October 22nd 2020

Mr. Craig Simailak
MLA for Baker Lake
Constituency Office
P.O. Box 376
Baker Lake, NU
X0C 0A0

Dear Mr. Simailak:

Re: GPS system for the Baker Lake Airport

The Municipality of Baker Lake was identified and scheduled to have GPS services installed at our airport. For whatever reason this installation has not yet occurred, and our community feels strongly this service would be very beneficial air traffic in our community.

Before the COVID outbreak, Baker Lake was a very busy airport and as such GPS services would enhance the safety of air traffic in our Region. While reviewing and updating the Hamlet ICSP at the October 15th 2020 Council Session the following motion was put forth and duly approved:

"That Council write MLA Craig Simailak inquiring when the Municipality of Baker Lake is scheduled to have a GPS system installed at the Baker Lake airport".

Can you make inquiries to the appropriate Minister as to a time frame when a GPS system will be installed at the Baker Lake airport? I thank you in advance for your immediate attention in this regard and Council looks forward to receiving your update. If you require more information or clarification, please let me know.

Thank you,

A handwritten signature in black ink, appearing to read "Richard Aksawnee".

Richard Aksawnee
Mayor
Municipality of Baker Lake
