benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit obligations, which are estimated actuarially using information and assumptions approved by management. As of March 31, the liabilities for pensions and other employee benefit arrangements were as follows:

|   | 2023    | 2022    |
|---|---------|---------|
| Pension Benefits                              |         |         |
| Pension plans for MLAs                        | 24,246  | 23,295  |
| Total pension benefits                        | 24,246  | 23,295  |
| Other Employee Benefits Severance and removal | 17,887  | 21,687  |
| Retirement health benefits                    | 63,403  | 55,073  |
| Sick leave                                    | 7,984   | 10,146  |
| Total other employee benefits                 | 89,274  | 86,906  |
| Total pension and other employee benefits     | 113,520 | 110,201 |

#### **Public Service Pension Plan**

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The contribution rate effective at March 31, 2023 was 1.02 times (2022 - 1.02 times) for members enrolled beginning January 1, 2013, Total employer contributions of \$36,473 (2022 - \$33,789) were recognized as expense in the current year. Total employee contributions were \$36,229 (2022 - \$33,690).

### Pension Plans for MLAs

The Government sponsors two defined benefit pension plans for MLAs. Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the Legislative Assembly Retiring Allowances Act. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the *Supplementary Retiring Allowances Act* for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's Consolidated Revenue Fund. This plan came into effect during the 2001-02 year, and provides for benefits retroactive to April 1, 1999.

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for at least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of (a) age 60, (b) 30 years of service, or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2023 (no changes in 2022).

As per the Legislative Assembly Retiring Allowance Fund Act and the Supplementary Retiring Allowance Fund Act, an actuarial valuation is to be done as at April 1 following each general election, not necessarily every three years. The last actuarial valuations were completed for these plans as of April 1, 2022. The valuations were performed using the projected unit credit actuarial cost method. The valuations were based on a number of assumptions as approved by the Management and Services Board of the Legislative Assembly and represents the best estimates of expected long-term experience and short-term forecast, as well as the demographic assumptions underlying the most recent actuarial valuations for funding purposes. The main assumptions include inflation rate of 2.0% (2022 - 2.0%), expected discount rate of 4.0% (2022 - 4.0%), return on assets of 5.1% (2022 - 4.3%), increases in remuneration of 3.0% (2022 - 3.0%), and mortality.

The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period.

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

### 13 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS (continued)

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows:

|   | LARAF   | SRAF    | 2023    | 2022    |
|---|---------|---------|---------|---------|
| Accrued benefit obligation              | 11,996  | 21,376  | 33,372  | 36,900  |
| Deduct:                                 |         |         |         |         |
| Pension fund assets                     | 17,940  | -       | 17,940  | 16,776  |
| Amortization of actuarial (gain) / loss | (4,229) | (4,585) | (8,814) | (3,171) |
|   | 13,711  | (4,585) | 9,126   | 13,605  |
| Pension (asset) liability               | (1,715) | 25,961  | 24,246  | 23,295  |

As at March 31, 2023, the LARAF pension fund assets had a market value of \$18,390 (2022 - \$17,758). The actual rate of return was positive 3.20% (2022 - positive 3.71%). The SRAF has no pension fund assets; however, the pension liability is funded all or in part by designated investments (Note 9).

LARAF and SRAF actuarial gains/losses are both amortized over 6 years (2022 - 3 years for both) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components:

|   | LARAF | SRAF  | 2023    | 2022  |
|---|-------|-------|---------|-------|
| Current period benefit cost                             | 1,368 | 2,140 | 3,508   | 3,878 |
| Unamortized actuarial (gain) / loss                     | (535) | (522) | (1,057) | 602   |
|   | 833   | 1,618 | 2,451   | 4,480 |
| MLAs contributions                                      | (289) | -     | (289)   | (319) |
| Pension expense   | 544   | 1,618 | 2,162   | 4,161 |
| Interest cost on the average accrued benefit obligation | 596   | 978   | 1,574   | 1,354 |
| Expected return on average pension plan assets          | (874) | -     | (874)   | (707) |
| Pension interest expense                                | (278) | 978   | 700     | 647   |
| Total pension expenses                                  | 266   | 2,596 | 2,862   | 4,808 |

Pension benefits paid for the LARAF and SRAF were \$1,092 and \$1,030, respectively (2022 - \$2,194 and \$1,005, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$880 and \$1,774, respectively (2022 - \$850 and \$1,769, respectively).

The changes in the other employee benefits liabilities during the year were as follows:  $\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{2} \left( \frac{1}{2} \right) \left( \frac{$

### 14 LIABILITY FOR IQALUIT INTERNATIONAL AIRPORT

In September 2013, the Government signed agreements as part of a public-private partnership (P3) arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The airport officially opened and began operations on August 9, 2017. The estimated cost of the project was \$305,376. The actual cost incurred by the private partnership was \$298,430. The capital costs of the arrangement was partially funded by the Government of Canada. The Government of Nunavut received \$74,160 from the Government of Canada during 2017-18.

|   | 2023    | 2022    |
|---|---------|---------|
| Loan payable in monthly instalments of \$1,069 to December 2047, bearing interest at a rate of 7.23%. | 147,669 | 149,743 |

Interest expense on long-term debt relating to the Iqaluit International Airport was \$10,756 for the year (2022 - \$10,900). Interest paid during the year was \$10,756 (2022 - \$10,900).

Principal and interest amounts due in each of the next five fiscal years and thereafter on the liability are as follows:

|                 | Principal | Interest | Total   |  |
|-----------------|-----------|----------|---------|--|
| 2024            | 2,229     | 10,601   | 12,830  |  |

| 2029 and beyond | 134,732   | 118,656  | 253,388 |  |
|                 | 147,669   | 169,868  | 317,537 |  |

### 15 CAPITAL LEASE OBLIGATIONS

Capital lease obligations are based upon contractual minimum lease payments for leases in effect as of March 31. The original capital leases, with terms of 20 years, expired between 2019 and 2020. On July 1, 2017, the Government entered into lease amending and extension agreements with the lessor that extended the original terms by another 10 years.

|   | 2023    | 2022    |
|---|---------|---------|
| Total minimum lease payments            | 44,311  | 51,905  |
| Less: Imputed interest                  | (3,274) | (4,409) |
| Present value of minimum lease payments | 41,037  | 47,496  |

Minimum lease payments, including principal and interest, for each of the next five years and thereafter are as follows:

|                 | Principal | Interest | Total  |  |
|-----------------|-----------|----------|--------|--|
| 2024            | 6,099     | 954      | 7,053  |  |
| 2025            | 6,266     | 788      | 7,054  |  |
| 2026            | 6,438     | 615      | 7,053  |  |
| 2027            | 6,495     | 437      | 6,932  |  |
| 2028            | 5,988     | 286      | 6,274  |  |
| 2029 and beyond | 9,751     | 194      | 9,945  |  |
|                 | 41,037    | 3,274    | 44,311 |  |

Lease payments are allocated between repayment of the liability and interest expense. The total minimum lease payments less the initial liability represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$1,134 (2022 - \$1,324) at an implied average interest rate of 2.5% (2022 - 2.6%). Interest paid for the year was \$1,134 (2022 - \$1,324). The capital lease obligations expire between 2023 and 2030.

### 16 LIABILITY FOR NUNAVUT ENERGY MANAGEMENT PROGRAM PROJECT

|                                      | 2023   | 2022   |
|--------------------------------------|--------|--------|
| Project financing payable - Baffin   | 208    | 538    |
| Project financing payable - Kivalliq | 17,688 | 16,443 |
|                                      | 17,896 | 16,981 |

Under the Nunavut Energy Management Program Project - Baffin region, the Government has entered into an energy savings contract arrangement that includes an ongoing responsibility for making all principal and interest payments associated with the third-party financing of costs of improvements under the project. Payments were due monthly at \$139 to 2019, \$95 to 2022 and \$21 to July 2023 at an average interest rate of 5.13% (2022 - 5.13%). Interest expense on the project for the year was \$13 (2022 - \$62). Interest paid during the year was \$13 (2022 - \$62).

Future payment for the Nunavut Energy Management Program Baffin Project for next year is as follows:

|      | Principal | Interest | Total |  |
|------|-----------|----------|-------|--|
| 2024 | 208       | 1        | 209   |  |
|      | 208       | 1        | 209   |  |

#### **PUBLIC ACCOUNTS**

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

#### 16 LIABILITY FOR NUNAVUT ENERGY MANAGEMENT PROGRAM PROJECT (continued)

Under the Nunavut Energy Management Program Project - Kivalliq region, the Government has entered into a contract for \$24,258 that includes all principal and interest payments associated with the third-party financing of costs of improvements under the project. The project was completed in November 2022, and payments are due monthly at \$254 until August 2030, at an average interest rate of 6.63% (2022 - 6.3%). Interest expense on the project for the year was \$418 (2022 - \$452). Interest paid during the year was \$418 (2022 - nil).

Future payments for the Nunavut Energy Management Program Kivallig Project, for each of the next five years and thereafter are as follows:

|                 | Principal | Interest | Total  |  |
|-----------------|-----------|----------|--------|--|
| 2024            | 1,929     | 1,115    | 3,044  |  |
| 2025            | 2,061     | 983      | 3,044  |  |
| 2026            | 2,201     | 842      | 3,043  |  |
| 2027            | 2,352     | 691      | 3,043  |  |
| 2028            | 2,513     | 531      | 3,044  |  |
| 2029 and beyond | 6,632     | 551      | 7,183  |  |
|                 | 17,688    | 4,713    | 22,401 |  |

#### 17 ASSET RETIREMENT OBLIGATIONS

The Government owns and operates several buildings that are known to have asbestos, lead, mercury, and PCBs which represents a health hazard upon demolition of the building and there is a legal obligation to remove it in accordance with Canada Occupational Health and Safety Regulations (10.26 Schedule, Division II – Hazardous Substances Other than Hazardous Products). Following the adoption of PS 3280 Asset Retirement Obligations, the Government recognized an obligation relating to the removal and post-removal care of asbestos, lead, mercury, or PCBs in buildings at April 1, 2022 (see Note 3). Post-closure care is estimated to extend for up to one year after the closure of the building, while demolition and decommissioning continues.

The transition and recognition of asset retirement obligations involved an increase to the buildings and the restatement of prior year balances (see Note 3). The liability was estimated using costs for similar remediations and then discounted to the present value amount using a discount rate as noted in the table below. There are no expected recoveries and the estimated liability includes a contingency of 10%. No assets have been designated to settle any asset retirement obligations and amortization of the asset retirement obligation is on the same basis as the related asset.

|                                  | 2023   | 2022     |
|----------------------------------|--------|----------|
| Opening balance                  | 80,129 | 77,954   |
| Accretion expense                | 2,236  | 2,175    |
| Revisions to estimated cash flow | 401    | <u> </u> |
| Closing balance                  | 82,766 | 80,129   |

In addition to assumptions based on the costing and prevalence of asset retirement obligations determined using sample testing of units throughout the territory, the following is a summary of the key information and assumptions upon which the carrying amount of the asset retirement obligations are based:

|               |  | 2023      | 2022      |
|---------------|--|-----------|-----------|
| (i)           | Total undiscounted asset retirement obligations                      | 77,954    | 77,954    |
| (ii)          | Expected timing of payments  | 2024-2054 | 2023-2054 |
| (iii)         | Discount rate  | 3.04%     | 2.79%     |
| (iv)          | Inflation rate   | 2.00%     | 2.00%     |
| This provisio | n is highly sensitive to the discount rate and inflation rate used.  |           |           |
| i)            | A 1% increase in the discount rate would decrease the obligation by  | 1,615     | 1,610     |
| ii)           | A 1% increase in the inflation rate would increase the obligation by | nil       | nil       |

#### 18 PETROLEUM PRODUCTS STABILIZATION FUND

The Petroleum Products Stabilization Fund was created under the authority of the *Revolving Funds Act*. The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold, and distributed by the Government. The net profit (loss) of the Petroleum Products Revolving Fund is charged to the Petroleum Products Stabilization Fund. The surplus or deficit balance in the fund cannot exceed \$20,000.

|  | 2023     | 2022     |
|--|----------|----------|
| Surplus (deficit), beginning of year                             | (12,809) | (13,164) |
| Petroleum Products Revolving Fund net profit (loss) for the year | (11,910) | 355      |
| Minimum transfer required from (to) Consolidated Revenue Fund    | 4,719    | -        |
| Surplus (deficit), end of year                                   | (20,000) | (12,809) |

#### 19 CONTRACTUAL OBLIGATIONS

The Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2023:

|  | Total     |
|--|-----------|
| Operating leases (Schedule 5)                          | 39,489    |
| Capital commitments                                    | 240,235   |
| Operational commitments                                | 594,034   |
| Policing agreement                                     | 604,701   |
| Iqaluit International Airport Improvement commitments  | 615,750   |
|  | 2,094,209 |
| Contractual obligations by fiscal year are as follows: |           |
| 2024   | 494,597   |
| 2025   | 277,341   |
| 2026   | 203,668   |
| 2027   | 134,874   |
| 2028   | 119,292   |
| 2029 and beyond  | 864,437   |
|  | 2,094,209 |

#### 20 CONTRACTUAL RIGHTS

The Government enters into various agreements to provide goods and services with various businesses and government agencies. These agreements will result in revenue and assets in the future. The following table summarizes the contractual rights of the Government where the terms of those agreements are met.

| Canada Infrastructure Plan<br>Health Canada Agreements | <b>Total</b><br>535,033<br>133,131 |
|--|------------------------------------|
| New Building Canada Fund                               | 131,540                            |
| Others / Third Party Agreements                        | 129,129                            |
|  | 928,833                            |
| Contractual rights by fiscal year are as follows:      |                                    |
| 2024   | 161,277                            |
| 2025   | 175,532                            |
| 2026   | 269,981                            |
| 2027   | 258,919                            |
| 2028   | 45,706                             |
| 2029 and beyond  | 17,418                             |
|  | 928,833                            |

#### 21 CONTINGENCIES

#### (a) Post-division adjustments

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can reasonably be estimated. As at March 31, 2023, no new post-division adjustments were recorded.

#### (b) Litigation

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. Where it is likely that there will be a future payment and a reasonable estimate of the amount can be made, the Government has recorded a liability. For those pending cases, where the outcome is not determinable as at March 31 and a reasonable estimate of the amount can be made, the total amount of those claims is estimated at \$270 (2022 - \$11,270). No liability has been recorded for these claims as the outcome of these cases is not determinable.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. Where it is likely that there will be a future payment and a reasonable estimate of the amount can be made, the Government has recorded a liability. For those pending cases, where the outcome is not determinable as at March 31 and a reasonable estimate of the amount can be made, the total amount of those claims is estimated at \$130,958 (2022 - \$146,775). No liability has been recorded for these claims as the outcome of these cases is not determinable.

#### **PUBLIC ACCOUNTS**

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

#### 21 CONTINGENCIES (continued)

#### (c) Loan guarantees

As part of its financing, the Qulliq Energy Corporation (QEC) has arranged various credit facilities at different terms and interest rates. The Government has guaranteed the following QEC credit facilities:

|   | 2023    | 2022    |
|---|---------|---------|
| Bank credit facility, interest at prime minus 0.50%                               | -       | 7,570   |
| Variable rate capital loan facility due June 2023, interest at prime minus 0.50%  | 9,667   | 10,667  |
| Variable rate capital loan facility due April 2024, interest at prime minus 0.50% | 8,867   | 9,667   |
| Variable rate capital loan facility due April 2032, interest at prime minus 0.50% | 160,971 | 170,055 |
| Total guarantees provided on balances outstanding                                 | 179,505 | 197,959 |

The QEC has a bank credit facility limit of \$20,000 (2022 - \$20,000). The non-revolving committed and bridge loan facilities above each, has an option to utilize BAs with stamping fees calculated at 50 bps per annum with terms not less than 7 days and not more than 365 days and issued and re-issued in minimum aggregate amounts of \$1,000 Canadian and multiples thereof.

Based on its operational needs, the Nunavut Development Corporation (NDC) may from time to time be in a bank overdraft position. The overdraft is guaranteed by the Government, and interest on the overdraft is charged based on a rate of prime plus 0.50% per annum. Interest is charged only when NDC's operating account is in an overdraft position and the pooled accounts of the Government are also in an overdraft position. As at March 31, 2023, NDC's bank overdraft position was nil (2022 - nil).

#### 22 RELATED PARTIES

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year, the Government made grants and contributions to or funded other costs for the following related parties:

|                                     | 2023   | 2022   |
|-------------------------------------|--------|--------|
| Nunavut Arctic College              | 922    | 2,359  |
| District Education Authorities      | 14,390 | 14,195 |
| Nunavut Development Corporation     | 3,735  | 3,537  |
| Nunavut Business Credit Corporation | 900    | 900    |
|                                     | 19,947 | 20,991 |

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided include personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal, and interpretation services. Direct costs of \$55,464 (2022 - \$48,273) were incurred and recovered from related parties. Grants and contributions from the Government of Nunavut to Nunavut Arctic College and Nunavut Housing Corporation are disclosed separately in the Schedule of Expenses Funded under Approved Appropriations (Schedule B.1).

#### 23 TRUSTS UNDER ADMINISTRATION

The Government administers trust accounts on behalf of third parties. These trust accounts are not included in the reported assets and liabilities of the Government.

|                                      | 2023   | 2022  |
|--------------------------------------|--------|-------|
| Public Trustee                       | 8,170  | 7,462 |
| Natural Resources Conservation Trust | 1,755  | 1,465 |
| Territorial Court Trust              | 661    | 596   |
|                                      | 10.586 | 9.523 |

#### 24 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The Government is exposed to certain risks as a result of holding financial instruments. There have been no changes to the risks compared to prior year and no change in the methods and practices used to manage these risks. The following risks have no significant impact on the Government's financial statements.

#### (a) Credit Risk

Credit risk is the risk that a third party will be unable to fulfill its payment obligations and cause a financial loss to the Government. The Government is exposed to credit risk through its cash and cash equivalents, accounts receivable, portfolio and other investments and loans receivables. The maximum extent of the exposure is the carrying value at the reporting date. At the end of 2023, there were no known relevant concentrations of credit risk by type of customer or geography. The Government's credit risk exposure is mainly influenced by individual customer characteristics.

Exposure to credit risk associated with its cash and cash equivalents is substantially minimized by placing these assets in senior Canadian chartered banks and the Government monitors these assets. The Government invests surplus funds to earn investment income with the deposits in a recognized large financial institution and cash equivalents are invested in short-term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition. As a result, credit risk arising from cash and cash equivalents is considered negligible.

Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2023

(in thousands of dollars)

#### 24 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (continued)

To mitigate risk, the Government regularly monitors its accounts receivable and assesses collectability. Where collection is at risk, an allowance for doubtful accounts is recognized. The allowance is based on specific accounts and is determined by considering the Government's knowledge of the financial conditions of customers, the aging of the receivable, current business conditions and historical experience. Receivables from the Government of Canada are not considered impaired.

Accounts receivable are generally due in 60 days or less. The Government utilizes an allowance account for potential losses related to accounts receivable. Any amounts subsequently recovered are reflected as recoveries in the statement of operations and accumulated surplus.

The aging analysis of accounts receivable, for amounts past due but not impaired, is as follows:

|   | 31-60 days | 61-90 days | Over 90 days | 2023             |
|---|------------|------------|--------------|------------------|
| Accounts receivable Consolidated revenue fund | - 0.440    | -<br>7 000 | 30,987       | 30,987<br>19.730 |
| Petroleum Products Division                   | 9,440      | 7,228      | 3,062        | 19,730           |
|   | 9,440      | 7,228      | 34,049       | 50,717           |

<sup>\*</sup> Comparative figures are not presented as the new accounting standard P3540 is applied prospectively.

The above table excludes \$81.7M (2022- \$48.6M) amounts from related parties as the amounts are not considered impaired. Amounts past due but not impaired is based on credit history and/or no indications that amounts will not be collected.

The Government's investment policy for portfolio and other investments is designed to limit credit risk. Portfolio and other investments risk is mitigated by investing in low-risk Guaranteed Investment Certificates and Bankers' Acceptances.

#### (b) Liquidity Risk

Liquidity risk is the risk that the Government will not be able to meet its short term financial obligations. To manage liquidity risk, the Government-maintains cash reserves (cash and cash equivalents) at levels that will meet future cash requirements. The Government's liquidity risk is further mitigated by its short-term portfolio investments, access to credit facilities and the timing of debt repayments.

A maturity analysis of the Government's financial liabilities is as follows (the contractual cash flows reported are the undiscounted principle payments):

|   | 2024 Estimated | 2025 to 2028 | 2029 to 2047 | 2023    |
|---|----------------|--------------|--------------|---------|
| Accounts payable and accrued liabilities    | 507,090        | -            | -            | 507,090 |
| Liability for Iqaluit International Airport | 12,830         | 51,319       | 253,388      | 317,537 |
|   | 519,920        | 51,319       | 253,388      | 824,627 |

<sup>\*</sup> Comparative figures are not presented as the new accounting standard P3540 is applied prospectively.

The Government does not currently believe that it will encounter difficulty in meeting its future obligations associated with its financial liabilities.

#### (c) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market place. The Government is not significantly exposed to interest rate risk on its portfolio investments as these investments are not held on the open market, are intended to be held until the end of the term and have fixed interest rates until that time. Although management monitors exposure to interest rate fluctuations, its does not employ any interest rate management policies to counteract interest rate fluctuations.

Long-term debt is comprised primarily of instruments with fixed interest rates; therefore the Government has not provided a sensitivity analysis to show the effect of interest rate changes on operating results.

The Government is not exposed to significant foreign exchange or other price risk.

#### 25 BUDGET ADJUSTMENTS

The 2023 total revenue budget on page xi of the 2022-2023 Main Estimates is \$2,624,087. It includes \$2,256,908 of 'Revenues' and \$222,155 of 'Vote 5 Revenues' on page A-IV-4 of the 2022-2023 Main Estimates, plus \$145,024 of funding under third-party agreements for specific capital projects included on page A-IV-15 of the 2022-2023 Capital Estimates. The planned expenses to be funded by these additional revenues have been added to the affected budget totals disclosed in these statements.

The 2023 budget total for capital expenditures on Schedule B.2 of \$109,736 excludes the \$4,290 of CMHC capital projects and \$30,998 of Social Infrastructure Fund & Investment in Affordable Housing capital projects that were both budgeted for in Nunavut Housing Corporation. As a result, the budget totals for expenses and transfers under third-party funding agreements included in these statements is \$331,891 versus \$367,179 on page xi of the 2022-2023 Main Estimates. The third party funded Infrastructure Projects under the New Building Canada Fund are included in Community and Government Services.

The tangible capital asset additions presented in the Statement of Cash Flow excludes non-cash acquisitions totalling \$21,271 (2022 - \$28,269) which represent unpaid purchases and holdbacks that are included in accounts payables and accrued liabilities as well as the liability for the Nunavut Energy Management Program at March 31, 2023.

<sup>\*</sup> As of April 1, 2021, the Government recognized a liability related to Asset Retirement Obligations related to asbestos remediation. As a result, an increase of \$58,750 to the buildings tangible capital asset account, representing the original estimate of the obligation as of the date of purchase, and an accompanying increase of \$58,750 to accumulated amortization, representing the amortization had the liability originally been recognized has been recorded. See Note 3 to the non consolidated financial statements.

<sup>\*\*</sup> Asset retirement cost impact of revisions in estimated cash flows on the asset retirement obligation due to a change in the discount rate during the year.

Schedule 4

Non-Consolidated Schedule of Write-offs and Student Loan Remissions (unaudited)

for the year ended March 31, 2023

Under subsection 26(1) of the *Financial Administration Act* any remissions or write-offs over \$500 must be disclosed in the Public Accounts.

### **WRITE-OFFS**

No amounts were written off during the year.

### STUDENT LOAN REMISSIONS

Under the *Student Financial Assistance Regulations*, the Government may forego collection of students' loans, provided certain criteria are met. Students, having met the academic and the employment or residency criteria, qualify for and are granted remission of their loans.

No amounts were remissed during the year.

Schedule 5

Non-Consolidated Schedule of Contractual Obligations under Operating Leases (unaudited)

for the year ended March 31, 2023

(in thousands of dollars)
