*Fuel Quality*

---

Thank you, Mr. Speaker.

Mr. Speaker, my questions are for the Minister of Community and Government Services, and they concern the issue of fuel quality.

As the Minister will recall, I wrote  
correspondence to her earlier this year  
regarding concerns that had been brought to  
my attention by hunters and other constituents  
regarding problems with fuel quality in <sup>UP</sup> the  
~~Kivalliq~~ region. NAUSART, MY RIDING

Can the Minister confirm when I can expect to  
receive her reply to my correspondence?

## Supplementary Questions

1. In my correspondence to the Minister, I alerted her to concerns that the gasoline supply in a number of Kivalliq communities appears to be silty and suffering from contamination. It is not clear if the fuel in question is from the 2020 or 2021 resupply years.

Can the Minister confirm what **specific** actions were taken to investigate the issues that I brought to her attention and will she commit to tabling the final report from the investigation in the Legislative Assembly before it dissolves later this week??

2. Can the Minister explain what process hunters should follow in applying for compensation from her department as a result of damage caused by problems with the quality of fuel supplied by the government?
