RE: Extension of Runway in Naujaat

Dear Gary;

This letter is being drafted to show our unwavering support for funding and construction of the expansion of the runway in Naujaat from its current 3400 ft configuration to a 4000 ft runway. This initiative is absolutely vital to improve the level of service into our rapidly growing community as well as improve the standard of living to anyone who is living and working here. This will not only improve our current situation this is absolutely imperative to allow for future growth and economic opportunity for the citizens of Naujaat. Calm Air has our full support and we will work in partnership with you going forward and Hamlet Council will continually advocate for this project to happen at whatever level of Government that needs to be addressed. We believe that this construction must happen and it must be an immediate priority.

Sincerely;

Solomon Malliki  
Mayor  
Hamlet of Naujaat
