Honorable Alexander Sammurtok

For presentation at Nunavut Legislative Assembly

We, the Director's for Chesterfield Inlet Nunavut Housing Association request your assistance to voice our concern over Housing Unit Allocation for our community.

This request is made for the following reasons:

- 1) We have in our community an influx of younger generation living with and starting their family while still living with their parent(s) and or grandparent(s).
- 2) The young people starting a family while still residing with parent(s) and or grandparent(s) create an ever present and unpleasant for some the over-crowding issues.
- 3) We feel the formula for allocating new units to communities should be re-visited to create a soluble fairness to smaller communities who are struggling to compensate the overcrowding that initiates to mental well being and family division due to lack of housing for the young people who are starting a new family setting of their own. Allocating more units would surely offset the issues arising from overcrowding.

Thank you for your assistance with this matter presently at hand in our community.
