## Purpose

The Department of Community and Government Services (CGS) is pleased to present this report on the Government of Nunavut (GN's) procurement and contracting activities for the 2017/18 fiscal year.

## Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

## Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts as reported by GN departments to CGS's Procurement, Logistics and Contract Support section.

Contracts entered into by the GN Crown agencies and the Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during the 2017/2018 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the Nunavummi Nangminiaqtunik Ikajuuti (NNI Regulations) and applicable GN policies and procedures.

## Revised NNI Policy (Regulations)

On March 29, 2016, the Government of Nunavut approved a revised NNI Policy which came into effect as of September 7, 2017. The new NNI Regulations increased the total possible bid adjustments from 21% to 25%. This included an increase from 7% to 15% for 100% owned Inuit Firms. The statistics contained in this report include the new NNI Regulations for the 2017/18 fiscal year.

### Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and tables are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one time initiatives. Readers of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report, and consider the many other reports and published program information made available by the GN as well.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the annual results. For instance, a significant level of capital projects in one year would likely reveal a high level of Public Tendering which is the typical approach when awarding large value major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in Public Tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments.

Major capital projects typically follow a period of planning which includes inception, planning and design phases prior to the period of intense construction activity. The following year would normally show a large reduction in contracting activity. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method.

A year in which a number of large capital projects are entering their design phase would see an increase in the volume and value of spending activity on design contracts ("A/E"). Given that the design phases of capital projects are typically followed by construction, it would be logical to see corresponding increases in the number and value of major construction contracts awarded ("CON") in the following year.

Given that design and construction contracts are typically higher value contracts awarded through a Public RFP or Tender method, whereas other types of contracts are typically of smaller value awarded through an invitational process; a significant decrease in the infrastructure contract values with no change in the other contract values could imply an increase in Invited Tenders or Proposals even though there is no real increase in those activities.

Contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding the health and welfare of Nunavummiut may warrant special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where a delay would be injurious to the public interest, or where there is only one vendor available and qualified enough to perform the contract. Therefore in a year in which the level of capital spending is low, the proportion of non competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contracting Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

## **Sole Source Contract Observations**

Sole Source contracting practices are monitored closely. The GN believes we get the best value for our money through competitive bidding processes, however, there are limited situations where the contracting regulations permit awarding contracts without competition. Section 3 of this report discusses the acceptable conditions for awarding contracts without competition.

The GN continues to review the contributing factors to contracts that have been Sole Sourced. CGS monitors the various types of contracts entered into without competition, and can offer strategic planning and other services to assist departments in decreasing their reliance on the Sole Sourcing methodology; especially where the permitted Sole Source criteria may not be met. For example, 'delay would be injurious to the public interest' is sometimes misunderstood, and the criterion 'there is only one party capable and available' is also sometimes relied upon without sufficient marketplace research or other appropriate data to support the request.

We will continue to work with departments towards reducing the use of this contracting method. In 2017/18 Sole Source contracts, decreased in volume by 8% and, decreased in value by 3%. The number of Sole Source contracts are more prevalent in contracts valued under \$100,000.

### Not Included in These Statistics

Note: The statistical numbers in this report do not include four (4) large categories of contracts. Those are:

	2017/2018	2016/2017	2015/2016
1. Scheduled Medical Travel	\$ 45M (est.)	\$ 44M (est.)	\$ 39M (est.)
2. Fuel (PPD)	\$ 137M (est.)	\$ 155M (est.)	\$ 180M (est.)
3. Police and Laboratory Services	\$ 41M (est.)	\$ 43M (est.)	\$ 37M (est.)
4. Physician Services	\$ 19M (est.)	\$ 23M (est.)	\$ 27M (est.)

These four high value categories total approximately \$242 million in 2017/18. Medical Travel, Fuel Resupply and Physician Services are the result of a competitive process, Police and Laboratory Services is an extension of a previous contract with the RCMP. If we include these numbers, **Sole Source** contracts would value approximately 7% of total expenditures. Eliminating these numbers from statistical analysis allows for a more detailed and closer examination of Sole Source contracts. The total volume of Sole Source contracts continues to decrease over the last twelve years.

In 2017/18, we awarded a contract for the Supply and Delivery of Bulk Petroleum Fuel through a competitive procurement process. This contract is worth approximately \$750 Million over 5 years. This contract was awarded to an Inuit owned firm, AV Nunavut Fuels. For the purpose of this report, we have chosen not to include this contract total in the statistics. If it were to be included, the percentage value of sole source contracts would be 3%. Removing this large contract value allows for continued tracking of contracting trends over the last 12 years.

**Appendix A** outlines the definitions of terms and abbreviations.

**Appendix B** entitled *Sole Source Listing* provides a listing of all Sole Sourced contracts by value (> \$5,000) in ascending order.

**Appendix C** entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the award value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

**Scheduled Medical Travel**

The detailed lists in Appendices B and C do not include the value of Scheduled Medical Travel awarded by the Department of Health in 2017/18. At the request of Members of the Legislative Assembly, we are providing a breakdown of dollar amounts spent in each fiscal year with each of the carriers for non emergency medical travel:

<b>Airline</b>	<b>2017/2018</b>	<b>2016/2017</b>	<b>2015/2016</b>
Calm Air	\$ 19,039,184	\$ 18,217,234	\$ 15,206,830
Canadian North	\$ 10,423,237	\$ 11,544,597	\$ 10,527,021
First Air	\$ 15,168,128	\$ 13,897,082	\$ 13,130,298
Keewatin Air Limited	\$ 573,009	\$ 742,906	\$ 871,507
<b>Total:</b>	<b>\$ 45,203,558</b>	<b>\$ 44,401,819</b>	<b>\$ 39,735,656</b>

**Fuel Re-supply**

The following companies were awarded contracts for the fuel re-supply:

<b>Company</b>	<b>2017/2018</b>	<b>2016/2017</b>	<b>2015/2016</b>
5140 Nunavut Ltd.	\$ 255,360	-	-
Arctic Fuel Services	\$ -	\$ 328	-
Arqvirtuq Services Ltd.	-	-	\$ 577

Woodwards	\$ 134,167,910	\$ 153,754,175	\$ 178,609,899

### Contracts Awarded by Executive Council

The Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were **no** contracts awarded by Executive Council for the reporting period.

## General Observations

This *Procurement Activity Report* (PAR) and the sister report, *Contract Activity Report* (CAR) are composed of data from the same database. Contract information is reported from all departments of the Government of Nunavut. It is quite possible that as the contract information is entered into the database, that some human error will occur. The Department of Community and Government Services (CGS) makes best efforts to verify the accuracy and completeness of the dataset. We use various sources of external information (Freebalance, Requisition Log and Contract Management Listing) to verify the data. It is virtually impossible to assure 100% accuracy. However, even though it is a less than perfect system, we can rely on many repetitive, multi year trends in the data analysis. This next section of the report will make a brief synopsis of the statistical results for the fiscal year 2017/18 and will also outline some of the multi year trends.

The actual **volume** of contracts (number of contracts issued) increased by 4.6% from 2016/17 to 2017/18.

The actual **value** of contracts increased significantly by 43% from 2016/17 and up 35% from 2015/16.

The department with the largest **volume** of contracts is Community and Government Services (CGS) with 29% followed by Health (HLTH), at 24%.

In the last fiscal year 2017/18, the most common method of awarding contracts, by **volume**, is through Public and Invitational Tenders and RFP's (72%). This percentage was 75% in 2016/17.

85% of the total **value** of all contracts is the result of some form of competitive bidding in 2017/18. This is an increase of 3% from 2016/17.

In 2017/18 the combined volume of Sole Source and Sole Vendor contracts is up by 2% (or 12 contracts) but the value of combined Sole Source and Sole Supplier contracts is down by 17.6%, or \$10.7 million dollars.

### Multi Year Trends

The **volume** of Sole Sourced contracts has **decreased by 8%** from the fiscal year 2016/2017 to 2017/2018 and the **value** of Sole Sources decreased **by 3%** over the same period. Over the last three years covered in this report, the value of Sole Source contracts has **increased by 20%** and the volume Sole Sourced contracts has **decreased by 50%**.

Emergencies in communities will always require the use of Sole Source contracts. In 2018, the Department of Health Sole Sourced many contracts for the establishment of a TB screening and treatment centre in Qikiqtarjuaq. If not for the emergency contracting provision of the government contracting regulations, Health would not have been able respond to the emergency without delay. This illustrates the correct and appropriate application of the Sole Source criterion "delay would be injurious to the public interest" and is precisely why the regulations permit such a practical approach. In this report, a contract awarded under the emergency award provisions of the contracting regulations are identified as "SE" in Appendix C, and are included with the Sole Source (SS) figures in the tables in section 4 (Sole Source contract distribution).

The contracting regulations also allow the Sole Sourcing of design services under \$25,000 (AE), and any other type of contract under \$5,000. This report does not analyse contracts under \$5,000, however A/E contracts under \$25,000 are identified as "SA" in Appendix C.

The final criterion in the contracting regulations where awarding contracts without competition is permitted, 'SV' or 'only one qualified vendor is capable and available' is more difficult to quantify, and therefore applied with the most subjectivity. CGS recommends that the best way to substantiate availability of qualified contractors and consultants, is to go to the marketplace and request competitive bids. Sole Source (SS) and Sole Vendor (SV) contracts often cancel each other out from year to year. As the volume of Sole Source contracts trends downwards, the volume of Sole Vendor contracts often increases. The values and volumes for these contracts are presented separately in the tables in section 3 and 4.

Sole Vendor (SV) contracts typically include orders for Alcohol Products (for resale), Corcan Office Furniture, Software Updates, Support Services and Intellectual Property such as Specialized Training Courses and Educational Materials.

Over the last eleven years, the volume and value of Sole Source (only) contracting has been generally **decreasing**. The **volume** is **down by 89%** (from 515 in 2007/08 to 59 in 2017/18) and the **value** is **down** by 80% (from \$48 million in 2007/08 to \$9.8 million in 2017/18). These are significant achievements in the government's commitment to monitor and reduce its reliance on this contract awarding method.

A thirteen year average, since 2005/06, 520 contracts per year, or 30% of the total volume, are not competitively tendered. The yearly percentage of contracts not competitively tendered has been decreasing from a high of 38% in 2005/06 to 22% in 2017/18.

For contracting type by value, we see some eight and nine year trends:

- Architectural & Engineering composes 1-3% of total value.
- Minor Construction and Maintenance composes 2-5% of total value.
- Purchase Orders make up 7-11% of total value.

For contracting type by volume we see some 7-year trends:

- Architectural & Engineering composes 1-2% of contract volume.
- Minor Construction and Maintenance composes 3-5% of contract volume.
- Air Charters compose 5-8% of contract volume.
- Purchase Orders had been relatively consistent at 26-30% of volume of contracts however, in 2013/14 we saw a spike of up to 33%.
- Major Construction contracts compose 1% of volume.

Over the last eight (8) years, the volume of Air Charter contracts has been relatively consistent at 5-8% of the volume of all contracts.

Since 2013/14 to 2017/18, roughly 14-17% of the volume of all Service Contracts has been for employee relocation moving services.

For the last seven years Service Contracts and Purchase Orders combined represent the largest **volume** of contracts.

## Summary

### 1. All Contracts (> \$5,000)

The charts below “Government of Nunavut Contracting Value” summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

#### Government of Nunavut Contracting Value and Volume 3-Year Comparison

The *Procurement Activity Report* has been produced for the past sixteen fiscal years. The two charts above illustrate how the GN's contracting activities have changed over the past three years and are further supported by the details provided in the following table. The total value of contracts for 2017/18 shows an increase from the previous year (43%). In terms of volume, the number of contracts issued in 2017/2018 represents a 4.6% increase compared to the number of contracts awarded in 2016/17. 2017/18 shows an increase in volume of 30% since 2015/16.

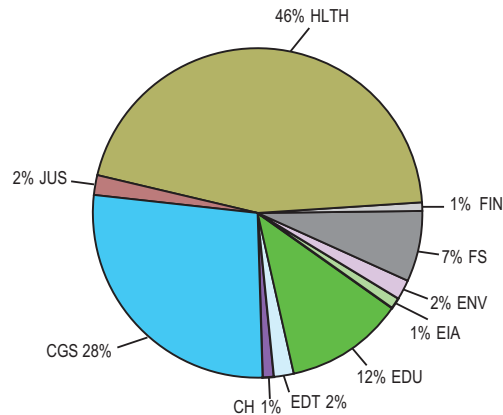

The following Average Contract Value shows that the average contract value has increased by \$56,000 over the last fiscal year. An analysis of Appendix C compared to the charts presented in this report, and those from past fiscal years will indicate areas where spending has increased or decreased.

#### All Contracts

Type	2017/18	2016/17	2015/16
Number of Contracts	2,563	2,450	1,978
Total Value (Thousands)	\$ 539,356	\$ 376,225	\$ 399,164
Avg Contract Value	\$ 210	\$ 154	\$ 202

The chart below “Government of Nunavut Department Distribution – Value” summarizes the distribution of contracts by department.

### Government of Nunavut Department Distribution – Value 2017/18

The chart above shows the level of contract activities each department engaged in during the 2017/2018 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure development, health, and emergency services engaged in higher levels of contract activities. Services are often needed in order to address the needs of Nunavummiut, fulfill departmental mandates and meet client service expectations and needs.

Note: For the purpose of tracking multi year trends, in the fiscal year 2013/2014 the Government of Nunavut implemented some structural changes. These were as follows:

- Family Services became a new division, largely broken off from Health.
- Human Resources no longer exists as a Department and those functions were adopted by Finance.

Generally, we saw the totals for Health decrease and those of Finance increased.

### Total Contract Distribution by Department – Value (Thousands)

Department	2017/18		2016/17		2015/16	
Community and Government Services (CGS)	\$ 152,363	28%	\$ 97,689	26%	\$ 199,596	50%
Culture and Heritage (CH)	3,147	1	2,346	1	700	-
Economic Development and Transportation (EDT)	9,548	2	26,463	7	30,865	8
Education (EDU)	62,368	12	74,988	20	15,700	4
Executive and Intergovernmental Affairs (EIA)	5,330	1	3,297	1	3,905	1
Environment (ENV)	10,133	2	8,356	2	6,488	2
Family Services (FS)	35,464	7	45,669	12	29,479	7
Finance (FIN)	6,845	1	8,154	2	9,303	2
Health (HLTH)	245,705	46	102,736	27	99,301	25
Justice (JUS)	8,453	2	6,528	2	3,829	1
<b>Total</b>	<b>\$ 539,356</b>	<b>100%</b>	<b>\$ 376,226</b>	<b>100%</b>	<b>\$ 399,166</b>	<b>100%</b>

In 2017/18 we saw an increase of \$163,130,000 and in 2016/17 we saw a decrease of \$22,940,000 in total contract spending. Please reference the full list in Appendix C of this report.

In 2016/17 we see that the Departments of Education and Family Services had significant increases in the values of contracts awarded. In 2017/18, we saw the numbers drop, however, still above the 2015/16 numbers.

In 2016/17, the Department of Education awarded the Construction of a New High School in Igloolik and temporary Modular Classrooms in Cape Dorset. The contracts account for \$26 million in the awards. We also see that the values of contracts awarded for CGS have returned to 2014/15 levels in 2016/17.

In 2017/18, we see significant increases in spending for the Departments of CGS and Health. CGS awarded contracts for a new Arena in Rankin Inlet and a new Water Treatment Plant in Arviat. For both the departments of Health and CGS, the volume of contracting activity has increased notably.

The chart below “Government of Nunavut Department Distribution – Volume” illustrates the distribution of contracts by department.

### Government of Nunavut Department Distribution – Volume 2017/18

We note that in the fiscal year 2017/18, the **volume** of contracts has **increased by 4.6%**. In 2016/17, we saw a significant increase of 24%. Over the 3 years covered by this report, we have seen a 30% increase in the volume of contracts.

The Departments of Health and Community and Government Services represent the highest level of contracting activity attributable to the Specialized Goods and Services required to meet the needs of Nunavummiut.

### Total Contract Distribution by Department – Volume

Department	2017/18		2016/17		2015/16	
Community and Government Services (CGS)	746	29%	574	23%	558	28%
Culture and Heritage (CH)	69	3	59	2	22	1
Economic Development and Transportation (EDT)	96	4	86	4	84	4
Education (EDU)	379	15	334	14	188	10
Executive and Intergovernmental Affairs (EIA)	73	3	81	3	74	4
Environment (ENV)	174	7	191	8	146	7
Family Services (FS)	166	6	293	12	226	11
Finance (FIN)	126	5	146	6	122	6
Health (HLTH)	622	24	567	23	449	23
Justice (JUS)	112	4	119	5	109	6
<b>Total</b>	<b>2,563</b>	<b>100%</b>	<b>2,450</b>	<b>100%</b>	<b>1,978</b>	<b>100%</b>

During 2016/17 Community and Government Services processed over 60 As and When contracts.

Most of the contracts for CGS support the ongoing operations of Government departments. These include "As and When" contracts for building and vehicle maintenance, snow removal, fuel and a significant volume of contacts for ongoing Information Technology Services.

For the Department of Family Services, a majority of their contracts are composed of Specialized Residential Care Services for individual clients.

In 2016/17 all departments saw an increase in the volume of contracts. In 2017/18, we see that 5 of the 10 departments continue to see increases in their contract volumes.

## 2. Contracting Types

The chart below “*Government of Nunavut Contracting Value*” summarizes the distribution of contract values by type.

**Government of Nunavut  
Contracting Types – Value  
2017/18**

The pie chart above shows that the categories of contracts that represent the largest spend are Service and Construction contracts. Appendix “C” lists all contracts over \$5,000. In 2017/18 we see an increase in overall contract value by 43%. However over the three years of this report, the overall value of contracts has increased by 35%.

In 2015/16, Construction had the lowest spend compared to the previous 3 years. In 2016/17 Construction has increased by 102%. Some of the significant projects included a new High School in Igloolik, Water and Wastewater Upgrades in Igloolik, a New Hamlet Office in Kugaaruk and a new Airport Terminal Building in Taloyoak. Together, these projects total over \$50 million. In 2017/18, we see the value of construction dropped slightly however still remains high. Some of the larger contracts awarded include a new School in Kugaaruk, a new Arena in Rankin Inlet and a new Water Treatment Plant in Arviat. Together these projects total over \$74 million.

In 2016/17 the value of Minor Construction and Maintenance Services has increased by 136% (this is largely due to the over 60 As and When contracts that were tendered). In 2017/18 the value is up by a further 17%.

In 2016/17 we also see a significant increase in Purchase Order value (41%). This is consistent with the overall increase in contract volumes. In 2017/18 we see a slight decrease of 7%.

Air Charter contracts may include contracts for any of the following:

- Court Travel, 18% of volume in 2013/14, 26% in 2014/15, 19% in 2015/16, 33% in 2016/17 and 16% in 2017/18.
- In support of PPD operations, 14% of volume in 2013/14, 19% in 2014/15, 7% in 2015/16, 5% in 2016/17 and 9% in 2017/18.
- Dental/Medical charters, 11% of volume in 2013/14, 23% in 2014/15, 13% 2015/16, 10% in 2016/17 and 15% in 2017/18.
- Wildlife Surveys, 11% of volume in 2013/14. In 2014/15, the volume for ENV was 5%, 4% in 2015/16, 8% in 2016/17 and 9% in 2017/18.

### Contracting Types – Value (Thousands)

Type	2017/18		2016/17		2015/16	
Air Charter (AC)	\$ 6,465	1%	\$ 5,693	2%	\$ 6,167	2%
Architectural/Engineering (AE)	3,082	1	14,116	4	6,255	2
Construction (CON)	101,061	19	104,087	28	51,524	13
Consulting services (CS)	80,648	15	44,968	12	49,210	12
Minor Construction or Maintenance Services (MC)	22,904	4	19,508	5	8,242	2
Purchase Orders (PO)	38,675	7	41,627	11	29,532	7
Service Contracts (SC)	286,520	53	146,227	39	248,234	62
<b>Total</b>	<b>\$ 539,355</b>	<b>100%</b>	<b>\$ 376,226</b>	<b>100%</b>	<b>\$ 399,164</b>	<b>100%</b>

Refer to Appendix “C” for a detailed contract listing.

The chart below “Government of Nunavut Contracting Types – Volume” illustrates the distribution of contracts by type.

**Government of Nunavut  
Contracting Types – Volume  
2017/18**

**Contracting Types – Volume**

Type	2017/18		2016/17		2015/16	
Air Charter (AC)	135	5%	144	6%	162	8%
Architectural/Engineering (AE)	29	1	34	1	18	1
Construction (CON)	15	1	23	1	20	1
Consulting services (CS)	687	27	403	16	382	19
Minor Construction or Maintenance Services (MC)	101	4	128	5	72	4
Purchase Orders (PO)	735	29	709	29	587	30
Service Contracts (SC)	861	34	1,009	41	737	37
<b>Total</b>	<b>2,563</b>	<b>100%</b>	<b>2,450</b>	<b>100%</b>	<b>1,978</b>	<b>100%</b>

Over the last ten (10) years, the volume of Air Charter contracts has been consistent at 5-8% of the total of all contracts. However, the value has varied significantly from year to year.

Contracts for Residential Care Services are awarded by the Departments of Family Services and Health. In total, approximately 228 contracts were for this service in 2017/18. These made up 70% of Consulting Service contracts, (mostly awarded by Family Services) and 30% of Service Contracts (mostly awarded by Health). The total volume of Residential Care contracts has decreased by approximately 30%.

In 2013/14, 30% (255) of the volume of Service Contracts were for the Departments of Health and Family Services for Specialized Residential Care. In 2014/15 the percentage was similar at 31%. In 2015/16 there were approximately 255 contracts for Residential Care. This has been reported in both Consulting Services and Service Contracts.

In 2013/14, 14% (120) of the volume of Service Contracts were for employee relocation in and out of Nunavut. In 2014/15 the percentage was similar at 15%. In 2015/16 employee relocation was 12% of Service Contracts. In 2016/17, employee relocation was 15% of the volume or 150 contracts. In 2017/18 there were 148 Service Contracts for employee relocation which composed 17% of all Service Contracts.

### 3. Contracting Methods

The chart below “*Government of Nunavut Contracting Methods – Value*” summarizes the distribution of contracting method by value.

**Government of Nunavut  
Contracting Methods – Value  
2017/18**

The definitions for the various contracting methods can be found in Appendix A of this report.

Public Tenders and Request for Proposals processes continue to represent the most significant contracting method employed by the GN. The GN believes that best value is received for goods & services through the public competitive tender process.

As in most jurisdictions, the awarding of contracts on a non competitive basis is understandably limited to specific situations and must be appropriately justified and approved.

Compared to other award methods, the values for Invitational Tenders and Invitational RFP's appear small because only contracts under \$25,000 and Construction under \$100,000 are awarded through an invitational process. Contracts of a higher value must be awarded through a public process, therefore values for Public Tender and Public RFP's are higher.

The Request for Proposals process is generally recommended to enter into Consultant and Service Contracts. Tender processes are used for Goods, Construction and Maintenance purchases.

**Contracting Methods – Value  
(Thousands)**

Method	2017/18		2016/17		2015/16	
Extensions (EXT)	\$ 28,981	5%	\$ 5,374	1%	\$ 3,723	1%
Invitational RFP (IRFP)	6,421	1	3,355	1	3,247	1
Invitational Tender (IT)	8,246	2	8,276	2	7,792	2
Public RFP (PRFP)	351,753	65	195,407	52	256,784	64
Public Tender (PT)	93,851	17	102,979	27	71,619	18
Sole Source (SS & SE)	9,869	2	10,171	3	8,221	2
Sole Supplier or Vendor (SV)	40,236	7	50,663	13	47,779	12
<b>Total</b>	<b>\$539,357</b>	<b>100%</b>	<b>\$376,225</b>	<b>100%</b>	<b>\$399,165</b>	<b>100%</b>

Over the last eleven (11) years of this report, the overall volume and value of contracts that are not competitively tendered (SS, SE and SV) continues to decrease, as a percentage of the total. These contracts are classified as Sole Source (SS) and Sole Vendor (SV) Contracts generally continues to decrease. See trending figures below. The following figures represent the combined Sole Source and Sole Vendor (non competitive) process.

In 2017/18 the value of contracts not competitively tendered is down by 18%. And the percentage volume of contracts is down by 1%. In 2017/18 we see that the percentage volume of Sole Source contracts has reached an eleven year low of 22% and the value has reached an overall low of 9%.

An eleven (11) year analysis shows, on average, the GN awards 545 contracts per year that are not competitively tendered. These represent 29% of contract volumes.

**Sole Source and Sole Vendor Contract Trends**

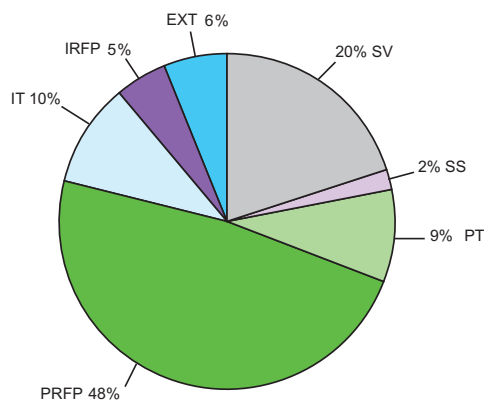

The following is a list of combined Sole Source and Sole Vendor totals by volume and value over the last 13 years. These numbers do not include contract extensions. Many contract extensions are the result of an initial competitive procurement process.

Year	Volume	%	Value	%
2017/18	576	22%	50,105	9%
2016/17	564	23%	60,834	16%
2015/16	520	26%	56,000	14%
2014/15	471	24%	53,511	19%
2013/14	550	29%	38,402	11%
2012/13	475	26%	42,258	12%
2011/12	530	28%	61,462	17%
2010/11	570	31%	58,114	21%
2009/10	597	33%	55,480	24%
2008/09	576	38%	61,409	22%
2007/08	563	39%	51,432	27%
2006/07	403	38%	33,454	26%
2005/06	370	38%	33,095	37%

The volume of not competitively tendered contracts as a percentage of the total volume decreased from 2007/08 to 2012/13. However the volume increased by 3% in 2013/14. This is largely due to books and curriculum materials purchased by the Department of Education to support a new curriculum. These books and materials are protected by copyright. While the volume increased in 2013/14, the overall value as a percentage of the total decreased by 1% from 12% to 11%. In 2014/15 the volume continues to decrease however, the value had jumped to 19%. This is largely due to 34 contracts awarded by the Department of Economic Development and Transportation worth an estimated value of \$16 million for Airport Operations and Maintenance and Aerodrome activities. All of these contracts, categorized as Sole Vendor (SV). In 2015/16 we see the volume increased to 26% but the value decreased to 14%. In 2016/17, the total volume and value have increased. However as a percentage of the volume of all contracts, the volume has continued to decrease.

The chart below “*Government of Nunavut Contracting Methods – Volume*” illustrates the distribution of contracting methodology.

### Government of Nunavut Contracting Methods – Volume 2017/18

Generally, 60-70% (78% in 2017/18) of the volume of contracts are the result of a competitive process. Note that in some circumstances, extensions of contracts may be considered competitive process if they were originally part of a competitive process; therefore not all extensions are non competitive.

It is also worthwhile to note that more departments are using the services of CGS Purchasing, Logistics and Contract Support to award their contracts through a competitive Tender or RFP process. CGS's Procurement, Logistics and Contract Support Services section continues to work with departments to decrease the use of Sole Source and Sole Vendor criteria to award contracts.

**Contracting Methods – Volume**

<b>Method</b>	<b>2017/18</b>		<b>2016/17</b>		<b>2015/16</b>	
Extensions (EXT)	151	6%	46	2%	32	2%
Invitational RFP (IRFP)	129	5	61	2	38	2
Invitational Tender (IT)	247	10	241	10	281	14
Public RFP (PRFP)	1,222	48	1,277	52	907	46
Public Tender (PT)	238	9	261	11	200	10
Sole Source (SS)	59	2	64	3	118	6
Sole Supplier or Vendor (SV)	517	20	500	20	402	20
<b>Total</b>	<b>2,563</b>	<b>100%</b>	<b>2,450</b>	<b>100%</b>	<b>1,978</b>	<b>100%</b>

Contracting without delay for competition, in emergency circumstances, where public safety and or continued service to public may otherwise be hampered, represents the proper use of the Sole Source contracting method. These emergencies are not predictable. Sole Source contracts are necessary for Goods and Services to avoid public harm.

Sole Source methods are of concern. Senior Managers and Directors need to continue to be conscious of this and plan to avoid Sole Source and Sole Vendor contracts where possible. GN Procurement Guidelines as well as the FAA (Financial Administration Act) clearly define the acceptable conditions for Sole Sourcing. Sole Sourcing is primarily a tool for dealing with emergency situations and public safety.

The next section of this report discusses the GN's Sole Sourcing activities in further detail. A detailed review of Appendix B will indicate where GN departments are using Sole Sourcing to assist them with implementing their mandates.

#### 4. Sole Source Contract Distribution

As a procurement section, we strive to achieve the maximum value for the Government of Nunavut. This is only possible through the competitive, public bidding process. GN procurement guidelines as well as the Government Contract Regulations set out the acceptable conditions for awarding contracts without competitive bidding (Sole Sourcing). Procurement guidelines explain the GN contracting regulations and provide restrictions for when a contract can be awarded without competition.

Sole Source contracting is allowed where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000, or the contract is any type of contract that will not exceed \$5,000 in value.

Section 4.3 (c) of the regulations is the easiest to implement because it requires only a 'yes/no' answer. Is the contract over \$5,000? If not, it does not fall within the 'under \$5,000 criterion'. Is it a contract for Architectural/Engineering Services under \$25,000? If not, then it does not fall within the 'AE under \$25,000' criterion.

Sections 4.3 (a) and (b) of the regulations, however, are more difficult to implement because they are subject to interpretation of what constitutes 'public injury' or 'capable and available'.

Section 4.3 (a) of the regulations can be somewhat tricky in that many contracting authorities believe that public well being, in addition to health and safety, are legitimate factors to consider when deciding not to go to competition. For example, it may be more beneficial to a community to Sole Source or Invite Tenders for Major Works contracts rather than Publicly Tender, when missing sealift can sometimes delay final delivery of a facility for 2 full years. In some cases, this may be a reasonable approach; however, it should not be the only alternative if project schedules fall behind due to a lack of strategic planning and project coordination.

In some situations it is not advisable to issue a competitive call for tenders or proposals, by invitation or advertisement. In these situations, the delay caused by the tender or RFP process would be harmful to person(s) or end users of the good or service. These are emergency situations where, if the government doesn't act immediately, there will be some form of public harm or injury. Where there is a true emergency, such as the risks to water supply or a search and rescue operation, it is quite easy to recognize, and reasonable to implement. In a true emergency, there is no time for a competitive procurement process. This is not to say that all emergencies or public harm is strictly a health and safety hazard. Indeed, many situations call for government action to improve the emotional health and well being of the public as well.

Section 4.3 (b) of the regulations on the other hand, can be especially difficult to manage as it is open to wider interpretation and, therefore, susceptible to much broader use. There are many circumstances, however, that do legitimately fall within the s.4.3 (b) criterion, and these are true "Sole Vendor" situations. Situations involving licenses, software maintenance, patents and intellectual property or the purchase of a part component for equipment, (such as a valve or pump to repair a fuel delivery truck or fire engine, or plow parts for snow clearing equipment). Situations that do not warrant a competitive process, because there are no other manufacturers or suppliers of the specific product, are true Sole Vendor circumstances. For instance, NorthwesTel is the Sole Vendor of land line telephone services in Nunavut; QEC is the Sole Vendor of electricity. These are situations where there truly are no other service providers to engage in competition.

This is not to say that a 'Sole Vendor' situation applies when purchasing many commodities. In fact, when purchasing vehicles and or other products such as photocopiers and fax machines, etc., the GN must avoid the use of brand specific names. Requests for Tenders and Proposals must always indicate that the GN will accept bids for similar or equivalent products so long as they meet the quality and functional requirements that are established in the request.

In some cases, it may be perceived by departments to be reasonable to rely on this clause to maintain delivery of critical programs and services at levels expected by the public or internal client departments (specialized professional services; such as licenses, medical professionals and services). In many cases, departments need to bring in specialized skill sets to design programs to meet responsibilities owed to the public and oversee that program's delivery. Sometimes departments simply need to keep up with demand in delivering basic services to internal clients. In this situation, the interpretation of 'only one party capable and available' can be too broad, and the criterion is likely being relied upon for convenience in lieu of a potentially lengthy and complex RFP process.

The GN believes that best value is received for public dollars through open, fair and transparent competitive procurement processes. Furthermore, CGS believes that the best way to determine a supplier's qualifications, availability and value is to seek their proposals on solution, implementation and price, and to evaluate their past experience and qualifications against defined and measurable standards.

The public's satisfaction with a department's performance and service levels, in any given program at any given time, will always be an indicator of good value for public money. In all cases where a department is considering entering into a contract under s.4.3 (b) of the contracting regulations, CGS Purchasing, Logistics & Contracts Support is available to provide assistance on alternative contracting approaches. Where departments have already entered into s.4.3 (b) contracts, Purchasing recommends referring to the GN's Personal Service Contracts directive for further guidelines.

The chart below “*Government of Nunavut Sole Source Contract Distribution – Value*” summarizes the distribution of contracting method by department.

### Government of Nunavut Sole Source Contract Distribution – Value 2017/18

It should be noted that certain functions and responsibilities that are unique to certain departments lead to a higher propensity for this contracting method. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management, fuel spills and potable water have been contributing factors for Sole Source contracts on occasion. The arctic environment and a short Construction season serve to complicate project delivery and contracting options. Good planning and project management practices help to alleviate the necessity to rely on Sole Sourcing.

In 2017/18 the volume of Sole Source contracts continues to decline by 8% and the value is down by 3%.

#### Eleven Year Sole Source Trend – Decrease

**Value of Competitively Awarded Contracts (not including contract extensions) as a percent of all contracts:**

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18
53%	62%	70%	76%	79%	86%	83%	77%	85%	82%	85%

**Value of Sole Source Contracts as a percent of all contracts:**

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18
25%	17%	14%	13%	9%	7%	5%	4%	2%	3%	2%

**Volume of Competitively Awarded Contracts as a percent of all contracts:**

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18
59%	60%	63%	63%	68%	71%	64%	71%	72%	75%	72%

**Volume of Sole Source Contracts as a percent of all contracts:**

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18
36%	29%	23%	22%	20%	20%	14%	9%	6%	3%	2%

The overall eleven year trend shows a significant decrease in both the value and volume of Sole Source contracts.

In 2017/18 the value of competitively awarded contracts as a percentage of all contracts is up slightly (3%) and the volume of Sole Sourced contracts is at an all time low of 2%.

Note that the "Sole Vendor" contracts are not included in this analysis. See section 3 of this report for analysis which includes "Sole Vendor" contracts. Extensions are a continuation of previously awarded contracts where the terms and conditions allow for the contract to be extended. These contracts are included in Appendix C.

### Sole Source Contract Distribution – Value (Thousands)

Department	2017/18		2016/17		2015/16	
Community and Government Services (CGS)	\$ 1,628	16%	\$ 1,329	11%	\$ 3,211	39%
Culture & Heritage (CH)	-	-	-	-	72	1
Economic Development and Transportation (EDT)	414	4	-	6	48	1
Education (EDU)	2,264	23	1,376	14	88	1
Executive and Intergovernmental Affairs (EIA)	-	-	28	4	-	-
Environment (ENV)	164	2	328	4	285	3
Family Services (FS)	-	-	-	-	260	3
Justice (JUS)	156	2	49	-	464	6
Health (HLTH)	5,243	53	7,061	69	3,794	46
Total	\$ 9,869	100%	\$ 10,171	100%	\$ 8,222	100%

For the three years of this report, the Department of Community and Government Services (CGS) has the highest number of Sole Source contracts. CGS is responsible for delivering many of the basic services of Nunavummiut (water, sewage, fire protection, etc.). In the event of emergencies, CGS plays a major role in delivering solutions. In these emergencies, Sole Source contracts are expected. These emergencies usually involve issues with infrastructure such as water and sewage or search and rescue operations.

CGS responds to a number of emergencies in the territory each year. Various search and rescue operations, water emergencies and other issues to ensure continuity of basic services. CGS was able to immediately and practically respond to all these emergencies due to the emergency contract provision of the GN contracting regulations. CGS was also able to quickly replenish depleted fuel supplies in some Nunavut communities due to the GN contracting regulations emergency sole source provisions.

In 2017/18 Health had to Sole Source a \$6 million dollar contract extension for Air Ambulance Services. If not for this contract, the value of Sole Source contracts would have been down.

The chart below “Government of Nunavut Sole Source Contract Distribution – Volume” illustrates the distribution of contracting methodology.

### Government of Nunavut Sole Source Contract Distribution – Volume 2017/18

Illustrated on the pie chart above on a proportionate basis in 2016/17, the Department of CGS issued the largest number of Sole Source contracts, followed by the Department of Health. For the three years covered by this report, the Departments of CGS and Health have had the highest volume of Sole Source contracts.

#### Sole Source Contract Distribution – Volume

Department	2017/18		2016/17		2015/16	
Community and Government Services (CGS)	27	46%	32	50%	47	40%

## Appendix A

### Definition of Terms and Abbreviations

#### Terms

**“Goods”**: In this report, “Goods” means contracts for the purchase of Goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

**“Invitation”**: An Invitation is a contracting method where Tender or Request for Proposal documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

**“Invitational Tender”**: An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit competitive tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

**“Invitational Request For Proposal”**: An Invitational Request for Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit competitive proposals.

**“Purchase Orders”**: In this report, “Purchase Orders” means contracts for purchase of Goods, primarily entered into by the Department of Community and Government Services on behalf of Government of Nunavut departments.

**“Public Tender”**: Public Tenders are those Request for Tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

**“Request For Proposal”**: A Request For Proposal (RFP) has been defined as follows, “when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price”.

**“Sole Source”**: A Sole Source is best defined by setting out the criteria. The Government of Nunavut Contract Regulations, under the *Financial Administration Act*, allow Sole Sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) the contract is any type of contract that will not exceed \$5,000 in value.

**“Request for Tender”**: Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
